Drive Me Crazy

Tracy Wolff

Drive Me Crazy Tracy Wolff

A sexy category romance from Entangled's Brazen imprint...

His rival's in his bed, and this rocker is ready to play.

Former rivals Quinn Bradford and Elise McKinney are *not* friends, at least not anymore. As teens, all they cared about was psyching each other out before concerts. But when Quinn—now the keyboardist for Shaken Dirty, the hottest rock band on the scene—returns to his hometown and hears about the car accident that shattered Elise's career, he's determined to make things right.

Elise wants nothing to do with an arrogant rock star, despite how bad she so clearly wants him, so Quinn kidnaps the stubborn little piano player and whisks her back to his mansion. A little seduction might be just the thing to keep Elise under his care...and in his bed. But amid pranks both childish and *very* adult, their past comes rearing back to haunt them. And it might be more than either of them can forget.

Love your "Shaken Dirty" Series Tracy!! Will we be seeing a third one in the next year, 2014?

I really hope so because they're just intriguing and fun and sexy, I love the band.

Lana ✨❄️Dirty Girl Romance❄️✨ says

3.75 Sexy Rocker Stars

I have read a few books by Tracey Wolff in the past, which have all been a bit lackluster for me. So I was hesitant going into this, not knowing what to expect. I have always really enjoyed Tracy's writing style, but couldn't connect to the story. Luckily for me, Drive Me Crazy changed it. What a fun and sexy book. Definitely a series I will be gladly following from now on. I haven't read the first book in the series yet, but after this one I plan on rectifying this immediately.

Elise and Quinn haven't seen each other in 10 long years. They knew each other when they were both teen piano prodigies. But then something happened, and Elise hasn't seen Quinn since.

So imagine her surprise where the now famous rock star shows up at her hospital room when she survives a terrible car crash that has killed her best friend and manager and has mangled her hand. Elise is not in a good place emotionally. She has recently lost almost everything she cares about; her father, her manager, and now with the damage to her hand quite possibly her career as a famous concert pianist. The last thing she wants is to spend time with the man that broke her heart all those years ago.

She'd built her whole world around him once, when he was the only person she could feel anything for. The only person she could trust. When he had left, it had shattered her.

Quinn may have walked away from her 10 years ago, but he never forgot her. His reasons are shrouded in mystery, but he wasn't good for her then. He had to walk away. But now he doesn't want to walk away, he wants Elise and he's determined to be the one she leans on. So what's a man to do? Trick her into staying in his house and force her to allow him to take care of her.

The chemistry between these two was through the roof hot. I loved their banter and the tricks they would play on each other. As hard as Elise tries to resist the pull, there's only so much a girl can withstand. And when you have a gorgeous tattooed rock star determined to get her in his bed how can she say no?

She wanted him to take her, right here, right now, to spread her open and fuck her while the music still thrummed through her veins. Tomorrow could take care of itself

Now I have two words for you: **PIANO SCENE**

Good lord that was sizzling hot!

I really enjoyed this one, though there was something missing for me to put it at that amazing 5 star category. I can't quite put my finger on what that was, but it was still a hot little read.

I did get frustrated with Quinn at the end with a choice that he made.(view spoiler) But I did love his groveling method.

Can't wait for more of Shaken Dirty. Really itching to get my hands on Wyatt's story. Nothing better than a broken hero :)

Rachel says

Shaken Dirty are back baby ! Grab your backstage pass and delve into the world of rock and roll.

This book starts up after the events of the last book Crash into Me, but it can be read as a stand alone. Though you will no doubt enjoy it more if you have read the first one. That said, you are in for a treat. This is Quinn's the keyboardist story and let me tell you he owns it from the start. Who knew he was a classically trained pianist ? He's all rock and roll, so that came as a nice surprise.

As for the heroine, we have Elise, whom I liked right away The prologue had me laughing with her and by the first chapter I wanted to give her a hug. She is the perfect foil for Quinn. She knows him from a long time ago and they have a history together. My favourite thing about her was that she have as good as she got.

These two cracked me up with their pranks. From the first page then throughout the book, we get fun prank after prank. The one with the twinkles is a classic. The reaction of the guys is the best. But though there are light moments, there are darker moments too. There is a scene towards the end of the book where my heart was hurting for Quinn.

I liked how the author kept the story from the previous book moving through this one. The band deal with events that happened in Ryder's book. It was good to see the band dealing with the repercussions. It made them feel more real.

