Royal Treatment Parker Swift

"Addictive, sexy and beautifully written. I can't get enough of Dylan & Lydia. 5 erotic stars" -**Vi Keeland**, #1 *New York Times* Bestselling Author on *Royal Disaster*

All this duke needs is his duchess...

For five blissful months I've been engaged to Dylan Hale, the most handsome, commanding, and wickedly sexy duke in England. For five months I've woken up next to the man I love, indulged in secret trysts, and submitted to every delicious desire. Even better? We've managed to keep it hidden from everyone. That means no paparazzi scandals, no snide comments from Dylan's mother, and no harsh public scrutiny. It's been heaven, but with Dylan's royal responsibilities looming, our time alone is running out. And while I can't wait to be Dylan's wife, I'm terrified that becoming Dylan's duchess might mean losing myself.

Kim says

Royal Treatment is book #3 in the Royal Scandal trilogy. I enjoyed the first book, Royal Affair, while I thought the second book, Royal Disaster, was just ok. However, Royal Treatment was a great way to end the series and I enjoyed it!

Dylan and Lydia are engaged, however, it is still a secret. While he wants to make it official and announce it to the world, she wants to keep it a secret for awhile longer. When Lydia decides to go ahead and take the leap to make it official, now Dylan wants to hold off a little longer.

Communication still seems to be an issue between the two. Throw in being a Duke, a woman who is about to be a Duchess, lack of privacy when everyone finds out, work, crazy families and people just always trying to do the opposite of what's best for Lydia and Dylan, there are bound to be some challenges ahead.

When work throws Lydia a major roadblock, will she and Dylan make it work? What does the future hold for Dylan and Lydia? Will they be able to make their relationship work as Duke and Duchess?

While the two had a tough road, they finally get their happily ever after. The relationship between Dylan and Lydia was spicy and it did stay that way through all three books. The sex scenes were very sexy throughout all three books and it was something that I enjoyed. All in all, the series was good and I feel this was the perfect ending to the story of Dylan and Lydia.

Francoise says

4.5 Royal Stars!

Lydia and Dylan have been engaged for 5 months and they have managed to keep it a secret. After his father's death, Dylan has become the Duke of Abingdon. He has a lot on his plate, with two companies to run and the duties and constraints of his title. His cooperation with members of MI6 puts additional pressure on his shoulders, but is necessary to save his family pile. His father nearly bankrupted their family company and had dubious connections with the Russian mafia.

Lydia is still afraid she will never fit into Dylan's life. She is neither a socialite nor a kept woman and doesn't want to be laden with the trappings of wealth and status. Decisions need to be made, feelings need to be expressed. She wants her next career move to be an asset for their future married life, not a liability. Obviously, they can't keep everything under wraps and live in their happy bubble for very long anymore. Lydia is aware of Dylan's difficulties, but she trusts they will figure out the life they both want. Dylan is a reformed bad boy, Lydia has changed his outlook on major life decisions. He is bossy and yet so attentive and caring. I loved Dylan and Lydia together, there is no doubt that these two are soulmates. Their story had its ups and downs, but they always find strength in each other.

This final installment in the Royal Scandal series was the icing on the (wedding) cake. I felt that Parker Swift

has given the closure that the characters deserved. This book had everything I love in a romance novel, the emotions, the spark, the swoon worthy moments, the sexy times, the tension and, of course, a perfect happily-ever-after. The story was well paced and a real page turner. The great cast of secondary characters adds warmth to the story, I hope Parker Swift will write their story next. I really enjoyed this author's flair for vibrant characterization and fluid storytelling. If you enjoy contemporary fairy tales with a twist, highly recommend this trilogy!

Laura says

ARC Provided by the Author via NetGalley

This is book 3 in the story of Dylan and Lydia. It's definitely not a standalone, as it picks up after the events in the other books, their first meeting, the beginning of their relationship, and all of the build up is referenced in this book, vaguely, but you need to have read the first 2 in order to really follow.

I was invested enough in Dylan and Lydia to want to know how it ended up for them, although I can say that I thought it was a little too long and the book would have worked better, I think, as a duet.

The emotion, at least for me, felt a little drawn out and like there was not quite enough for them to really have the plot to make it through the 3rd book and the break up, make up and issues started to feel a little like a soap opera...the issue exists because it is the 4th chapter of the 3rd book and not because it really follows a strong story ARC.

