What would you do for love?

The sequel to the best selling book The Third Heaven: The Rise of Fallen Stars is finally here!

Heaven stands decimated by war. Lucifer's exile places mankind at the center of the mad angel's plot to overthrow God.

Meanwhile, Michael must now take on a mantle of leadership that he did not seek and is tested to see if he is worthy of the title of Chief Prince.

Yet a conflict eats at him as he wrestles with his sworn duty to Heaven and his obedience to God; torn over a vision of a future revealed by the Creator himself--a future that shows the death of God.

Will Michael succumb to a darker path that once more would plunge Heaven into civil war or will he trust and yield to the revealed will of God?

For in order to save humanity and heal the rift to his kingdom, God will make the ultimate sacrifice on behalf of his beloved creation, answering for all time the most powerful questions driving the universe—whom will you serve and whom do you love?

#### **Excellent second book in this series**

This audiobook was both well written and the narrator has a very good voice. Similar to the first book you need to suspend your beliefs and this book could be how heaven, earth and man came into existence.

#### **I love this series**

Talk about making God a reality. These books give me hope especially in the Luciferian world we are yet again living in. Man seems to always sin no matter what. I wonder will we always recycle back to live a life void of love and good? P

In 2014, I enjoyed reading and reviewing The Third Heaven: The Rise of Fallen Stars by Donovan M. Neal. Now, here at the beginning of 2016, I have just finished reading its sequel, The Third Heaven: The Birth of God. I found it as impressive as the first book and thought it continues the story of Lucifer and his rebellion against God very well. Apart from the King James Version of the Holy Bible, I detected that the high style and the plot of both books were influenced by the Book of Enoch, which not only contains chapters about the fallen angels but gives the names of their leaders.

In The Third Heaven: The Birth of God, I liked the way Donovan M. Neal presented his angel characters convincingly as beings who were other than humans, far higher and more gifted than them. His original way of describing Heaven and Hell I admired, too. Bravely, he has written of high matters in a high style, and has managed to do so successively, in an intriguing, fascinating way.

#### **The struggle with trusting God**

This book focuses on the struggle with trusting God, even when you not only think you know better, or God's plan doesn't seem to be getting fulfilling properly (safely, in this case), but when it appears to you that His plan could lead to the destruction of all creation. Mr. Mark's imaginative capacity is still going strong and he weaves a good storyline, including Biblical history as the story unfolds. I enjoyed the book, and really enjoy expanding my vision and entertaining new ideas of what heaven and God might be like. However, once again the use/misuse of punctuation really distracts from the reading, since it is punctuation that indicates the cadence for the prose. I don't think this book is as good as the first one.

### **2nd in series**

Once more the horrors of the enemies of God are shown as they are. It isn't getting any easier to read such graphic portrayals but the end is not yet. The enemy won't win.

### **Interesting take on the Fathers plans.**

Having read book 1 I was interested to see what happens next. I enjoy reading about the Fall and angels etc, this book was a great fiction story which I believe holds possibly some truths. I did struggle however with the attitudes of some of the angels, some appeared very arrogant and for me too human. I enjoyed the way the Bible stories were told briefly and how the Lord revealed his plan to send His Son to earth.

Lucifer was actually an interesting character who really thinks that he can outwit the Father. He really and truly believes he will overthrow God. I am really looking forward to reading book 3 to see how Lucifer tries to turn Jesus.

The descriptions of the angelic battles were very good, but again I struggled with the concept of angels being portrayed in such human terms. I thoroughly enjoyed reading about Michael, his fear and doubt were for me a good moment as I too struggle with God knowing about Lucifer plans and doing nothing about it. That's what makes me human but as I keep saying I don't see angels in human terms.

It takes a lot of courage to write a book like this, clearly the author has thought long and hard about his characters, places and descriptions. Kudos!! However there were grammatical errors, speech marks, full stops in the wrong place. There were often words missing or just letters missing, by the end off the book I was just irritated with the frequency of these issues which did ruin the fluency of the read.

All said and done though I enjoyed reading this book and would recommend to any christian who has questions about the Fall and get a feel for some possible thoughts. If you just want a bit of religious fantasy then this book is something worth exploring.

### **Wow!! What a spiritual adventure story!**

It was quite an impactful story! With lists of fighting towards the middle and on into the end! Full of drama. I recommend this ebook only for those who could stand to read about fighting and blood being shed,etc. This is not an ebook for those who could not stand any of these and are very sensitive to reading things with a lot of violence! More for an adult to read than any young sensitive kids or adults. I wound up buying this myself and am now giving it an honest review for my senior self adage. Very great drama Neal! I pray though that you may find lots of people to buy this ebook. By Angela Sorry, I could not get this read any faster but I got overwhelmed with too many other ebooks to read shortly after I had downloaded your ebook but I said, I would get it and read and review it, yes? So here it is!

This book was so different from what I expected. I totally enjoyed this book. Reading this book felt like a walk through the Bible through the eyes of Angels. Mr. Neal has written a book which will tug on hearts and intrigue the mind with the vivid imagery of his story telling.

I really enjoyed this one. I thought the story progressed nicely & there were definite moments that I loved, like how the author wrote the Trinity & the individual Godhead. I also really liked Enoch. I'm guessing there is another book & I can't wait to read it. This book desperately needs a thorough editing by the way. If reading the word "angles" instead of "angels" over & over again bothers you, it's still worth the read because the story is great but that plus other grammatical errors definitely was distracting.

#### **The best!**

Mr. Neal has captured my heart with his writing. His words have been an inspiration to me. When I hear a passage of scripture my mind automatically sees how he described it. It has brought life and imagery to scripture. I get confused about the names of the characters but I just read over them. I would recommend these books to everyone. I could hardly put it down. Thanks Mr. Neal.

#### **Entertaining read**

This is a really entertaining take on biblical stories. Written from the perspective of Angels, the author takes a pretty refreshing approach on traditional text. I enjoyed both books in the series so far.

I think what makes Donovan Neal's writing so unique, is his ability to take scripture, early Hebrew writings and folklore and put them together in a thrilling plausible story written from a heavenly viewpoint. Handling time and theological mystery with aplomb, he gives us a glance into what an angel might view and feel.

I love the personalities and attributes of the different types of angels and the explanation of the ongoing war between Heaven and Satan's fallen angels. This was a fun read and in no way should we look at this book as revelation or scripture, though its contents are loosely based on scripture. As stated by the author this is speculative Christian fiction. You can't help but wonder at the things we cannot see and the longing in our hearts for the unknown back-story that frames the history of mankind. We know that God loves us, and yet to trust Him sometimes is so hard. We see the same problem with many of the angels in this story.

The character of Enoch is also very interesting and knowing the Old Testament we know that he did not die as other men but was brought to heaven because of his close walk with God. In this book he is given life and character. If he is anything like he is portrayed in this book I can see why God took him without death.

All in all this was a very satisfying romp through the imagination and story telling prowess of Mr. Donovan Neal. I would recommend this series to anyone who enjoys Christian Speculative Fiction. It is a real treat to look at heaven from a different viewpoint and let your imagination go! I am eagerly awaiting the third book of the series.

#### **Awesome read!!!!**

I like how the book showed how ALL HEAVEN does the will of Almighty GOD!  
It is a good reminder to the children of GOD that there are definitely more with us than against us.  
The one thing I didn't like was the show of there being more of the fallen than the Heavenly Host. Not true at all but a good read anyhow.