When Elise McKinney wakes up in a hospital room after an accident that killed her best friend and may have destroyed her career as a concert pianist, the last person she expected to see was Quinn Bradford. She hasn't seen him in ten years, not since he hot footed it out of bed leaving her behind without a word.

Quinn couldn't stay away when he hears of the accident. When he sees Elise, he quickly plots to kidnap her and take care of her. Help her rest and heal. Anything to see her healthy and happy. But what starts out as a harmless gesture to a friend from long ago soon starts to develop into something more. With each prank they

pull on each other they grow a little closer until neither can stop the passion that flares.

But as they start to fall or maybe fall again, can their pasts, band troubles or worry for the future stop them from finding a happy ever after or can they find their way back to each other as they did after years apart ?

I am eagerly awaiting the next book in this series, I'm hooked. Add me to the groupies for Shaken Dirty. With hopefully stories for troubled Wyatt, Jared and another band member, I can't wait to go back on tour with the band.

This book was supplied by the publisher for an honest review.

(Tori-Smexybooks) smexys_sidekick says

3.5 stars (rounded up)

All in all I liked this one. A sexy second chance romance with plenty of humor, steamy love scenes, and an emotional catharsis of sorts that brings together two childhood frenemies whose pranks and antagonism were a gateway to their affection for one another. It did seem as some of the issues in this couples' past were skimmed over and the "big" grovel scene wasn't as impacting as I thought it would be. I did enjoy meeting the secondary characters and I look forward to reading Jared and Wyatt's stories.

Melann says

C'est assez vide. Il ne se passe pas grand chose, leur passé commun ne sert à rien et je n'ai pas trop apprécié que Quinn admette qu'il ne regrette pas d'être parti sans un regard en arrière il y a 10 ans. Et je n'ai pas non plus apprécié sa fuite 10 ans plus tard.

Bref, pas une mauvaise lecture, mais vite lue et vite oubliée.

Amanda D. says

After the hero peeps at the heroine's medical chart because he believes she's lying to him about the extent of her injuries, I was done.

They haven't seen each other in a decade. He ghosted on her after taking her v-card and now he thinks he deserves her candor. NO THANKS.

Dani (Dani Reviews Things & Love in a time of Feminism) says

Rating: 3.5 stars

Drive Me Crazy started out a bit strange for me, but it quickly picked up after a few chapters. Before I get started, a few **trigger warnings** to mention: there is past **child abuse**, **physical fighting** and **cheating** in this

one.

At first, the interactions between Quinn and Elise felt awkward and forced, with the words claiming an intimacy and sizzle that didn't come off the page. The author jumped right in and said that there *should* be something there, but we hadn't had enough time to first get to know the characters. BUT THEN. It quickly escalated.

The whole book takes place over several days, really, so it did seem a bit like insta-love, though this was tempered by the knowledge that, even though the two hadn't seen each other for a decade, back in their teens, they had years of messing with each other – and then messing around with each other – before they dramatically split.

So the fact that it doesn't take at all long for things to get heated wasn't that shocking. Only a little bit. Especially once Quinn and Elise started up with the pranks, trying to one-up each other each day. And they were *hilarious*. The Twinkies! Genius! But then they got a bit saucier...and saucier... and then the two of them were lost. Goners. They had it *bad*.

Or should I say good? I could *definitely* feel the chemistry with this one. Wowza. It was hot hot hot. I would warn potential readers, though, that it is pretty graphic, with talk of fingers going places, and it has the cliches of endless Os and instant erections that a small part of me can't help but roll my eyes at. Plus, apparently women's nipples instantly get hard with just the smallest amount of excitement. Whodathunkit??? So while I did enjoy the steam rising off my Kindle, I had to raise my eyebrow a few times.

One other thing that made me hmmm while reading was that Elise lost *everything* at the beginning of the book. In the space of a year, her father had died (though their relationship was rocky), her fiancé had broken things off, and now suddenly she'd lost her best and only friend *and* damaged her hand so badly her career as a classical concert pianist was ruined. And she didn't fall apart *nearly* enough for me. Because who cares when you have a hot rock star bent on making you never want to leave bed again, right? So a point was lost there, soz.