I recommend this book, as it is the end of a series and the first 2 books really were engaging, but this one was not as compelling as the others in the series.

books are love says

This book was great. the right amount of humour, seriousness and romance. Dylan was just as fun and down to earth for a duke as ever. I didn't like when his mother actually got to him and he was a doof but his came from the heart and his love for Lydia. He did get his head out of the sand with the help of his snarky and adorable sister. Love when she gives it to him. I also loved how he loves her and respects her. IN the end what he did for Emily was just wonderful.

Lydia did at times seem to be waffling on a few things but she did find her way. When she was in NY we saw her really let us know her feelings on where she felt at home. And Dylan also showed us how he saw Lydia in everything and how she could be both London and NY girl without losing herself. When they are in NY we see them both more relaxed and truly just being Dylan and Lydia. They find each other and themselves again. I love his romantic gesture and the bar scene beautiful.

when getting back to England I love the reaction from mom but also how they were a team and partnership. They respected each other and worked together. Their love only grew stronger. Dylan stepped out of his role and followed his heart when it came to Lydia and you cheer them on throughout the book. when Dylan puts

himself in danger for his family's future it was nerve wracking but we see both him and Lydia shine. And that little Emily hint want more that story..

the book is equal parts sexy, passionate, alluring and wonderfully written. You fall in love and become addicted to not only Lydia and Dylan but everyone around them even eventually his mom.

Bookgasms Book Blog says

I have said and will say it again: If there is one type of novel that I have been obsessed with lately, it is the ROYALTY novels. I absolutely cannot get enough of the HOT and Alpha heroes and the down to earth women who bring them to their knees. I loved Parker Swift's Royal Affair and Royal Disaster and have absolutely loved Royal Treatment. It was such an outstanding novel that was full of heat, heart and had such an addicting story. And BOY WAS IT HOT!! I could not put it down!

Dylan Hale was absolutely amazing. Throughout the series he has evolved from a Prince Playboy to a devoted man in love. He was so sexy and will blow you mind! This novel was seriously so fantastic. I can't stop thinking about it and I finished it days ago! Lydia was such a great match to Dylan. She was a great combination of sweet and sassy and strength. Her character has gone through a lot from book one and I was so excited to see how she evolved. All in all this was a fantastic series and I could not get enough. I can't wait for the next one from Ms. Swift. 4.5 Stars! ~Ratula

Beth says

ROYAL TREATMENT was like a snow ball rolling down the hill. It started out small but by the end I was completely caught up in the avalanche of emotions, laughing, crying and doing the happy dance right along side the characters. In the beginning, I was pretty leery. I though that both Dylan and Lydia where going down a really bad path to relationship disaster but in the end I loved it.

BLAZING HOT chemistry! Sexy, sweet and fun! Get yourself a cool glass of tea and get ready to just enjoy!

I'm really hoping Swift plans on continuing the side characters' stories!!!

I received this copy of *Royal Treatment* from Forever (Grand Central Publishing). This is my honest and voluntary review.

Emma says

I have loved watching not only the relationship between Dylan and Lydia grow and strength but also Lydia's character development. Under the care of Dylan and her friends, Lydia blossoms into the wonderful, capable woman she was destined to be.

Five months on from the end of Royal Disaster and there has been somewhat of a role reversal in attitude where publicly proclaiming their engagement is concerned. Lydia had embraced her anonymity and concentrated on her own goals, advancing her career and spending time with her friends without the risk of the intrusion of the paparazzi. While Dylan is bordering on desperate to stake his claim on Lydia publicly.

I loved seeing more of Dylan's point of view within Royal Treatment asking it easier to understand him and his actions better.

There are still a lot of hurdles for Lydia and Dylan, especially the way in which they are able to balance their respective careers with their personal time and Dylan's duties as a peer of the realm. Events involving meddling mothers, status hungry exes and the ever present media add to the drama for Dylan and Lydia. Not to mention the undercover operation Dylan has agreed to undertake for MI6!!!

Dylan and Lydia have to trust in their relationship in order for it to work, the outside pressures already mentioned test the stability of the ties they have formed. Ultimately, both Dylan and Lydia must believe in each other and the strength of their relationship to withstand whatever life throws at them.

Parker Swift ties up all the loose ends within the plot and does so in such a way as to leave the reader completely satisfied with the events that have transpired. I look forward to seeing what she has in store next ♥

Donna ~ The Romance Cover says

Royal Treatment (Royal Scandal #3) by Parker Swift

4 stars!!!

“Time to face the music. You’re stronger than they are.”

