**Possessive Portuguese** Flora Ferrari

I thought **Possessive Portuguese** was the name of my **dad's best friend's** sailing yacht.

But after I take **possession** of my high school diploma, and he **possesses** yet another victory in the Regata de **Portugal**, my dad takes me abroad for a sailing trip for the three of us to celebrate...and I find out what **Possessive Portuguese** really means for the very **first time**.

After we lock lips in Lisbon, this **older man** sailing skipper says he wants to skip past all the formalities because he's already **obsessed** with putting a baby inside this **younger woman**.

**Portuguese** men discovered the world, but what happens the **first time** this **older man** discovers this **younger woman** has yet to be **claimed**?

Will the idea of my **dad's best friend's obsession** with his daughter make my dad more than seasick as we make our way around the Portuguese islands in the Atlantic, or will the two of us sail off into the sunset, the wind at our backs forever?

*\*Possessive Portuguese is an insta-everything standalone **instalove romance** with an HEA, no cheating, and no cliffhanger.*

I received this book with the understanding that I could leave a voluntary and honest review.

In this book we meet Fiona and Francisco. Fiona has just graduated from high school and her dad brings her to Portugal to visit and go sailing for 2 weeks with his best friend. Francisco has been looking forward to getting together with his old friend that he met while studying in the states. He hasn't seen him in years but when he they discuss going on a 2 week cruise together he is excited. That is until he sees a woman who knocks him on his ass. Fiona take one look at the man who saves her and knows she wants him. Neither of the realize this 2 week cruise they are to go on will include each other. Will they be able to keep their hands off till they can tell her dad or will it all be lost at sea?

This is another amazing hit by this author. It does have its ups and downs that I really want to tell you about. However I don't want to ruin the book for any other readers. I will say this book will have you hooked from the first word to the very end. I would highly recommend it to anyone and everyone.

I volunteered to read this ARC for an honest review. Loved this story about Fiona and Francisco. He's her dad's best friends and sailing buddy and she is on a trip to celebrate graduating high school. Where they meet by accident on the street, she almost gets run over by a tram, Francisco saves her and starts a craving neither one can deny. So image both of their surprise when his buddy shows up with his daughter in to fit a two week sailing adventure, and who but the mystery girl is Frank's daughter. The chemistry builds the entire trip. They steal secret moments together. Great quick read with lots of passion and heat.

Another wonderful read from the star of the older man/younger woman genre. Fiona and Francisco's story was such a hot and steamy read. I enjoyed the setting and loved the idea of sailing around the islands of Portugal. The way they met was written in a clever way that pulls you in from the beginning. There is a little worry over Fiona's dad and whether he is okay with his best friend and his feelings towards his daughter. Fear not. They are able to get their HEA!

I voluntarily reviewed an ARC of this book.

A fab romance read , Francisco and Fiona are great likeable characters with chemistry that grows as soon as they meet and carries on through the book , with a storyline that flows easily from the beginning to the end with it's build up to heir first night together to being confronted by her dad and his best friend Frank , loved the epilogues especially the second one that gives a glimpse into their family 10 years later ,a great older man/younger woman romance ,a must read

This story is what I would say is a quick reading story. It is quite fun to read through and easy one as well. It has surprisingly quite a good story line for such a short story. The characters are also there true to themselves throughout the story. The first chapter ends somewhat on a strange note as there is hardly a link between first and second chapter, there might be a bit more food on the pages in that area. But all in all it is quite good while being short and that is often more difficult than in long stories. There were still some errors both textwise and grammarwise but they can easily be taken out with some good editing... But as always, this is only my opinion and of course it is best if you form your own after reading it.

Francisco is captivated by a woman he sees when he is sitting in a café. He gets up to go and introduce himself and ends up saving her life. He knows that she is the woman to marry and have his children. When his friend comes to his yacht he starts thinking about the woman and wishing she was going sailing with them only to have her materialize only she happens to be his best friends daughter. This adventure is about to get real hot and when it's all said and done, will Francisco lose a friend or gain a father in-law?

### **Laila Viking says**

As always a very well written story with likeable characters who have instant love and attraction for each other. I would have preferred her to be a college graduate because of her age and maturity. But absolutely a sweet and loving couple. I like he stands up for her and helps her. Cute jealousy.