All in all, though, I *did* read this all in a morning, so it was clearly a fun ride for me! ;) This review was originally posted on Love in a Time of Feminism

Nicola says

I loved *Crash into Me* so I have to confess I did a dance of glee when I was given the opportunity to read this. One book managed to make me fall in love with the Shaken Dirty boys; I love their banter, their presence and their weaknesses and *Drive Me Crazy* just adds to my adoration.

It surprised me hugely just how different Quinn and Elise's story was to Ryder & Jamison's. Moving away from the performing on stage element was a perfect move by Tracy Wolff and has kept everything fresh, whilst continuing the bands story. Quinn is a tattooed pierced gent of a rock god with a wicked sense of humour and a protective streak. Elise is a classical pianist, recovering from a career ending accident and his first love. He left her but he's back; bigger, bigger, badder and sexier at 27 than he was at 17...

I loved them and their dynamic; I flitted between howling with laughter at their prankish rivalry yet my heart went out to them. And as for the sexy action? Well sexy is a word that doesn't really do it justice. The scene

with the piano in Pretty Woman? Well let's just say that has **nothing** in comparison.

I am a Shaken Dirty groupie. Their vulnerabilities bring out my emotional side yet their sexiness has the capability to reduce me to a swooning mess and that is precisely why I love this series.

I received a copy of this as an ARC courtesy of Entangled Publishing for an honest and unbiased opinion.

Kara says

and the rockers continue!

I think this is a fun story to read! Quinn, Lissy and their pranks were hilarious!

Near the end of the book my hubby looked at me and said, "good book?"

Of course I replied, "it is, why do you ask?"

He said I had a big smile on my face.

I really like Wolff's style of writing...it is easy and fun, sexy.

Mari?ina says

3,5 Stars!

A sweet, solid and easy to read story, with some good characteristics and a few quite tedious moments. The main core is very compelling and romantic to the bone.

Quinn and Elise have chemistry. Yes, their past is extensive and filled with memories, both good and bad but their present will turn out to be even more so. After ten years of hardships, bad decisions and menial relationships they will finally find their way back.

Elise suffers from a terrible accident, that cost her a dear friend and parental figure, her career as a pianist and her placement in the world. She is now in a hospital bed with a mutilated hand and the man she was in love with a decade ago is finally at her side.

Quinn, will try anything to have another chance with the only woman he ever loved. Even fool her and make her stay with him until she can take care of herself again. Elise is in a dark place, and so is he. His very popular and successful group is in deep trouble, but even that won't stop him from helping her.

This is a beautiful, tender, both funny and serious story, with its ups and downs, a few twists and a great ending. I loved the beginning and the teen years so much. The pranks were an amazing touch, and even though I couldn't connect with the characters very well, I still enjoyed the book.

THOUGHTS ABOUT THE BOOK

- The scene with the goldfish was very hot.
- The inner monologues were a tad too much.
- The supporting characters were great, very likeable.
- I liked the story a lot, but it lacks on details and I think if it was a tad longer it would have been so much better.
- The characters would have the chance to grow more and the storyline would have been wellrounded and wholesome.
- Again, the pranks were awesome.
- There is a scene that for me signals the turning point in the book. It made a huge difference in a good way.

Lisa Jayne says

FOUR DELICIOUSLY DIRTY STARS.

Tracy Wolff evidently loves to deliver brazen-style, dirty sex scenes with the added bonus of loveable characters in one well-written bundle and I can happily announce that I'm now a firm fan. Send me in the

direction of more from this author I like, I like a lot. Here are the rest of my 'Shaken dirty' book thoughts ...

What's it all about?

Elise McKinney finds herself injured and all alone, not expecting anyone to come to her rescue it comes as a huge surprise when ex music rival and all round gorgeous rock star, Quinn Bradford returns to his hometown and attempts to take Elise into his care whilst she recovers. With a history between them and enough chemistry to make it clear that they both want each other Elise and Quinn must resist the temptation of seduction or give in to the connection that has always been there. But with insecurity, mistrust and heart break building between their relationship they both have to decide if what they have is worth fighting for. 'Drive me Crazy' is the second book in the rock band themed series, 'Shaken dirty' and follows the story of the band's talented keyboardist, Quinn.

What did I love?

