All Due Respect

Vicki Hinze

All Due Respect Vicki Hinze

Can a first-grade teacher from Grace, Alabama stop a terrorist group from its deadly mission?

Can she trust her heart again?

Former Air Force scientist Dr. Julia Warner-Hyde went into hiding three years ago to escape her abusive ex-husband. Her new life as a small town school teacher is safe and peaceful-until her old lab partner, Dr. Seth Holt, arrives.

Terrorists have stolen the missile system Seth and Julia designed, and they fully intend to use it. Seth needs Julia's help to find, outwit and halt them, but he and she didn't part on the best of terms. He doesn't know that Julia has a secret enemy who might kill them both. Can she fight that threat and the terrorists-all while keeping Seth in the dark? How can she refuse to try, with millions of lives at stake?

"When it comes to military romance, Vicki Hinze is a four-star-general." - Harriet Klausner, Book Browser
Nominated for Best Suspense Novel of the Year - RT Book Club

Gail says

Nice story, blending domestic abuse with military secrets and espionage. Julia Warner-Hyde, a rocket specialist, is hiding from an ex-husband who gets involved with people who want to steal the rocket specs. She gets help from her former partner, Seth Holt.

Rebecca says

I got this book after seeing that the author would be speaking at locally and I wondered if her work was any good. I wasn't disappointed, it was very good. Fast moving, suspenseful, action, intrigue and surprisingly clean (language, etc). I couldn't put it down once I started it, it was a fun read.

Rhonda says

5 STARS

It was a nail biter. Lots of drama, action and dealing with abuse and overcoming it.

My heart was racing reading one part of the book. I really was into it.

Former Air Force scientist Dr. Julia Warner-Hyde has been hiding in small town teaching grade school.

When her former partner finds her and asks her to come back and work with him. If she does not millions might die with the missile system that they had developed together being in the wrong hands.

Julia is afraid to go back to that life she ran from. But how can she live if millions are at risk if she does not?

She also is worried about one of her students who's mother died and she believes that the father is abusing him.

Dr. Seth Holt has missed his old partner Julia since she just left 3 years ago without a goodbye. Their missile system has been stolen and he is working on something that will defend against it but things are not as secure as it needs to be. He needs someone he trusts to lead the project. He has loved Julia for five years but has not let her know it because she is happily married to a cop. He needs her. It could be life or death if the work is taken and with the missile could be deadly to our country.

Julia has been hiding for 3 years ago because her ex-husband had abused her for years and three years ago she was almost killed by his hand. She does not want Seth to know and pity her. She finally tells him she was attacked just not by whom. Told him she was in coma and almost died 3 times.

Agent 12 working in security pretended he had not met her but actually helped her to be safe and how to hide.

Someone at the lab is trying to get the program they are working on. Setting up Julia and Seth as the ones behind the sabotage. Mathew trusts both Seth and Julia. Seth and Julia almost trust each other but they have both been abused in the past and is hard to trust others.

Julia's ex-husband is out of prison after only 3 years. Even while in prison he would call and threaten her 4 to 5 times a week. She has had 14 unlisted phone numbers and her cell and new apartment are not even in her name. But Karl has had help finding her always.

Thier is a terrorist group inside the United States that has the missile and now wants the new technology they are developing against the use of it. Can turn the missile back to thier home. They want the power of having

both and want to get back at the goverment. They are not afraid to use it.

I really enjoyed this novel. High suspense level. Like Vicki Hinze novels and plan to read more especially if they are as good as this one is.

I was given this ebook to read in exchange for honest review from Netgalley.

Michelle says

I absolutely loved this book. It is very well written. Fast paced. I love how the author interweaves the characters past into the storyline. One of my favorite things about this book is that every detail is well thought out, furthering the storyline.

If you would like a more detailed review please visit our blog at [readers refuge.blogspot.com](http://readersrefuge.blogspot.com)

Thanks to Net Galley for the advance copy.

Pat says

I would definitely read another book by Vicki Hinze. A black-ops thriller with a love story combined--one of my favorite kind of books! Both Seth & Julia had been victims of abuse--Seth as a child and Julia more recently with her ex-husband. They had worked together on a project and Julia disappeared and was almost killed by her husband. He continues to threaten her from prison. Seth hunts her down for another job and they have to keep a missile from exploding while dealing with the husband who is now loose. Can they save the world and trust each other enough to fall in love?

Chelsea Malcolm says

I read this a few years ago and really liked it. I think it was my first romantic military suspense. Hmm, I think I should find this and read it again...

Jeanne says

A new author for me to read. Romance while fighting terrorism.

Bernadette says

dated storyline, irritating female lead

Chris says

Nice blend of espionage and love story. Certainly held my interest.

Sharon says

Great suspense. Interesting characters. Intriguing plot.

Leslie Mesmer says

I would have rated this a five star except it got off to a slightly slow start. I have never read Vicki Hinze before but guarantee I will be reading her again. I love the fact that the story covered more than just the main characters. The author also let you into the thoughts of the villain. The story was full of suspense, secrecy and bough doubt and self-doubt. The ending was right up to a nail biter and left you wanting to jump ahead.

Becky says

This was a very exciting, mystery. I really enjoyed the secret intelligence part of making something that redirects a potentially dangerous missile back to its original site. It not only had the suspense of that, but of peoples lives that have been uprooted and mangled by abuse in their lives. How all of the characters come together is astounding. The characters are very strong and believable. It was a real page turner and so exciting. I would definite read more of her books. Bravo!!! To a great book!

Joan says

I had read many of Hinze's books released in the Christian market and wanted to see how she did in the "secular" market. I liked the book. It is definitely a character driven novel although there is plenty of action too. We do see characters grow through scars to be able to love again. It is important for those who have read Hinze in the Christian genre to know that there is some language and immorality in this book. It is done in such a way that I was not offended. See my complete review at <http://bit.ly/155HqfK>.

Kris Purtle says

I got this book, for free, for signing up for something that Amazon was offering. It sounded decent, so I gave it a try. For the most part, I did enjoy the story. At times, it was quite far fetched, and hard to believe, at all. But, isn't that what fiction is all about? To suspend belief, and just go with it? The beginning of the book had a very unedited feel to it. It was like words were switched up in sentences, and because of that, I almost gave up. But, I kept on, and it got much better (almost as if a different person wrote the majority).

While this wasn't a book that I'd go out of my way to read, it was a way to pass time. It had adventure, mystery, thrill and some romance. And it had a cute 6 year old boy, Jeff.... whom you just can't help but fall completely in love with.
