Arvind Mahadevan says

This is one of the most profound books that I have ever read. The Geeta is a great source of knowledge and truth. The commentary and explanations by Swami Chinmayananda provide a greater depth of understanding for those who have not spent their lives in metaphysical matters. I would recommend very strongly to anyone who wants to truly understand Hinduism and especially those who are seeking to build a foundation in to becoming a Hindu in thought and action.

A.D. Mercer says

I Have read several different editions of 'the Gita (Geeta)' starting with 'The B.G as it is' as well as other more classic translations, However Chinmaya's edition has to be my favourite, as well as being the the longest.

The B.G. itself is pretty much the same in each edition, with some minor variations in the translations, but it the commentaries that make the difference. I must confess I've not read all of the book as it runs to over 1200 pages, but I have read the sections of the Geeta that most gripped me when I first read it and Chinmaya's analysis of those sections is fantastic, as well as being very thought provoking, particularly when Chinmaya speaks of Arjuna's situation in psychological terms. As a psychotherapist this appeals to me. However this does not take anything away from the fact that the Geeta is a powerful spiritual texts, which leads to Krishna.

If I have any criticism with this edition it would be with the printing and not the text. Because the book is so long the paper is thin and there is some bleed though of the ink, nevertheless it is a remarkable edition (and well worth is low price tag)

There is no book in this world except than "Bhagwat geeta". This Book message always excite me to read more about this topic.

- 1) Swami Chinmayananada sarswati commentary on this topic is extensive, well summarized and beautifully assembled into words.
- 2) Explanation on each Verse is extensively scientific and related to current cognitive science. Books derived you from basic question of Ataman & Maya to World of Bhagwaan Krishna where every thing is connected with each other.
- 3) This book also identified the desired of current human question such as who I am, what will be the purpose, how to make life less trouble by using simple formulas of Bhagwat geeta.

I would like to Thanks Chinmayananada trust for Giving such nice book to world.
