Kimberly C. Winslow says

Wild Action Packed Thrill!

You will not be bored! I read this set very quickly! I do enjoy it when I don't know what is going to happen. You think you are following the main character (meaning they will survive) and surprise you are switched out to someone else. You don't know who will survive and then who is one of the lycans. Great job!

Lisa Shrock says

Enjoyed

It was an enjoyable series. The first book was way too short but at least it was free. This really could be said it is one book. I did enjoy it though and would recommend it and look forward to a 4th book.

Megan says

This book was okay but it was a lot like 30 Days of Night but with werewolves.

Nicole Tul says

Different

I liked the different take in this book, with the werewolf. Some parts to much information and I was skimming threw. Another part said kilometers , could be a really great read

Anne Marie Izzo says

Riveting!!

I found this book set to be difficult to put down, as the tensions built slowly and kept me fully involved. Well written horror story,I will be getting the next book asap and trying more of the authors works. You won't be disappointed!!!

Elaine Plourde says

I enjoyed the book a lot but I can't believe it took three books to get through one night. The story did have a lot of suspense in it though.

Marie says

This was a great series! Couldn't put it down - read the whole series - all five books - very fast paced and will keep you on the edge of your seat!

Bob Cantrell says

A thrill ride

This three book set was a thrill ride from beginning to end. I was excepting the usual werewolf story, but I got a lot more. The premise of this story is a snow storm of epic proportions that is the trigger for a rampage by not just one werewolf, but a super pack of werewolves. That is all I can say so as not to ruin the story. As to the characters and such there is much to say. Some of them make it and others don't. The author made me want to see them through this nightmare of a storm, but I just knew that wasn't going to happen. I also liked the idea of the storm and the havoc it brings ; the loss of power, no means of communication, and the bone chilling cold. If you have ever been through a power outage like the one in these books then you know how the characters feel. Those, who like werewolf stories, will find this set to be a page turner, a thrill ride and a few plot twist to enjoy.

Joan Brooks says

Good suspense

I would like to think these things can't happen, but fear can bring out the worst in people. shows that being kind and sticking with each other can help. was sorry to see al take his life. in times like that, it is easy way out. Will continue to see if it happens again when darkness falls. Good read.

Deborah says

Outage box set: 1-3

This was a really good story. I like how you couldn't read it fast enough to find out what was going to happen next. Even tho the story was good, I DID NOT like the nasty words, and taking the Lords name in vain. That was not acceptable!!

Luvtoread says

Very , very good! I highly recommend!!

Linda says

Bloody terrifying

Outage: Books 1-3.

Don't read this in the dark, or alone, or in a storm.

With the snow, came the monsters. Everyone died. Almost everyone. Almost.

Gary Price says

Excellent Horror Story

This is one of those books that grabs you and shakes you through your whole being! The trials and tribulations that the people went through are gruesome to say the least. It's really good on a cold winter's day. Enjoy!

Joseph says

Terrifying

The isolation of a big snowstorm is bad enough, but combine that with huge beasts out there, waiting for you to be their prey. The author doesn't try to reinvent the idea of werewolves, but he doesn't have to. He really hits the terror, despair, and isolation of trying to survive a seemingly endless, unstoppable force that wants nothing more than you dead.

Miriam says

5 stars audio

5 howling stars story
