Cath says

A change for me reading a historical novel, even if still a thriller. I love it as I end up speaking in the way of the characters and wanting to wear a corset!

Found the actual history parts quite boring, but that's just me. Enjoyed the story, enjoyed the style of writing and would be interested in reading more of the series.

Deanne says

Good complex story, a mix of old and new characters and Knight also ties up a few loose ends.

Rhona Arthur says

Enjoyable. The first I've read by Alanna Knight. The okay thing which rankled was the minor detail of going to the NLS on George IV Bridge in 1901, when it wasn't instituted by law until 1927 and the building didn't open until 1938.

Lorna says

Read it as I met the author in my art club. Set in Edinburgh so interesting but a bit laboured at times.

Jean Nicholson says

An intersting read set in early 20th century Scotland where common law wives were permissible but women investigators were not. The story centres around the missing King's Ransom of Bonnie Prince Charlie & the secret hiding place in the tower, the papers from the early time and the missing bit of map. I did guess who the villain was but I still enjoyed the book

Les Wilson says

A modern great in this genre.
