Read and find what you need

Corrie says

Best of several dehydrator cookbooks I've skimmed through. Section for backpacking foods - excellent!

Kelliec says

I have this book on my kindle. It's going to require a hard copy. I'll keep looking for one on sale.

I've started dehydrating based on this book and have a nice stash started. Easy to follow, lots of tips and tricks and recipes.

Katie Nelson says

Great book for newbies.

Great book for newbies. I only have one negative comment and that is that I would like more pictures. I really enjoyed this book and I am a total newbie.

Jacque Hodges (Carter) says

I'm new to dehydrating, but this seems like a good basic book to start with. It has lots of tips, tricks, and recipes. I like to know the reasoning behind what I'm doing, and Ms Gangloff does a great job of explaining why dehydrating needs to be done the way it is.
