## Daddy Long Stroke Cairo

Dramatic, bold and racy, *Daddy Long Stroke* uncovers the shocking and painful reality of some men's belief systems about women and sex. Cairo offers readers a voyeuristic look into the mind of a womanizer who manipulates and seduces women by using what he's got—good looks, chiseled physique, charisma, and sexual prowess—to get what he wants without remorse, or regret.

Sexy and thuggish, Alexander Maples, aka Daddy Long Stroke, is a womanizer. Arrogant and self-indulged, he is what every woman secretly craves in the bedroom—rough, rugged, and ravenous. And he is always happy to deliver.

Alexander knows no boundaries when it comes to pleasing a woman, leaving no area untouched, not even her heart—or her wallet. But love is the last thing on his mind. Getting paid, and whetting his sexual appetite are the only things that motivate this salacious gigolo. And any woman trying to claim him finds herself on the receiving end of heartache, tears, and drama.

Written in raw, graphic language, *Daddy Long Stroke* is a cautionary tale of one man's insatiable thirst for sex and his quest to bed down as many women he possibly can—no matter the costs, and no matter who gets hurt in the process.

\*Spoiler: Contains Sexual Innuendo\*

Alexander is the type of man that knows how to get what he wants. It doesn't hurt that he was blessed with a package that women have been known to fight over. He uses his sexual prowess to bilk money out of women, gain free merchandise and even score free airfare from one woman to visit other women. Alley Cat is no stranger to the game and is an expert player. So, do the women continue to be his pawns or will he lose in the end?

I'm not the type of person that judges a book by its cover, so I decided to pick this one up and read it. From the very first sentence, my jaw remained dropped. Every page had some form or other of a sexual act, whether it was masturbation, oral, or the real deal. Cairo, the author, touted this book as being from the perspective of a male gold digger. What I read was beyond that. It was already established that Alexander Maples, known as "Alley Cat" or "Daddy Long Stroke" on the social networking sites he perused, was a man on the prowl who used sex and the size of his manhood to get what he wanted. He used women for their money and let them know right up front that he doesn't care anything about them, that he is and will continue to sleep with other women and that if they won't have sex with him, he will just find the next willing female. While I know that this is common practice amongst a lot of young people, I found this book very disturbing.

From the very first page, you get a glimpse as to how this man goes about his daily routine. Every page is filled with sexual encounters, females called out of their names and also the degradation of these women. For example, one female performing a sex act on Alexander, even when she could smell the scent of another female fresh on his body. As a woman, this bothered me to no end. There was even an encounter with a little person that left little to the imagination and also felt as if the character was abusing a disabled person for his financial gain.

I know people are going to wonder, why did you continue to read the book when you knew what it was about? I finished it because I wouldn't be a good librarian if I didn't. My job is to be objective and I know that these are books that the majority of my patrons enjoy. How do I recommend books to them without having actually read the item?

If you are looking for a book that has a lot of sex, then this is the one for you. On the other hand, if you are looking for something that has sex and a storyline, this is one that you should bypass. I feel that the author could've accomplished more with a much more likeable character. Instead, I was left feeling angry and a little bit hurt for the woman who just happened to be a stepping stone for Alley Cat's mission.

This book was off the chain. The author has such an explicit imagination. He painted this character in this book as a very arrogant, non caring individual to conquer any woman he came in contact with his package. It was so hard to believe that people can be so unfeeling. But after reading the story I was amazed. About halfway through the book, I remember saying to myself, "ok this is getting old, but I kept reading in hopes that Alley Cat and his arrogance would put him a place to meet up and mess over the wrong woman, in the

end getting what he deserved for messing over women as he did. On the flip side. These woman were not innocent and never once was involved with Alley Cat unknowing what kind of man he was. Only in it to win it and not to catch feelings for him because it was not that kind of party with him. It didn't end like I would have wanted but overall it was a good read if you can deal with "RAW".

Mr. Alexander Maples is a thuggish man who uses his good looks and sex game to manipulate woman every chance he gets. This man is of a different caliber. I've never seen someone who likes to have more sex then this guy.

This is my first Cairo book and he and other people were right about the fact that he's explicit with his stories, while reading this I was like WOAH! I thought it was too much at first, but then I started getting into the story. The story was funny as much as messed up at the same time. Alex disgusted me in every way, the way he treated and manipulated women was uncalled for and I found myself hating him more and more with each page that I read. But another thing that pissed me off was how stupid the women were too. I mean sometimes he was very blunt with them about what he wanted then he would ridicule them as well and they would still come back again! I mean it was like they set themselves up for it. On top of everything he was also using these women for their money as well. Sure Mr. Maples can satisfy a woman in every need that she desires but, is he capable of satisfying her in the love department? NOT! This man has no scruples and isn't capable of loving anyone but himself. He's arrogant and self-indulged...definitely not my cup of tea Mr. Maples...not by a long shot.

This story is filled with out of this world sex, drama drama drama, comedy and moments where you just want to take this man and kick the shit out of him. I definitely recommend this book but that's only if you like Raw, uncut, graphic sex and graphic language, definitely not for the faint of heart.

