**Impossible: A Dark Romantic Comedy** Gary H. Miller , Bob Tischler

From SATURDAY NIGHT LIVE writer Bob Tischler and FRESH PRINCE OF BEL AIR writer Gary H. Miller comes IMPOSSIBLE, an adaptation of their hilarious, fast-paced, dark romantic screenplay. The result: a hilarious, fast-paced, dark romantic novel. Once you pick this book up, it will be impossible to put down.

IMPOSSIBLE is a truly laugh out loud romantic comedy. I liked Peter and Beth a lot and hoped they would each find happiness despite the devastating discovery. I could see IMPOSSIBLE becoming a TV-movie or even a one-shot series easily. -- The Bibliophilic Book Blog "- May 15, 2015

## **From Reader Review Impossible: A Dark Romantic Comedy for online ebook**

### **Melanie says**

I downloaded this book for free on my kindle. It was super predictable, and mildly funny. At least it was short and free.

---

### **Star says**

Peter Michaels has never had a serious relationship. He does a lot of online dating, but things never seem to last. Living with his parents in their home on a golf course, one day his heart is struck by the beauty of the woman whose faulty shot shattered his iPad. Peter and Beth started dating and easily fell deeply in love. However, things changed when Beth took Peter home to meet her parents and Peter discovered a decades-old secret. IMPOSSIBLE is a truly laugh out loud romantic comedy. I liked Peter and Beth a lot and hoped they would each find happiness despite the devastating discovery. I could see IMPOSSIBLE becoming a TV-movie or even a one-shot series easily. I don't want to give too much away for those who want to be surprised, but read IMPOSSIBLE. It's a good story with solid characters and great humor!

### **Tere Fredericks says**

#### **Dark Comedy**

Is right! Funny yet sad, then right at the end, there is a character you want to strangle . . . as another character says, "and he choked me."

---

### **Hollie says**

A dark romantic comedy??? If you say so.

I wish I would have liked it like others, but this one was just bad....sorry :(

Ok, I have to start by saying this book was seriously all kinds of fucked up. I like dark books and was in the mood for a romance that had would cause me to laugh, at least a little. This one didn't do that for me. I love both writers but this book was just a wreck. Not one I'd recommend. The high reviews just blow my mind. Maybe it's just me though but this wasn't not enjoyable for me at any point. Total clusterfuck.

---

### **Lauren says**

Unfortunately I did not finish this book. I made it just under half way before I marked it as a dnf. I never could get completely into the story. The story is focused on two people falling in love. Neither character

really reached out and grabbed me, they both live at home with their parents and don't seem to really have much happening. They seem to contradict themselves several times throughout the book.

### **Angela Boone says**

#### **Wow! A Fun Wild Ride!**

Twists and one-liners abound in this crazy funny story. Loved the use of song lyrics to couch Jack's personalities. Simply a really fun read!

---

### **Ann says**

[ As turns out they share their dad. Jack/Joseph has had two families for twenty five years. Unfortuantly for him, his children meet and feel an instant attraction towards one another. Peter finds out and is heartbroken. Beth finds out. Peg finds out and tells she also cheated on Jack, Peter not bein

#### **Just what I needed.**

I had been searching for days to find a book of interest. This one had me laughing and unable to put the book down. Great read. Highly recommend.

---

### **Katelynn Deavers says**

#### **Great twist**

This book was pretty great. It had a lot of plot twists. Also was funny in some ways. I give it a 9/10.

---

### **Annette Jordan says**

Thankfully this was a short book, more of a novella in fact.

Although it describes itself as a dark romantic comedy, there was very little that was comedic about it. Apart from the casual anti semitism and sexism used for "comedic" effect, I couldn't warm to any of the characters and the plot was completely predictable.

Poor

## **Mya Kirkman says**

### **Not comedy**

I guessed the ending way too soon. It was same old guess to many times

Too much

Too much

Not fun

Too m

---

## **Leslie says**

This is a hilarious book for grown ups. Peter meets the girl of his dreams only to learn they are even closer than Kissing cousins. Angry at his father he tries to have a platonic relationship with his new 1/2 sister and fails. While he father tries to balance two lives that are on an unstoppable collusion course.

---

## **Georgia says**

### **Funny story**

I really liked this book. It was a funny love story something I rarely read. About the only thing I would

Change is one part of the ending. Still it's a good read.

---

### **Lori says**

Quick, easy page-turning read while on the exercise bike at the gym. I hope this is all fiction and not representative of someone's real life. Lies, lies and more lies!

---

### **Spencer says**

The book's description identifies it as a screenplay turned novel. Maybe it's actually a screenplay turned novel hoping to again become a screenplay, and then eventually a movie. To my view, the story would play better in film, but it was fun to read. It would make a good movie; certainly not the most far-fetched premise I have ever seen adapted to cinema. And funny, which isn't surprising, given the authors' comedy backgrounds. It kept me reading, and held my attention, and I thought there were some fun plot twists. Laughed out loud a few times. A good, light read.
