Okay, much is revealed in this book and the story takes a turn in a direction I didn't anticipate. I was on edge the entire time!

Yuki's past and her true self is finally revealed, which could lead her to lose Zero forever. Commitments were made over 10 years ago that could lead Yuki away from Zero and into a life she never knew she was a part of. A war breaks out and the night students ban together to keep the day students safe.

I can't put this manga down, so on to VK9. I love it!

I know Yuki still cares about Zero or she wouldn't have gone to visit him, but it was an awful thing of her to say when she must have known how he would react to the change in her. That was low, regardless of why I suspect she said it. :(

And put on your darn shoes, Yuki! My grandpa would've been all over her for going outside without shoes!  
LOL

I CAN'T BELIEVE THEY'RE RELATED!!!(BUT NOT REALLY?! (SO CONFUSING XD))

This is where knowing how to plot and keep the tension and pace up comes into play and Matsuri doesn't really do it justice. Then again some of the revelations in this are so unpalatable that I'm not even sure I'll read the last volume that I got out of the library.

Yuki is suddenly and inexplicably hallucinating the more she tries to remember. Kaname steps in and unseals her memory revealing that she is in fact his younger sister and his betrothed because that's how pure bloods do it 'just like animals.' Um no, Matsuri, they don't. In fact, they drive the males out so they don't normally. But it explains SO MUCH about Yuki. Her parents were brother and sister. She's a complete idiot because she's so inbred. That makes perfect sense. You would think creatures as long lived as vampires would have learned that inbreeding is never the answer, not even to keep in power. That, almost more than anything else, made both Egypt and Rome fall. I wonder also how many of the moms reviewing this on Amazon for their underaged daughters have any idea... This pretty much kills any of the romance in the story.

The rest of the volume deals with Kaname's past and present as they intertwine in some Machiavellian resurrection plot for one of the purebloods in his line. It draws in Zero and his twin and has done for years. The problem is while gorgeous, Matsuri's art isn't distinctive. I can't tell Kaname Kuran from the bad Kurans from Kaname's dad (don't believe me look in the character notes at the end) and the story telling is so muddy that half the time you can't follow the plot because you can't even tell who has been drawn. I think I might be over thinking this thing.

Ah, what a soap opera this series is. Yuki's backstory is revealed, but within the reveal is another hidden twist about Kaname's backstory (which I think some reviewers completely and utterly missed, given how upset they were by the surface aspect). Also, this whole series heavily draws on Japanese mythology -- if you're familiar with the story of Izanagi and Izanami, the taboos brought up in VK#8 will be a lot less shocking. But still, there are so many twists, turns, conspiracies, betrayals, and outright lies going on... don't take everything at face value in this series!

5 stars

Interesting that Yuki was revealed to be a vampire and member of the Kuran line. Hope they will be able to stop Riding Kuran. Wonder what will happen with Zero and Yuki now that Yuki is a vampire.

Can't wait to read Vampire Knight volume 9!!!!

With such intriguing characters and such potential in the story, it's really really frustrating for me to read the last couple of volumes and continually get the impression that the mangaka has no idea what she is doing. We're taken one direction and then another, and the result is confusion. I suppose the question is whether or not the confusion is intended. I like the revelations thus far in the story, and the plot is certainly unique. I just hope that it can be sustained and not dwindle into a mass of questions without answers, plot points without conclusions. The jury's out right now...

Whoa!!!

Incest... EWWW!

But amazing twists and loved the story! <3 I love Zero and Kaname both right now. I don't mind Yuuki choosing either of them.

The father borrowing the son's body is creepy. Also I didn't realize or remember that Kaname and the son were cousins?

That kiss is almost really sweet except for the blood part. :/

Eewwww he is her brother!? Why? Why am I also okay with it??!! Gahhh

Poor Zero! :(

I can't believe that Yuuki was kept in a basement with no windows for so long! :(

Also I love Yuuki's parents. So cute. ^\_^\n

Okay, I loved (notice the past tense) this series. It was dark and brilliant, and the artwork was amazing. I was especially interested in what was going to happen to Zero (oh my God, he just plain kicks ass, I loooove him) since he clearly loves Yuki, yet won't do anything because he thinks he's a monster. I mean, seriously, I love that kind of stuff.

I was soooo excited for this volume! But then, I read it, and I was very, very, VERY tempted to shoot

Matsuri dearest.

Spoiler Alert:

What in God's name was the author thinking when she made Kaname and Yuki siblings!?!?! I never really liked Kaname that much anyway (he just seemed cold, or cruel or something), and then she adds this "I love you and wanna marry (and do other things to) you, sis!" crap, and I was so mad it's indescribable. What. The. Hell?!?! I don't really care if you're not human, Kaname, that doesn't give you the right to be in love with your sister!

And, she turned Yuki into a vampire. That really wouldn't have been too bad, if she played the cards right, but I love the whole "spunky human keeping up with the vampires" thing. Call it cliche or stereotypical if you will, I just do. But then she goes into the whole drinking blood from Kaname and it being (in my mind) a little more than g-rated, normal (as you can get anyway) blood-drinking. With her brother. Ew ew ew. And, the way she adjusts to being a vampire so easily kinda ticked me off. She's kinda-sorta been a human for as long as she can remember, yet as soon as Kaname awakens her, she goes into vamp mode. I would've liked a little more angst with that.

Everything just got so convoluted and twisted after that, it really just spoiled the entire series for me. Sorry, Matsuri, but you screwed up big time, and I probably won't be purchasing any more of this series.

Pasan tantas cosas a la vez que me pierdo constantemente xddd  
Por otro lado Kaname sigue siendo un pesado de mierda ugh.

Whoa. Just before I started this volume I've been spoiled while looking for pictures -smart mcsmartypants me- about Yuki being a pureblood. I already suspected she was gonna be a vampire by Kaname's bite but this I didn't know but thanks to that spoiler did see coming. Thankfully it was just in the beginning of the volume so I didn't have to ponder on the subject for long. What I did *not* see coming was Yuki and Kaname being siblings -????!!-. And the fact that it was ok for siblings to marry in pureblood lineage -????!!-

So, this volume was shock!shock! to me. I think I stared at the page with an expression quite similar to Zero's when Yuki told Zero that Kaname is her brother -????!!-

It annoyed me to hear Yuki tell Zero the Yuki he knew is no more, that she's been devoured by the vampire Yuki. And that half smile she had, I don't know, it annoyed me. And Kaname seems more and more of an arrogant pureblood that he is. He shows signs of a jerk lately, at least that's what I thought. My God, I still can't believe they're siblings and he still wants to marry Yuki. Hmm.

Well, that was controversial.

Some readers are inevitably not going to get much enjoyment out of this volume and for others it's going to kill the series stone dead. For me, vampire stories ought to be about exploring the more dangerous, edgier side of human eroticism and so it's hard to deny that Hino has come up with the goods. Not only does this volume drop multiple bombshells about the main characters in the series, it's also by far the most explicit in terms of its eroticism.(not actually displaying graphic sex)

It worked for me, but I'm rating this volume one star less because some of the storytelling is starting to get a little slapdash. Whilst the artwork is strong, at times characters are unclearly defined and settings not introduced well enough and I'm occasionally confused. This slight quality drop is a shame since this volume represents the conclusion to a major story-arc, and after this point the dynamic of the narrative is completely changed in extremely interesting ways.

This series overall, though, is completely awesome .