What a journey we have been on with Lydia and Dylan over the past three books, a relationship born from one seriously hot encounter, to friendship to more and now a melding of the fashion industry and English aristocracy. After the first two books, we always knew that Lydia and Dylan still had mountains to climb with what was surrounding them in their professional lives, however, one thing never wavered...and that was

their love for one and other. Parker Swift delivers the perfect ending to this fairy tale, where love is all that matters and social standings and bank accounts certainly don't.

While the beginning was a little slow for me I did soon fall back into the lives of Lydia and Dylan. Where meddling mothers are a nightmare as well as inherited dodgy business dealings. Scandal is one thing that needs to be contained and Dylan does everything he can to ensure that his Duchess is nowhere near the fallout. Dylan's protective qualities come out full force in this book and this man has some of the most swoon worthy and heart melting romantic bones in his body. If you were on the fence before this book, you certainly won't be afterwards.

This was definitely a book about give and take, compromises, sacrifices and a meeting of minds. The perpetual struggle between professional careers, royal duties and what both Lydia and Dylan truly wanted to do. It is this battle that makes them stronger as a couple and one formidable team that even meddling mothers had no chance to jeopardise.

“And as someone who loves you, loves you with everything, you can't imagine how painful it is to look at you, all of you, and see you holding up an epic stop sign that says 'no trespassing'”

Both Lydia and Dylan come full circle. Dylan from his non-commitment days to being the most committed of them all and then Lydia's morph from a nobody to a somebody while not losing sight of who she is. Both Lydia and Dylan take their new life in their stride and only get stronger as they learn to meld together their own individual responsibilities and those that are thrust upon them.

The romance and the emotion was perfect in this book while still totally encapsulating Dylan's dominant side. The sex scenes were seriously off the charts as in the past book but as this book progresses there is a lot more emotion and tenderness apparent. This was the perfect blend for them and only hammered home just how true their love was, something that this hopeless romantic craves in her reads.

I have absolutely adored this series and cannot wait for more from this author.

Kindle Crack Book Reviews Cheri says

I loved Dylan and Lydia. Perfect conclusion to this series. Review to follow.

Royal Treatment, the final installment in the Royal Scandal series, was absolutely perfect. Like Parkers' other books in this series, RT is filled with a lot of sexy and sweet elements. I'm really attached to Dylan and Lydia and was bumming that this was the final book until I read the epilogue. I feel like I can say goodbye after seeing their lives five years later. What a great HEA. This series should be read in order to fully appreciate Dylan and Lydia's all-consuming love story.

Kimmy (Sinfully Snarky Reviews) says

5 Royally Amazing Stars!

Royal Treatment picks up 5 months from Disaster Royal Treatment and OMG! Dylan is busy trying to clean up his father's mess while Lydia is trying to adjust to dating a Duke. It has been 5 months since Dylan and Lydia got engaged and Lydia prefers to keep this under-wraps where as Dylan is ready to scream this news from the roof tops. Lydia's biggest fears isn't all the royal duties its how the public and media will portray, which, hell I can't blame her. What normal woman wouldn't be freaked out having every move you make broadcasted to the world?

Can I just say that I am so sad this series is over. I fell in love with Dylan and Lydia from the very first word in Royal Affair. These 2 characters have amazing, hot chemistry that never let up until the very last word of this book. I promise you won't be disappointed, this is the perfect summer vacation read.

Melisa says

Royal Treatment is the final book in the Royal Scandal series. When I received this ARC, I decided to go back and reread the first two books before starting this one. This allowed all three stories to flow together and really added to my enjoyment of the books. By the end of Royal Treatment, I was sad to see Lydia and Dylan go!

The end of Royal Disaster left Lydia and Dylan secretly engaged. They had overcome a lot of the issues addressed in the previous book but there was still the matter of the blackmailer as well as the pressures from Lydia's growing career and Dylan's royal duties. These plot points made for plenty of tantalizing drama throughout the book. Lydia's career actually takes her back to New York, which, coupled with other issues, puts a bit of a strain on their relationship. However, when they are reunited, sweet and steaminess collides! This was probably my favorite book of the series. I especially liked that parts of this book were told from Dylan's point of view. This allowed for more insight into his character and definitely added to my reading experience. I loved watching these characters grow over the course of the series and their happily ever after was so satisfying. It's safe to say that Parker Swift is a new hit author for me! I was lucky enough to meet her at this year's Romantic Times Convention in Atlanta and she was lovely! I can't wait for what she writes next! In the meantime, go and read the Royal Scandal series!

