Alien Savior Nicole Krizek

Lacy Woods thought that there could be nothing worse than being stolen from Earth by an alien poacher, until she's thrust onto the auction block and sold as a slave on an alien planet. Standing on stage surrounded by the galaxy's nastiest criminals, she has little hope.

Kor and Ty are a mated pair that have been searching throughout the galaxy for a species that can save their race from extinction. They never expected to come across a rare Earther female being auctioned as a slave. Unable to deny her exotic beauty, and a chance to test her DNA, they buy her. What the males don't expect is the intense lust they feel for the small female and the protective urges that tell them to keep her safe at all costs.

When enemies close in on Earth, Lacy will need the Arathians' help to protect her planet and the males she has come to love.

Warning: Contains explicit HOT sex with multiple alien partners, bi-sexuality and homosexuality. m/f, m/m, m/m/f

SamJ ★Needs a HEA★ says

I did like this story - I just felt it could have been developed a bit better.

But it is what it is, a nice enjoyable read, nothing too taxing, typical of it's genre. Not sure I would be all fired up to read more of the series, but I did enjoy it.

However, the insta lust/love here (and I know it is an alien romance) was too quick and unbelievable.

But certain parts of it reminded me far too much of another series I have read (admittedly it is hard to be truly original) but certain aspects were almost exact, and even some secondary characters names were very very similar.

Again a HEA, no cheating etc. Is M/M/F

2.5 rounded up to 3 stars.

Markéta says

3.5 *

C.J. says

Great read. Really liked the characters and the plot. Nice ending. Hope to hear more from the trio in the following book.

Teri says

I'm going 3 stars. The whole "other-worldly" thing isn't really for me, but the story moved quickly, wasn't complicated, and the characters were decent. I think it would have been better if it was longer and a little more **happened** between the characters, but this isn't really my cup of tea so I'm not going to complain about the length.

I'm not a big fan of menage stories, but this is the type that doesn't bother me, I mean squished between two hot men that love each other, if I've gotta read about a girl, I guess I'd rather her be between two hot guys. I didn't necessarily *feel* any deep connection. They saw her, saved her and wanted her. Somewhere in the few hours after they gt back to the ship, she became very "dear" to them. I'm not going to harp on the fact that she just jumped right in with them--its just the kind of story it was. It was hot at time, Ty and Kor were decent, Lacy didn't make me want to bash her head in, it was free.

Jess F. (From Me to You ... Book Reviews) says

This novel reminded me of Ms. Brooks' Cat Star Chronicles Series, at times a little too much. Nevertheless, I did like the characters, I just wished the plot was a little more then what I was used too.

CI says

Boring, very basic story. Decently described sex scenes, although only a handful. Just nothing in the story of depth to keep you interested.

Jessie Potts says

Hah another menage that ended with a pregnancy -__-

I will say that the idea behind this series is interesting (if a bit overdone in sci-fi) I plan on reading the rest. This wasn't bad at all it just wasn't great. I nice distraction though.

Amy~ My Book Obsession says

Lots of sex. Lots and lots of sex. But with a good plot.

3.5 stars

Casey says**Cute story**

I enjoyed this first book in the series. I found it in a Goodreads list and am very glad I have it a go. On to the next one!

Melissa says**Savior**

Very graphic beginning but loved it after the heroine is rescued. Very very sexy alien romance with two aliens and one human

Kim says

3.25 stars

R *is for Relentless* says

SciFi alien menage. Enjoyable read

Spuffed says

This was just okay. This is the same plot done over and over and over again with the addition of quite a bit of corny lines and underdeveloped characters. It's readable and might be more pleasurable for those new to alien abduction erotica with very low expectations.

Quick Rundown: 2 Alien Dudes who are a mated pair awaiting the possibility of a future female addition to their polyamorous lifestyle/culture, come across Human Chick in an illegal auction (Humans are a "protected species" as Earth is considered a young planet) while in the line of duty for the Alliance. They purchase her knowing that she can never go back home and their home planet needs females, yo! You know, because like most of the other books in this genre, they are facing extinction because they fucked with their own bodies and made an oopsie resulting in very low birth rate. Insta love happens, then Earth has to be saved, yadda, yadda, yadda...

Characterization: One of the two Alien Dudes is the sensitive, nerdy type though still hunky. Second Alien Dude is a more Alpha, military type. Chick is pretty lame but she's got three holes. That's about it as far as main characters go. The other alien species that make up some of the secondary characters were kinda interesting in their descriptions at least. And we got a pretty good explanation for the little gray men that make up our society's perception of what aliens look like. That was the only interesting thing in this book.

Plot: I almost want to say, "what plot?" But, to be fair, there is one but it's been done a million times before and most have been done better. There were a ton of plot holes and noticeable ones. And with underdeveloped characters and a shorter book length, there just wasn't much going on here. Ending made no sense at all. Sex scenes were okay but I seem to recall a super easy back door entry and that always annoys me.

Overall: Author has potential and because this book was free on the Kindle Unlimited program, I'll be reading the second one as it's also a free read for me and I already downloaded it but I'm not expecting much:(

Noreen says

This book was okay, had a good story line but a lot was missing. Kor and Ty are scientists from their planet

trying to find a way to save their race from extinction. They find Lacey being sold at an auction and purchase her in hopes that her DNA will help save their race. Although you get enough back story about Kor and Ty and their mission, you never get anything about Lacey, such as how she was stolen from earth, does she have a family or anything about her life on earth, she just seems to accept the fact she is never going back. Then you get the conflict with the other alien race that seems to come from nowhere. Just kind of thrown in. Seemed like to me to get enough of the actual story this book needed to be longer with more detail. Overall it was an okay read.

Laura Young says

So I am an easy victim to reading these romances, I have a secret place in my heart for aliens and add aliens with romance times wait for it wait.... two! Bam. The story was fun to follow along with the characters. Can't wait for book two.
