Lots of sex, very little substance. Characters fall in lust (I don't consider it love when the first thing that draws you to a person are their physical attributes) within seconds and then simply fall in bed. Then, because the sex is just so awesome, they're automatically soulmates. It's becoming more and more difficult to find books in this genre that provide any type of emotional investment for a reader.

Great stories

It is seldom that a box set has all great stories but this one does. I am familiar with a few of the authors and have become fan of theirs, the lines I don't know, I'll definitely be reading their books in the future

I loved this collection of stories about Alpha's. SK Lessly introduces her Controlled series which is off the charts. Each story illuminates an Alpha who is sexy and determined to have things his way in all he does. Great heat and suspense.. Some are full length stories and some are fabulous teasers...Great reads with some new authors...

Why tease me!!

I enjoyed the 4 full stories, but why tease me with the 3 sneak peeks???. I will be honest once I saw CREED and CONTROLLED were snippets I did not read them because I want to read the CREED and

CONTROLLED series in sequence. However, What about WE ALL FALL DOWN? When will that book be released? Sara Allen cannot keep me hanging about what happened next with Peter and Val. Inquiring minds want to know.

700 Degrees of Hotness!!

Seven alphas, seven sexy couples, three "teaser" stories and 4 new, complete novellas equal to one hell of a book set!!

Peter, Victor, AP. Marco, Jaxon, Landon and Craig are some of the hottest male characters I've read about in a minute! Victor Creed and AP are my favorites, with Marco and Craig tied for second.

I loved the opening scenes of We All Fall Down (Peter and Val), Creed (Victor and Taylor), and Controlled (AP and Nyla); it was so How To Get Away With Murder like!! These three will be upcoming releases by three of the hottest new authors; Sara Allen, Phoenix Daniels and SK Lessly. I can't wait to read the complete books....my interest was seriously piqued!

Kasey Martin gave me hot ass Italian hottie, Marco, DJ Parker gave me Jaxon (whoa baby), Tiffany Patterson gave me sexy quarterback, Landon and Mariah Violet gave me former Army MP, Craig (who's physically gifted).

Buy this box set....you won't regret it!

Love in Paradise

5 Star Kindle Unlimited Read

I got this anthology from Kindle Unlimited simply to read Tiffany Patterson work title "Live in Paradise". I love a romance where an alpha male is able to mend a broken heart and make the woman whole again.

Mspraise50 says

I have read books from all these authors except for 2. This is one of the best box-sets I have read in a while.

There some full stories and then a couple of the authors gave a taste of future stories that will be released in the future.

Excellent read especially considering the price of this box-set. Definitely worth a read.

Vivian Byfield says

Excellent

What a great read, a really well put together group of sexy romantic stories by several of my favourite author's. I also discovered one or two that I had not come across before but they lived up to the mark set so high by their fellow author's.

Michele says

I loved all the stories but 3/4 of them were just snips. I wish I had read the fine print. I bought the book because of one author Mariah Violet and thank goodness hers was a full story and the last one of the book.

Could've Been A Five

Let me start by saying not all the books are full stories, at least the first three. They are good but if you expect or hope to fully read books 1 (We All Fall Down) and 3 (Controlled), you're out of luck. Trust me, I looked and researched, nada. It was quite disappointing.

My spirits were lifted after reading Creed and being able to find the full story. Love In Paradise, Tiffany Paterson gave us a secondary book for that one. All the other stories were quite good as well. This helped me find more exciting BWWM authors to read with decent characters and great stories.

M says

I don't like partial stories...

I don't like partial stories so I did not read the first 3. One of the completed stories was written by an author that I was truly disappointed by with two previous books so, I did not choose to read.

The two I did read were really sweet and short stories with significant appeal. There was very little drama, lots of steamy sexual encounters and HEA! Both of those, I would give 4-?4-.

Gemini Rule says

Lord

The men in these series are strictly men. They have the powers. Their domineering. Their controlling. I love

each one of them. But I've gotten to read the full story from Andrew and Nyla. Where are the other full stories.

Susiq says

Some stories were good. Others was so so. This genre is getting over saturated. Some authors need to take class on story telling. I can say this as someone who majored in theatre.

Debra Spears says

Good Job

I really enjoyed all the Alphas! The shorts were just as good as the full stories. I'm looking forward to reading the full books. Glad to see new stuff from my fave authors and happy to pick up new ones. Well done.