Guilty Pleasures Book Reviews says

I fell in love with these characters and this world of fashion and royalty and I am just not ready to say goodbye to Lydia and Dylan. What started as a sexy, raunchy fun romp with the British aristocracy in Royal Affair ended as so much more. The dominant sex was still there, but it was slowly gave way to romance and undying love, and my heart simply melted for these two.

Having been engaged for months and keeping the true status of their relationship a secret, Lydia and Dylan each struggled with when the right time would be for them to get married. Lydia had her career and Dylan wasn't sure he was ready to subject Lydia to the restraints that came with an aristocratic title. Coupled with

bad advice and assumptions made on the part of both people, a rift occurred which caused both Lydia and Dylan to experience what their lives would be like without the other one in it. And caused me not a little bit of angst reading because I so love these two together and couldn't wait until they figured everything out.

And when they did, it was beautiful. For a man who started off the series as a "no relationships" kind of guy, Dylan came full circle and showed himself to be the perfect man. He was sensitive, loving, caring to those around him and willing to make the grandest plans or the smallest gesture to show Lydia how in love with her he was. Sigh.

All three of the Royal Scandal books were amazing and I can see re-reading them over and over again. It had all the elements for a terrific series: erotic sex, romance, smart characters and enough tears and smiles to make anyone watching me read start to question my sanity. I would love to see books for Dylan's sister, their best friends and Lydia's coworkers. They are fantastic characters and deserve stories of their own, and I'm not ready to leave Dylan and Lydia's England just yet. But mainly because it would give me something else of Parker Swift's to read. Her storytelling is amazing and I'm not nearly ready to be done!

Review copy provided for a voluntary review.

Razan says

I just wasted 2days worth of reading time on this crap of a book!
Glad that it's finally over.

Dali says

Anything to do with royal romances has an inherent appeal. Add good dose of wit and generous amount of sexiness and you've got a recipe for an irresistibly fun and enjoyable read. Dylan and Lydia's story concludes in this royally sweet romantic escape.

In this, the third installment in the Royal Scandal series, the 17th Duke of Abingdon Dylan Hale and Lydia are blissfully relishing their secret engagement. Since only a handful of trusted friends know, Dylan and Lydia only need to worry about how to enjoy each other. There's no apprehension about media or public scrutiny, no unpleasantness coming from Dylan's mother. But given Dylan's very public persona, this small slice of heaven is all about to end and they're about to face new obstacles in the road.

Lydia is worried that becoming a Duchess will change her life in a way that she's lose herself, and for that reason is hesitant to announce their forthcoming nuptials to the world. All the while Dylan wanted her to become his as soon as possible, until he realizes that asking Lydia to join his unstable world as it is would be asking her to sacrifice too much and would rather they wait until he manages to put all his dukes... I mean ducks in a row.

So while their responsibilities take them away from each other, Dylan and Lydia need to find a way to work

as a team before misunderstandings tear them definitely apart.

Even though I regret not reading the first two books, I was really curious about the series. It took no time at all to be swept up in the deep enduring love and delicious sexiness between Dylan and Lydia. Parker Swift did a wonderful job at recapping the history between them, but I'll be carving out some time to read Royal Affair and Royal Disaster as I predict this is a trilogy worth reading in its entirety.

Royal Treatment is book #3 in the Royal Scandal series by Parker Swift. It is a standalone contemporary romance with lots of steam, romance, charming characters and a full range of emotions. Told from two points of view with a happy ending.

AVAILABLE NOW - FULL REVIEW

4 Endearing CROWNS

Parker Swift has given readers of the Royal Scandal series such a sweet and endearing ending for Dylan and Lydia. Balancing the demands of their new positions, they get to see these two become stronger together as well as work to get that HEA they have earned throughout the series.

Dylan is still that protective hero we have seen throughout the first two books, and his devotion to Lydia and her happiness continues to be one of the most endearing aspects of his character. Lydia also continues to be the supportive fiance, and readers really get to see how she is willing to do what is best for them as a couple. She, like before, though, will stick to her guns and speak her mind when necessary.

The main aspect of this story centers on Dylan and Lydia learning these new roles they are required to fill. The readers get to see them struggle with the redefinition, but in the end these two make it work for them and find a way to make it all come together. The epilogue is especially sweet, and readers are going to love the little glimpse Parker Swift provides at the end of the book.

This whole series is really enjoyable. From the characters to the story line over the course of the three books, it was an entertaining and lovely read.

ARC received in exchange for an honest review.
