Lost Soul Theresa Van Spankeren

Julia is the daughter of a wealthy family living in 16th-century London. She falls in love with Adam, a servant's son, and is heartbroken when her family forces her into an arranged marriage. Her husband is neither kind nor merciful, and Julia struggles to keep safe those she cares about.

When tragedy strikes, a stranger arrives and offers her a deal that could forever alter her destiny. Agreement would give her what she had been denied and grant her fondest wishes: the freedom to do as she pleased and a reunion with her one true love.

There's only one catch. Accepting would also mean joining the Vampire Resistance to fight the King.

Julia was not always a Lost Soul, she was once the daughter of a wealthy man about town in a time when daughters were nothing more than property to be bartered off to the highest bidder in marriage. Julia begins the story telling us that she is going to write down her history to hopefully rid herself of her nightmares, and given some of the things she experiences, if all she has are nightmares she is lucky. Julia begins her life naive and thinking that she is worth something, only to be crushed by her father and husband. Luckily someone is watching out for her and she begins her life as a vampire. Author Theresa Van Spankeren gives the vampire community progressive ideals for the time period, the believe women are equal to men and not just property. Throughout her life Julia learns more with the vampires than she ever would have in her worldly life.

Lost Soul (War of Destiny) (Volume 1) begins Julia's story and sets the stage for a saga to be set forth in the vampire community. There is a war brewing, to live among the humans and befriend them or to use them only as food and kill them. Theresa Van Spankeren gives the reader a look into the world throughout different time periods with the history of different vampires, yet at the same time they all are very progressive in their thoughts, or at least the band that Julia belongs to. The reader is easily able to identify with them and feel for them, wanting them to succeed in their endeavors to bring about change and equalities. It is a great read for adults or older more mature teens.

This story completely floored me. I cried, I laughed, I screamed out in anger, I think I ran through every single emotion possible while reading this book, but it was fantastic. Julia sits down and decides to write down her life not only when she was a human but also her life as a new born vampire. This story is absolute riveting, and have nothing bad to say about this book what so ever. I suggest everyone get this book and be sure to have tissues and ice cream on hand because you're gonna need it!!! can't wait for the next one.