I like the epilogues because that finishes the story in a much better way and the reader gets a bit of the couples future. The story itself could have been a bit longer but it is absolutely worth the read.

## **Julianne Macneil says**

I read this book as part of an arc program. This is the instant love romance between older man Francisco and younger woman Fiona. Francisco and Fiona's father Frank are best friends since college and haven't seen each other in years after Francisco moved back to Portugal and spends his time sailing around the world. When Frank takes Fiona to meet Francisco to sail around for a few weeks, Francisco is looking forward to seeing his friend again. The morning they were set to leave, Francisco sees a young woman in town and when she is almost hit by a truck, he rescues her and knows she is meant to be his. Francisco now can't wait to get back from the trip so he can see his woman again. Francisco is shocked when Fiona shows up at the yacht and she is the woman he met earlier. Fiona sees Francisco and knows he is the man she has been saving herself for. Francisco and Fiona are both committed to each other and want to be together, only they have to tell her father. I love this story about a strong alpha male and the woman he loves. I love how Francisco wanted Fiona to go to college and was willing to help her. I think they had great chemistry and were meant to be. I love Flora's books, they are always hot and steamy and have great connections between the characters. Another great one.

## **Raecharmed says**

Fiona's dad's best friend offers to take them on a sailing trip to celebrate her graduating high school. On the way to meet up with them Fiona has a little scare and is saved by a mystery man. Francisco wants to go back looking for lovely woman he met briefly but he is already committed to this trip. When he sees Fiona walking up to the boat he is stunned she is the woman he couldn't get off his mind and she just so happens to be his best friend's daughter. During their trip they tempt each other and almost get caught by her father several times. When the end of the trip is nearing Francisco makes an adjustment without her father knowing and gets the a room to spend the last night together. What will Fiona's father think about them being together?

This is a great steamy story about an older man finding lover with a younger woman. The chemistry between them sizzles with each turn of the page. This is a well written and very entertaining story. I would recommend this book to any book lover.

I loved this book so much! Flora Ferrari is now one of my go-to authors. Her books have the perfect combination of steam, drama and sometimes suspense. What was supposed to be a sailing trip for Fiona's high school graduation with her dad and his best friend Francisco becomes so much more. When Francisco sees Fiona again after several years, his whole world is changed forever. He knows now that Fiona belongs to him. She definitely feels the same. Can they convince her dad Frank they are meant to be?

I love these insta-love books by Flora Ferrari. We start this story with our hero Francisco saving a beautiful girl from being run over in the street. He, of course, instantly falls for her before he knows who she really is. When he later goes to his boat to meet his old college friend and his friend's daughter he is in for a big surprise! This story is hot, dirty, and sweet but it is a really short read. HEA's are always included. 3.5 stars.

An instalove that neither saw coming. While enjoying a coffee Francisco sees a woman who he knows is going to be his everything. When she's almost hit he saves her yet doesn't get her name only her number and promises to call as soon as he gets back from the trip he has planned. Little does he know that the woman who sparked all the possessive feelings in him is his best friend's daughter. Fiona and Francisco are confined to his sail boat for two weeks and they sneak kisses and intimate moments but are careful not to tip off her dad. Only Frank figures out what's going on and things become complicated but she chooses to stay with the love of her life. The epilogue is absolutely fantastic

#### **Loved it**

Fiona had just graduate of high school and begs her father for a European boating vacation. Lucky for her her father's best friend, from Portugal, races yachts.

Francisco just saved the life of the most beautiful woman he has ever seen. At 38, he thought he would die a bachelor. He has her number, he just wish that he didn't have a prior commitment.

Francisco and Fiona are speechless when they meet again at the dock. He learns the woman he has claimed

to be the mother of his children is his best friend's daughter. Fiona can't believe the man who saved her life and who saved her life and who she exchanged numbers with, is her father's best friend.

Fast paced and steamy, Fiona is dirty talking flirt up to any challenge Francisco comes up with. A very steam first time together. A sweet proposal. And two great epilogues to wrap up their story.

I love Flora's books. They are an automatic buy for me. I know I will get a great story.
