I Am 911 (A Collection of Reader-Submitted Medical Stories Book 4) Kerry Hamm

In this special condensed edition, Kerry Hamm (author of the 'Real Stories from a Small-Town ER' series) shares stories submitted by ER staff, firefighters, police officers, receptionists, and other first responders and medical professionals.

The mixture of funny and heartbreaking submissions will leave you rolling in tears and then sobbing as you reach for tissues.

Gail says

I've read many of Kerry Hamm's books. I liked this one but I didn't think it was as funny or good as the ones she wrote about the hospital she worked in. I will continue to read more of this series while hoping they improve because I do enjoy them.

Devaron Headings says

Fast read

Very entertaining and quick. My favorite type of book! Will read more from this author especially since they are free!

loretta ann thomas-brisbon says

A must read!

Although the stories are not from her personal cache, they're still told in her easy to read style! Some of the stories were sad, some funny, in a laugh out loud kind of way; or ironic , ,while others were heartbreaking!

Still, they all were told in her inimitable way!

I want to, once again, thank Kerry for keeping our stories alive!

Kayo says

I'm going to cry if Kerry stops writing her books. I even like the reader submitted books. Since I'm also in the medical field, they really interest me.

Jill Gooch says

Loved it!

Please don't stop writing....I promise not to tell anyone you have a messy house! Its so great to hear about stories in the medical field, as I look forward to each book. Keep them coming!

Suzanne E. Chisum says

Greatly Enjoyed

I found the vignettes interesting. I have enjoyed other books by this author and I was not disappointed with this one. Thanks for putting together this book.

Sandra Knight says

Fact is funnier than fiction

I work in healthcare and had some patients just like the ones in the stories. Makes me feel better knowing crazy patients are everywhere.

Ann says

Can I have more refills on this authors writing, Dr.? I have enjoyed this authors writing since probably a year or more ago.

Instead of the emergency department, this book focuses on submissions from first responders. If you are going to call 911, make sure it is a true and real emergency.

Trasey says

Brings back memories

As a Retired AS nurse this book made me giggle a few times and even made me cry a little.

sweetpeagj@yahoo.com says

I very rarely give 5 stars but these stories and this author are amazing.

Kathy Allen says

Something for everyone.

An interesting mix of stories from tragic to hilarious....even some ghost stories! I can't wait to read the next 911 book!
