A Rebel's Heart Lia Davis

Widow and mother of five full grown males, Sarah Matthews lives the best she can—one day at a time. Now that her babies are having babies, she relishes in spoiling her grandkids. But her inner mountain lion is restless and Sarah can't shake the feeling something is lurking in the woods surrounding her home. The unease becomes a reality when a man she thought died with her mate five years ago comes back into her life with trouble on his heels.

Damian Palmer never considered revealing his existence to his best friend's widow. Hell he didn't know how she'd react to knowing that he was alive for the last five years while her human mate was dead. When he got word that Sarah has become Shield's—a human rebel organization set up to hunt and kill shapeshifters—next victim, he must go to her and uphold his best friend's dying wish to keep Sarah safe. Buried pain, old lies, and dangerous secrets aren't enough to keep the sparks from flying as they try to survive a new threat against their race.

This is a very short book. I liked it but wish that there was more. It shows us a glimpse into Sarah's life. Sarah is Nevan and Graham's mother. She has already lost two mates and is ready to give up. But when someone she thought dead reappears in her life to save it. She gets a third chance at happiness.

Robin says

This is Sarah and Damian's story. Sarah is the widowed mother of Nevan and Graham and another who doesn't appear too much because he mated outside the Ashwood pack.

Sarah has been widowed twice and she has had enough of life and is aging despite the fact that she would have a few centuries before that would occur. Damian knows that Sarah is a potential mate for him but stepped back to allow his best friend Carl to mate with the lovely Sarah. He was supposed to have died in the same car crash as Carl. But that is all I am revealing.

I loved this story because it was an older female like myself so I could easily relate to her. I know I will be sad to see this series end because I will miss these cherished friends. I voluntarily read a complimentary copy and have not been compensated in any way for this opinion.

I just love being transported to Ashwood Falls every time this author takes me. This time it is not a long trip but long enough to wet my whistle. Trouble comes to Sarah's door because she seems to be the target of a group that hunts and kills shifters. But right behind that trouble comes a shifter she thought had long since died along with her mate. As they get past the initial confrontation they rediscover each other also. Damian knew she was his mate but journey along and find out if she too wants that connection once she feels the pull in the midst of danger. Danger does keep coming to the point they both most go to Ashwood Falls but thankfully one of the dangers is revealed. Excitement and heat at your fingertips enough to satisfy your thirst for this author until her next novel.

While some characters have detailed stories this short story brought to life a part of the family the reader had only briefly heard of before. This story ties in well with the series & keeps the reader ready for the next book in the series.

Jessica Parsons says

Great short read with interesting things revealed and some steamy scenes. Also interesting learning more about these characters and how they handled situations.

I received an audio copy of this book from Barclay Publicity in exchange for an honest review.

Here I am again with yet another audio book review of the Ashwood Falls series. I think this book, A Rebel's Heart is another good one. It's about a second chance, another shot at love. The hero is the heroine's dead mate's best friend. Up until recently, she thought that the hero died with her mate. The hero stands by his promise to keep the heroine safe.

I kind of like the shifters in Ashwood Falls. They are all peace loving and treat each other like one big family. They may have dangerous enemies, but they always stand together. Their alpha is a good male. Their enforcers are brave people. I think that at first, this series felt just like any other shifter series for me. Eventually, the characters and the story grew on me, and I started enjoying each book more than the one before.

Lia Davis truly knows her craft, especially when it comes to shifters and the paranormal romance genre. Her characters have strength, steam, and appeal. While this series is not one of the most popular shifter series out there, the Ashwood Falls series is still just as enjoyable. Listening to the story on audio, of course, is a treat because I get to really hear how the characters talk. Good job for both the author and the narrator.

Will his broken heart heal... Ashwood Falls novella to be read between Surrendering to the Alpha and Divided Loyalties. Quick read with danger and desire, love and revenge! And now a bit about the story!

Sarah has been struggling without her mate for 5 years. All her children are grown and with their own families now. She is ready to give up. Until she gets a death threat - go figure. Now she is fighting back for her life and for love. Damian has always loved Sarah, but she mated his best friend, who was more like a brother. Though it hurt, he stayed in their lives knowing he could never have her. Can he save her and get his second chance before it's too late?

Favorite quote: "I'll take my chances. I was you, Sarah. I've always wanted you."

Sarah Matthews still feels the pain from losing her mate five years ago. But then comes Damian Palmer back into her life after thinking he was dead along with her mate.

Damian has come back to protect Sarah and finally claim her as his true mate. He has loved Sarah for years

but stepped aside for his best friend. Sarah doesn't think there is anything to live for anymore and had started the aging process a year she lost her mate. But now that Damian is back, he is stirring intense feelings again and he is determined to help her and see that life is worth living with love and a true mate by your side. I enjoyed reading A Rebel's Heart. It was short and sweet, but very hot. I can't wait for the next book.

I have to say I was kinda disappointed in this short story, which makes me sad because I'm a total sucker for second chances at love story. This book just didn't do it for me. I'm all for insta love, low angst and sexy times. I just felt like this was a unnecessary story. Overall a meh read I'm still looking forward to reading the next book in the series. I voluntarily read and review this ARC no monetary compensation was received the opinions I have expressed are my own.

"Unnecessary Story"

This book wasn't for you, but who do you think might enjoy it more?
Someone who's looking for a quick, and sweet read.

What was most disappointing about Lia Davis's story?

How this wasn't even a second chance love story, but a love story of convenience. I truly feel that this story was unnecessary, these two characters could've been mention in book 4 as mates, there didn't need to be a novella about them. Also, nothing in this story brought progress to this series, it was a filler.

Which scene was your favorite?

I don't have a favorite scene.

What character would you cut from A Rebel's Heart?

Sarah. Her character was really bland.

Charity Costa says

I have never read any of the Ashwood books before so this was my first introduction to the series and Lia Davis. I was a little confused with all the characters having not read anything in the series before, but I was happy I got to see Damian & Sarah have their happy ending. From the little back story I got in this novella I imagined that their love was one that was always “the wrong place the wrong time” type of love and I am always a fan of happy ever after.

I wish I would have read the Ashwood series in reading order but since I didn’t I am curious and I want to go back and read the whole series in order. I give A Rebel’s Heart 4 out of 5 and can’t wait to read the whole series.

Anne Richardson says

Another great read. It is a short book but I enjoyed Damien and Sarah’s story.

Victoria says

A Rebel’s Heart is the fifth (or 3.5) short story book in the Ashwood Falls Shifter series by Lia Davis. When I read Winter Eve, the first (or 0.5) book I started to get that tingling feeling that maybe this was going to be pretty good. Even the editing issues didn’t bother me. With nine books in the series I was ready for a week long marathon. This book fell apart for me. I love insta love, low angst and smexy times. And you get that in a Holy Batman! kinda of way. I understand that it’s a paranormal series and fantasy happens, but even I could not keep my eyes from rolling. I will continue this series because every book can’t be 3 to 5 stars, right?
