## **The Cat's Meow** Stormy Glenn

Being in the wrong place at the wrong time is not always a bad thing...

Noah Anderson is odd and he knows it. He has a strong obsessive compulsive disorder that keeps him organized but distances him from the world around him. He doesn't have any friends, family, or even a lover. He's never had a lover.

When he finds himself in the wrong place at the right time, Noah discovers that the dangers posed by having sex for the first time pale in comparison to having sex with the assassin that comes to kill him, even if it means his life.

Gage Tynan is a killer. It's what he's always been. And he excelled at his job until he jumped into the car of a passing motorist when his latest mission goes wrong. The man driving is so odd that Gage suspects he might have been sent to harm him. Gage has no idea that the little man that asks him to take his cat will change his life in ways he has no clue of.

Gage is dragged into a world of shifters and exiled kings, one where his strength will be called upon to keep Noah safe from the pride soldiers sent to keep him from taking the throne.

## From Reader Review The Cat's Meow for online ebook

### Ter says

Loved It!! Loved Noah right away. He's a little OCD, (OK a lot) reading the blurb I wasn't quite sure what to expect, and this was above what I thought, I liked it as well as Stormy's of shapeshifter series. And can't wait till more from this series comes out!! It's a different take on shifters, not just cause of cats but it's got a little different twist to it. It hard to say to much about it without giving away to much of the story. but if you liked her other shifter series, I'm sure you will like this new series also. Wonderful new series Stormy!

---

### Monica says

This book was recommended to me by Nikyta, who is batting 100% with her recommendations to me. I really wasn't so sure I would like this book as much as I did because I'm not a big fan of cats. There I said it. I'm very much a dog person. Cats just don't seem to like me, lol. After reading this book I may have to change my mind about cats because I really had a great time reading this book.

I loved the MCs Noah and Gage. This book was fun, quirky and so unexpected. Who would have thought that the King of the Pride would be a house cat with OCD? I think this is the first time I've read a story where the character had OCD and it was written so well in the story.

I loved how different Noah and Gage were, but that they fit so well together. I loved how Gage freaked a little when he saw Noah shift for the first time and he left. It's funny because Gage is this big bad fearless assassin, and he runs. But not for long. Gage goes looking for Noah and finds him just in time to prevent Noah's assassination.

I don't want to give away too many details, but I was surprised and happy about all the little surprises about the characters that made this story unique.

The secondary characters were great and I can't wait to read their stories. As soon as I finished this I went looking for book 2. I was disappointed it wasn't out yet. I am going to write Ms. Glenn and find out what the hold up is, LOL. I highly recommend this book if you want a good fun read.

### Jacq says

I totally enjoyed this read!

So very relaxing and down right funny!

---

### **Suburbancowgirl says**

OMG. A Stormy Glenn book that is actually well written! I had to give it 4\* for its lack of typos every other page and decent character development. Stormy has never had a problem with the smut writing. The reason I subject myself to her writing every now and then is that the tried and true PNR dom/sub big bad alpha/little sweet mate totally does it for me. Since that is the basis of every Stormy Glenn (and Joyee Flynn, Carol Lynne, etc.) book I have ever read, I keep coming back for a fix. They are light, fluffy easy brain candy with hot man on man smut.

This one really surprised me. From the start, Noah's quirky character came out in the writing. He was adorable! And weird! In an adorable way! I was surprised that the whole pnr/shifter thing didn't come out until pretty far in the book. So, this included the same things that I like with a much, much better story/writing style/editing. If all of her books could be this well done, I would read them all. Well. I will probably read them all anyway.

---

### **Lexi Ander says**

I have tried to write this review twice now and I am getting too carried away so I am just going to make it short and sweet. I adored Noah and because of that for about half the book I was wishing that Gage would walk into a tree or something. Actually, it was worse than that. Last night he was on my *Top Ten Hit List*.

I think this is the most enjoyable Stormy Glenn story that I have read. I like how she twisted the shifter world a bit. I was not sure that I was going to like the twist at first. I had one of those "seriously?" moments but it fit her world.

My one of my favorite quotes from the book was:

*"For what we've done, we deserve to die."*

*"I agree." Gage felt Noah tense in his arms, and the purring stopped. "However, my Noah does not like bloodshed. It messes up his floors."*

---

### **Leaundra says**

Loved it!! I loved Noah and Gage!! They were so sweet together:-)

---

### **Charlie Richards says**

All I've got to say is... When is the next one coming out? LOVED this book! Noah starts out sweet, naieve, and endearing. And although he loses the naivete, watching him grow and change during the story was like enjoying a fine wine. Stimulating to the senses. I laughed, cried, and got mad. Gage offers a wonderful counterpoint to Noah. The street-wise, hard-core assassin learns some amazing truths to life -like it's not worth living if you don't have someone to love. I eagerly await the next one!

---

### Raelynn says

I LOVED Noah at the beginning! His OCD. His reaction to Gage. But then that suddenly disappeared as soon as he shifted. It felt like he almost completely lost that in favor of either being horny or depressed or confused. If he really was OCD, wouldn't it have just gotten worse because of those emotions. His way of dealing, so to speak? I mean, I understand the situation, and I thought the plot was decent, but his awesome quirks at the beginning just never stuck.

I mean, he never fixed the bookcase! God that drove me bonkers, because I felt like he should not have been able to forget about it.

And Gage never really showed his "killer characteristic's" like I hoped he would. I mean, I saw the emotional stunt that he had because of it, but not the physical side. He kind of just got weak and compassionate out of nowhere.

Add in a little anticlimactic-ness and I was sad this book didn't turn out to be as good as I had hoped.