I adore discovering an author that has an obvious love of writing about romance. Nothing makes me happier than to waste away the hours escaping into a world of fictional characters and their romantic drama's. With all that being said I can gladly report that this author is ticking all of the above boxes and more and I'm already hooked on this series about the 'Shaken dirty' band members. Tracy Wolff has a way of making the connection between her characters both sensual and heart thumping, I love her almost poetically erotic way of writing the loved up scenes between the characters. 'Drive me crazy' had a little bit of everything thrown into the pot; second chance at love theme, heart break, pain, insecurity, deliciously dirty romance, friendship, laughter and more. The plot was well thought out and the characters likeable from page one to the end. This story held my attention and I'm happy to say I'm already looking forward to more books in this series.

Why not five?

As much as I enjoyed this latest loved up rock and roll style novel it started off on a melancholy note for my tastes, I don't mind a little angst and troubles for my characters but I felt it started out a little on the heavy side. However as the story progressed the author introduced some brilliant dialogue between the characters and an element of the hot and steamy that made me one happy romance reader. Overall the story, characters and naughty loving were all of a largely likeable standard it just had that something missing to make it a full out five star rating, but there is no mistaking that this book deserved a solid four star, Tracy Wolff I like your style.

Final thoughts ...

Are you Looking for a well written rock star themed romance? Then look no further. This author has oodles of talent for making her readers drool and swoon in equal measure and I'm sure most readers of this genre would happily devour this series. Tracy Wolff is an author that is firmly planted on my romance radar and I'm excited to see more of what she has to offer. Go grab it readers, enjoy ... Kisses.

Claire Robinson says

4.5 Spicy Goldfish Cracker & Belieber Stars.

Tracy Wolff writes good sex, I have read pretty much everything that she has released in the past 12 months and although sometimes the story can be a little sketchy, the sex is always HOT. The good thing about Drive Me Crazy is not only is the sex hot, but the story is an absolute treasure as well!

Elise McKinney and Quinn Bradford have known each other since they were seven. Both classical piano prodigies, they spent a lot of time together on the competition circuit competing against each other, not just with music, but also practical jokes. Both have less than stellar upbringings and both try to protect the other from the darkness that invades their lives.

At the age of 17 Elise gives Quinn her heart and her virginity, and he promptly ups and leaves the morning after, not to be heard of again. That is until the day Elise finds herself in hospital after a horrific car crash that takes everything she holds dear to her. Numb, broken and alone she tries to isolate herself from the pain of her loss and the resurfacing feelings that Quinn's unexpected arrival bring back to her.

Quinn had once been everything—the only thing—that mattered to her.

Quinn Bradford –

“a walking example of wicked, wild sexpersonified? At seventeen, he'd been hot. At twenty-seven, he was blistering.”

The tattooed and pierced keyboard player for Shaken Dirty, has more than a few of his own demons. Not least leaving Elise after the night she gave him her heart. He left her once; he won't do it again, even if it means kidnapping her, when she leaves the hospital.

This was such an enjoyable read, I loved the relationship dynamic between Quinn and Lissy, and the roundabout of practical jokes they played on each other pretty much from the beginning, made me giggle more than once, they were so original and well thought out that I couldn't stop reading, excited to see what each would do to the other next. The Twinkies and the Belieber incidents were hi-lar-ious!

We are also pulled more into the whole Shaken Dirty story as a whole, Wyatt is still someone whose story I am desperate to read (fingers crossed Ms Wolff, has him firmly in her sights now). But also seeing the strengthening of the whole Shaken Dirty Family with Jared, Ryder & Jamison rolling through this book really did make me eager for the next book in this series.

The scene with the piano will be etched in my mind for quite a while I think.

ARC kindly provided by Entangled, and it was my pleasure to provide the above honest review.

Sheryl says

This was simply FAN-FREAKIN-TASTIC and so GOD-DAMN AMAZING that i am truly lost for words right now.... To say that i LOVED IT would really be an UNDERSTATEMENT!!!! I'll write my review when i can put some coherent thoughts and words down.

ARC courtesy of Netgalley and Entangled Publishing

[~Ami~]♥Sexy Dexy♥ says

3 stars

Elise and Quinn have a history. Ten years later she ends up in the hospital following a terrible car accident. Quinn is back to help her get back on her feet.

I would have liked more dialogue because the parts with them talking were actually quite good. I didn't get the pranks they played on each other, I found them quite childish. Preferably it is better to read book 1 first as I forgot the back story to all the other side characters.

Characters were ok, story was ok, steam was ok. It was just ok, didnt like it nor dislike it. A **quick and easy** one to pass the time. Definitely not a drop everything to read it book.
