## Green Girls Michael Kimball

Jacob Winter is a man of principle, devoted to his wife and son. But his principles are put to the test when he discovers that his wife has been having an affair with another man - with violent results - and he finds himself bailed out of jail by a mysterious woman from his past.

For a man who studiously avoids sensationalism, getting caught up with Alix Callahan, fiery lesbian ethnobotanist, and her bisexual partner, a sultry Americanized rainforest girl, is a shock to the system. And when he enters Green Girls, their tropical flower shop on the coast of Maine - complete with hallucinogenic herbs and a mini-jungle full of deadly poison-arrow frogs - Jacob finds himself tumbling headlong into a heady world of strangeness he never could have imagined.

## From Reader Review Green Girls for online ebook

### **Jake Danishevsky says**

I read this a while back and remember that I really liked it. It has suspense and some interesting turns. Don't remember too much detail and also read the paperback, but for some reason, didn't see it in another format, so just decided to rate this version with a comment.

### **Casey Ols says**

Quick easy to read book. Different type of story but I really got into it. About a guy who's wife cheat on him and then his life falls apart. He gets hooked up with the wrong type of people and before he knows it he is scared for his life. But then it gets wrost. Not only does he have to perteect himself he has to perteect his son. It was an ok story like I said easy to read.

### **Lynn says**

There was a mystery in here, but I figured it out way before the main character did. It was interesting enough to keep me reading, and it's a quick, easy read.

### **Carol Ann says**

I actually started to read it, and then put the book aside because I did find it to be a bit awkward. But in full transparency, I came down with a virus and was reading anything I could put my hands on out of pure boredom and I picked it up again. It not only kept my attention off of my annoying symptoms but I really enjoyed it! Slick, twisted, suspenseful, and great drama.

### **Nessa Borealis says**

A book that makes both the Kittery Bridge and the sweaty, sopping jungle into vivid settings is unique indeed. This is a suspenseful page-turner that seems to ferment as you read it.

### **Pa says**

This is the tale of an author who is arrested for assaulting his wife's psychiatrist (and lover?) and trashing his house, and whose bail is paid by a lesbian former college classmate who he hardly knew. Before it ends, the tale involves drugs, poison darts, shamanism, and a plethora of odd behaviors and occurrences. A few interesting plot twists and not a bad read overall.

### **Becca says**

"Painfully awkward, in my opinion, though glowing blurb by Stephen King and others. I found the sentences and structure and character development so awkward and disconnected as to be too distracting to even get into the plot line, which revolved around Jacob, a writer, in marital difficulty, involved with the "green girls", some kind of florists with poisoness frogs, a shamen in prison, etc. Meant to be a cliff-hanger, I finally finished it. Disappointing."

### **Jeff Wax says**

Kimball's mystery fit the text-book definition of a "pages turner". If you like the mystery genre akin to Dennis Lehane this book is one you must read.

---

### **Teresa says**

Wow, I gave this 4 stars and I can't remember what the hell it's about.

Ok, I looked it up, I remember now. It was pretty good, I thought, for murder/thriller type. Kind of intriguing, the way the story is set up. I couldn't predict what was going to happen. The main character is a writer and the way his books are described they sound like something you'd have to slog through in some college lit class.

### **Todd says**

Green Girls is a well structured and breathtaking thriller. It's more about the protagonist and his relationships then about the whodunit. Add a skosh of jealousy addled psychos and a South American Kogi Shaman, who escaped from prison to presumably kill his ex wife and you got a genre piece that doesn't get lost in the formula clichés. The sentence structure and pacing are fabulous. Intelligent