Cairo is a one of a kind author. His books are raunchy, full of sex and the best yet, funny as hell! These books aren't for everyone as they are explicit, but they tell a great story. This is my 3rd book by Cairo, and I was not disappointed. Alex aka Alley Cat aka Daddy Long Stroke is the main character in this book. He is one of those men that I can't stand, full of arrogance and as selfish as they come. He switches women almost daily, and these desperate females give him money for spending a little time in the sack with him, knowing he's doing the same thing with all these other women. smh. You need to read this and see what happens! The drama and action doesn't quit!

Alexander "Alley Cat" Maples aka Daddy Long Stroke has got these broads going crazy!!! He got his nickname because he is always on the prowl. He got these female lacing him with the latest gear and lining his pockets.

This is my first book by Cairo and will not be my last. This book is about a male gigolo who is essentially addicted to sex but will not admit it. Alex lets female know he is just about sleeping with them and wants nothing more so if someone gets their feelings hurt it on them. Cairo wrote a gritty straight up book about what signs a female should be looking for so a man won't take them for all they got. In reality there are a lot of males out there that does the same thing and this book gives you the sign.

The language is not for the faint of heart and is writing in straight streets but you will laugh out loud, shake you head but overall you will love this book, I know I do.

I really can't believe I read this book. I am all about Erotic Novels but this one was way too much. All over the place... I tried to put it down but then I'd pick it back up... It was like a car accident... I know I shouldn't keep watching as I drive but I can't help myself... OMG... I'm not going back into the Afram section of the bookstore anymore... I can't even think I'm so flustered from this book...

I found myself engrossed in disbelief. A playboy is an understatement and the things some women will allow, sad. Sheds light on the way some women treat and view themselves. Because in all said and done if nothing else he was honest with his feelings. I found the scenarios hilarious. The novel ended a little flat for me. It seems as though there was more that could've and should've been said. But all and all I liked it and would recommend this read. Its real, honest and holds no punches.

Really good read, very urban & hot. I loved Alley Cat and his many lovers but the ending really made me mad. Things could have been tied together better, Cairo just left me hang wanting more :( but who knows maybe he'll pick the story back up and do a part 2. Overall it was just GREAT ! I would have like to see what happened with that chick Kanika, she seems like she coulda shook things up a bit for Alley Cat.

Daddy Long Stroke by Cairo is not for the sexually faint of heart! I found myself blushing from page 1. I admit that the strong graphic content threw me off at first, but after I got into the book, I saw what the author

was doing. Alexander Maples, aka Alley Cat, thinks that he is God's gift to women...and the women that he deals with treat him as such. They know that he is sleeping with several different women, but they still flock to him like ants to a picnic. Some of them lavish him with expensive trips, gifts, and money in hopes that he will pick them to be "the one". Alley Cat is the epitome of emotionally unavailable, but that doesn't stop women from becoming emotionally attached to him. For the most part, he wasn't openly disrespectful to these women. He gives them the sex and attention that they crave in exchange for the money and expensive things that he wants. I felt myself feeling sorry for these women because they would do all of these things for this man and he didn't care one bit about them. Once you look past the graphic sex scenes, I feel like the author is giving us a candid look into the mind of some men. As women, we tend to be so caught up in nurturing and "fixing" a man, that it doesn't even dawn on us that he doesn't want to be fixed and is playing on our emotions to get what he wants. This was a fast read, and I would probably recommend it to my friends who are fans of erotic novels.

This has to be the worst book ever. There is no story line, no structure, no nothing. I thought there would be something that changed in his behavior, anything. I'm on chapter 27 and nothing has changed. I'm bored

I've read books by this author before and enjoyed them but I didn't really care for this book too much. The character never really developed beyond getting his sexual needs met not really caring about others. He definitely need to grow up!

### **OOSA says**

#### **Gigolo Daddy,**

Mr. Alexander Maples is all man and he's out to get whatever he wants from women. He totally degrades these women mentally and physically, all for one purpose – SEX!

Cairo vividly uses his imagination as he takes the readers to sexually explicit moments in this jaw-dropping novel. It was absolutely too much for me after reading only a few pages. Now, I love my hot and steamy sex novels, but this novel just was too much to take in all at one time. I continued to read this book as I agreed to review it. This novel was ridiculously degrading to most women who may consider themselves as one of the characters in this book. It is a shame but it is the TRUTH as many do anything for a MAN with a KING

KONG DONG! I still love Cairo and will continue to read more of your novels in the future.

This was a decent story but I expected more. I wanted to see Alex get what's coming to him. Hopefully there will be a part two for this. Seriously he screwed over so many women and in the end nothing happened to him. Really? The women should have known better than to deal with him and get caught up though. I was waiting on someone to kidnap his ass or do something to his parents but nothing. Also, I enjoy reading sex scenes but this book had sooooo much sex that it started getting boring. Every other page Alex was banging someone new. I'd like to see a sequel to this where Alex goes to a sex addiction support group lol. I haven't read that many Cairo novels but so far this is my least fave.
