### **Lanie says**

I am amazed and saddened that such a neat idea could be presented in such a boring, cliched way. Dull, lifeless characters. Little to no suspense. Seriously I literally almost felt asleep reading this. And the simples, most boring writing ever. It doesn't even try to have its own voice or tone or anything. There's no feeling to it. It's all "Jamie did this" and "Cassie said that" just terribly bland and snooze worthy. Another short horror tale gone seriously wrong. :/ not recommended.

Mirror Mirror by Anthony M. Strong is an easy quick satisfying read with only 54 pages although it was short I thoroughly enjoyed it although was predictable.

### **WHATEVER YOU DO DONT LOOK INTO THE MIRROR!!**

Jaime Beaumont thought all his Christmases had come at once when he stumbles upon an antique mirror left on the sidewalk, he decides to take it home & he shows it to his girlfriend Cassie she doesn't think much of it, until one night when Jaime hears scratches in the night but he thinks nothing of it.

Its not until one of his neighbours tells him to keep down the noise as he is a night worker , Jaime tells him he has been on Campus & has only just come home, so that night he hears the scratches again as well as the shadows & he finds out its the Mirror it has some sort of evil possessing it.

As the story goes Jaime is obsessed with it until he is totally consumed with its past, what happens from here on is a race to find out the truth of what the mirror holds.

Predictable but entertaining.

I found myself drawn in and fascinated by this short story. When Jamie Beaumont finds an old ornate mirror someone had just thrown out, he was happy to retrieve it, just free for the taking, Of course, everyone knows not everything is actually free.Jamie is going to learn that lesson the hard way. The author does a great job

with a short read that feels like a novel. I am really interested in picking up more works by this author.

In the world of kindle freebies by unknowns this was a very nice find. Unlike, say, the find the story's protagonist makes while trash picking for his apartment. Strong selected an inherently creepy subject and wove a quick, fun and quite scary tale about it. Look past the somewhat cheesy cover, this is a very entertaining way to pass half an hour for horror fans. Recommended.

Pro tip: don't pick up crap discarded on the side of the road.

*"The mirror sat out by the curb, leaning against a Green plastic trashcan, just waiting for someone to come by and snatch it up.*

*Jamie Beaumont might have driven right by it, might not even have seen it, except that just as he turned the corner onto Dawson Avenue, as the car started along the street, the sun glinted off the silvered, smooth surface, and, just for a moment, threw a shaft of light directly into his eyes"*

Started out okay, but not long into it went downhill. The writing was clunky at some points and I couldn't connect to the characters other than the very beginning with Jamie. More telling than showing about his and his girlfriend's relationship.

There a few creepy moments that did catch my attention but everything else felt dragged out. I actually zoned out a couple times and had to go back and re-read to make sure I didn't miss anything.

The ending on one part was well done and if I had been watching it on TV as 'A Haunting' type thing, I would have been rewinding it back to the beginning to start over... but with this, it ended where it out to I suppose but at the same time, it felt too abrupt.

I felt.. cheated in a way.

Great concept but not-so-great execution.

Other people loved this so it could be just me.. go ahead and try it if you are curious.. last I checked it was free on Amazon.

Nicely spooky and a very nice story in terms of how the ending is handled. I do wish that the girlfriend had

been better drawn as a characters. She almost comes into her own at the end, but prior to that she comes across as little more than f\*\*\*k buddy instead of the true love that both partners came. Though, to be fair, she is far from a bimbo.

A short but very entertaining story. Recommended.

Nice horror short but fairly predictable. It has the right amount of creep factor to keep you turning the pages but I had the ending figured out almost from the start. There were quite a few editing issues that were distracting as well, but overall, the story was a nice read.

I really enjoyed this short story: it was short and sweet.

Jamie finds a creepy-looking mirror on the sidewalk one day and decides to take it home. I know right, isn't the number one horror rule never to go near anything that looks creepy or possessed? Anyhow, supernatural events follow and the mirror begins to torment Jamie and his girlfriend. The tension and suspense was really good, and it felt like a horror movie, although I felt the characters same across as stiff and bland.

However, kept my interest and would recommend for anyone looking for a short horror story.

This is a short story of 54 pages. This one was the take on the haunted mirror. I really enjoyed it. Giving this one 4 stars.

Jaime is a poor college student that likes going around student housing at the end of term collecting "junk" from the moved-out or moved-on students. The once alumni, leave furniture or knick-knacks they no longer want or can't take with them when they move away.

At the start of this short story Jaime thinks he's hit the jack pot with a pretty intricate mirror. He of course nabs it for his apartment. Once the mirror is in his possession though can Jaime get rid of it if he wanted to?

Jaime starts hearing scratching noises when he brings the mirror into his bedroom. While he is gone at school the neighbor complains that there is loud noises coming from his apartment. Of course no one is inside. What is going on? Where are the noises coming from? Will anyone believe him when he finds out?

Pretty cool little story. I really liked the ending.

After finding a mirror by the curb, Jamie takes it home and soon realizes that there's something wrong with it.

Strange things start happening in his apartment.

I was gripped in the beginning, but the story just dragged a lot! There were described a lot of unnecessary stuff about Jamie's life, and there wasn't anything *concrete* in supernatural matters.

What could have been a good ending wasn't purely due to what happened before, and because there wasn't anything beyond it.

It was just *that*.

Disappointing.