---

### Serena Yates says

This book, first in a new series, is funny, has wonderful characters, a great story, and if it is typical for what is to come, this series promises much entertainment. The idea of having a royal line of cat shifters who are supposed to rule each pride is somewhat unusual, but the way to recognize these royals is priceless. This first volume made me laugh out loud at some of Noah's comments and reactions to what was going on. Gage, in his stoically mercenary attitude, stole my heart as well, especially when he began to learn and adjust to his new circumstances. Mixing tension and a "nefarious plot" with humor isn't easy, yet I really liked the balance achieved in this book.

Noah stole my heart from the first page. He is so unbelievably clueless, naïve, and inexperienced. And yet he manages to survive and teach those around him a few things as well. He keeps a cool head in a crisis (half the time because he doesn't even seem to understand there IS a crisis), and his reactions to Gage's initial brutality are amazingly sane. He kept his sense of humor while under threat of getting killed; instead of being shocked or scared when Gage carjacks him, he insists Gage put on his seat belt; instead of pleading for his life once Gage tells him he has to shoot him, he makes sure his cat will be taken care of after he is gone. And when push comes to shove, Noah shows his true colors without hesitation. What a guy!

Gage annoyed the heck out of me, and not just because he's a hired killer. He doesn't seem to be a very good one, at least he isn't where Noah is concerned. I guess Noah just addles his brain to the point where Gage isn't his normal cold, bloodthirsty self. As the story develops, he redeems himself through the way he ends up listening to Noah, even protecting him in the end. The development from cold assassin to caring mate is remarkable, and initially goes unnoticed because Gage does his best to ignore it all. Nobody can resist Noah's charms though, and I greatly enjoyed Gage falling for the diminutive-looking man.

Between the two of them they entertained me, dragged me with them through their amazing adventures, and endeared themselves to me through the way they fell for each other. If you like slightly unusual shifters,

action/adventure and a bit of mystery, and are looking for an entertaining read that is very likely to make you laugh, you will probably like this novel as much as I did.

### **Mandy\*reads obsessively\* says**

i know i read this and wrote a review, but it has gone missing, and i can't remember all that much now.  
i might reread and try again, and hope GR doesn't eat it!  
But, I might not! lol

---

### **Paris says**

A royal virgin shifter-cat with healing powers and ability to lube-prep himself when aroused.

*Noah could feel his aching hole opening, the natural lube he created warming inside him.*

Human fantasy is endless :-) I'll give you that.

This story is your ordinary sugar romance novel. There were few funny moments but apart from that you will hardly notice any change in your heart beat. An easy read with no thoughts afterwards. I can't give it more than 2 stars because there was nothing beyond that.

---

### **Tammy K. says**

I give this book 3.5 stars.

I would have given this story more stars for the satisfaction that I felt upon completing the read, but I felt the plot of the story was over-shadowed by the erotic content a bit too much for my liking.

Also, it took a fair amount of time for the plot to be established and to get going. For the first 5 chapters I was frequently left wondering exactly what this book was about.

I did however enjoyed the characters. Although their basic nature was a tad formalistic (Alpha Male meets his Twink mate). The MC's quirky ways helped to expand the uniqueness of their relationship shaping them into a sweet couple.

I have to say that this story has a lot and I mean a lot of sex.

I enjoy a book with its share of intimacy, provided that the scenes fit into the story flow.

However I have to say that there were sex scenes that simply did not fit the context of the situation. (view spoiler) What? \*shakes head \* Talk about breaking the flow of the 'fight for your lives' suspense. Now, where were we again?

I felt that there was a nice plot resolution for this book, and yet it left enough room for more adventures in this series.

So over all I felt the story was enjoyable. If not for the moments of lost direction, and the slow start to the plot, it would have been a really good read.

---

### **DeeNeez says**

So funny, so cute, and oh, so hot! Noah's OCD quirks were hilarious, and the chemistry between him and Gage was sizzling enough to forgive any edit errors and bump this up to a 5 star entertaining read. I can't wait to read the next in the series.

---

### **Phaney says**

#### **2014 Re-read:**

Ah, it's best not to look too closely at the logic of this. If you're about to kill someone I am fairly certain the last thing you'd want to do is leave semen inside their body. Just sayin'. I mean Gage is worrying about leaving bite marks but not about leaving DNA?

I really can't explain why I like this book so much, even now at the second reading. It's full of holes and things that make no sense. And awfully convenient little solutions.

Or Gage thinking early on how he *never* fails a mission, yet towards the end he thinks back on his last three missions and they were all failures. Plenty of stuff like that.

But it's also simply cute and fun.

#### **2011 Review:**

Okay, wow. I've in the past few days and during the last year or so read several books by this author and at best I find her work kinda amusing and mushy, at worst completely pointless, stupid and annoying. But this? It's like this was written by a different author.

It was so touching that I almost cried even just a few pages in and extremely funny and unusual, in that one of the main characters is slow in thinking and somewhat challenged in understanding since he lives in his own little world.

Add in the somewhat crude but enthusiastic sex and the grim and gritty of an assassin's kinda-sorta near-reality (because yeah, our other hero really is a remorseless killer even when it comes to innocent witnesses) and you have the most interesting mix.

Oh god, at times it made me laugh so hard.

"Dude, your cat has a cat?"

\*snickers\*

I like that Gage remained relatively believable in his killer ways. He might have fallen in love fast but he basically remained true to his non-mushy and cold self. Sort of. Marginally more than you usually find in

romance-hero-assassins, anyhow. (Can't believe I wrote that, but yeah, that's an actual stereotype.)

Heh, dear lord, Noah's cleaning obsession... I love this book.

---

### **Elsbeth says**

Very shallow fluffy PWP, and I mean it, this gives mud puddles depth.  
It was fun though, and a perfect intermission for sufferers of book hangovers!
