The Immortal Circus: Final Act A.R. Kahler

Despite Vivienne's broken heart and deadly truths, the show must go on at the Cirque des Immortels. But it takes more than glamour and sex appeal to keep the Big Top running; without the magic and support Viv came to rely on, the circus is in danger. Now the troupe verges on rebellion, the war between Mab and Oberon rages on, and a horrifying menace looms—with Vivienne stuck in the middle of it all.

When Mab's manipulations put others at risk, Viv has to decide where her heart lies. Everything depends on her choices. How can she know her true desires? And will she have what it takes to fight the demons she must face?

New possibilities and old passions collide in this ravishing grand finale to the trilogy that began with *The Immortal Circus* and *The Immortal Circus: Act Two*.

This book was initially released in episodes as a Kindle Serial. All episodes are now available for immediate download as a complete book.

The final book in the Immortal Circus trilogy sees Vivienne betrayed by those she cares about and cheated by Mab, the faerie queen of the winter court, into becoming the ringmaster of the circus. She is trapped, powerless despite the fact that she can destroy demons and is unable to calm the angry troupe. She still sees horrific visions, and every day gets closer to the future she has seen.

This whole series is one that I have not been able to put down, and the final book is no exception. I was so invested in the entire story and couldn't wait to see how it would all pan out, and this was definitely not a disappointment. There are a fair few unexpected elements, danger lurks around every corner and Mab continues to throw obstacles in Vivienne's way. We even see a glimpse of the Winter court! This ending was great, and it was the build up of tension that I really liked, which ran throughout the books and finally came to fruition here.

The explanations given to certain plot points (notice I am trying hard not to give anything away), were very nicely reasoned out and everything actually made utter sense. I think my only issue was that at the end we didn't quite get all the 'hows' and 'whys', only what happens a long time later and the in-between is a blank. I would have liked some more explanation as to what happened with the courts and how certain characters lived and died.

There was some slight character development for Vivienne as she realises the truth and learns who she can trust. She also has to cope with a lot of varied emotions as well as the responsibility of looking after others, people she hardly knows. In the end she does exactly what she thinks is right, and it is kind of heart breaking.

Themes of love, betrayal, guilt and remorse run through this story right to the core, with a few disturbing truths and painful choices coming to light. I love the use of the faeries realms and the existence of the circus and really liked how much bigger the story got through every book.

This is a great read and is very satisfying despite lack of detail. It is a well-imagined readable series that I recommend for YA readers and lovers of fairy lore.

First three chapters!!

Not too much has happened yet, but I can tell it's about to get crazy again!! I think this ringleader position will start to grow on Vivienne.. and she's going to love it! I'm excited to see what happens next!! But a week is so much time to wait for only the next 3 chapters! I read the other two books in two days :) I guess patience make the heart grow fonder :)

The Immortal Circus: Final Act

Cirque des Immortels, Book 3

By: A. R. Kahler

Narrated by: Amy McFadden

This has been a wonderful series and great but unexpected ending. Lots of supernatural beings, great fighting, touch of romance, and suspense.

The narrator stayed consistent throughout the series and was marvelous! Wonderful series!

I really hate it when the ending of a series is so unsatisfying that it spoils the whole thing for you. The epilogue doesn't make it better.

Alaina Meserole says

I am livid. Fucking livid.

Okay before I go into this review - where I will most likely rant the shit out of this book - I feel like I should probably explain why I'm so fucking livid. I hated this ending. I hated it so much. With the passion of the god damn Christ. I absolutely hated this ending.

For this being the last book in this series.. I'm still pissed and salty as fuck after finishing this book like 2.3 seconds ago. I didn't want to write my last buddy read comment and I didn't want to write this review. Yet, here I am.

The Immortal Circus: Final Act is the final act. Terrible but final. Yes, I'm still super salty over the damn ending! Don't worry about forgetting that little statement.. I'm sure I will write it any chance I can. So in this book, you still have Vivi in the circus. However, she is now running this ish like a terrible boss. Mab really screwed her over. I also really hate Mab.. but I hate this ending more.

There are a bunch of twists, turns, and some teasing moments. The mystery behind Kingston, Mab, and the rest of the circus were interesting and entertaining enough. The amount of betrayal and lies still happening to Vivi and her "relationship" with Kingston was astonishing. I still can't believe that everyone knew what was happening or what even happened except for her. That he continued to lie to her even till the end. Pretty screwed up relationship if you ask me.

I will admit though that I shipped the hell out of Kingston and Vivi. Once a "love-triangle" was starting to

form (which pissed me off to no end) I was still rooting for them to be together. Austin who?!?! In the end, I'm still mad. Livid at the decisions made by everyone. I just can't accept that kind of ending!!

Overall, the story was fascinating, entertaining, and a page turner. I loved the audio so freaking much. The ending completely crushed me but meh - what can I do now?!? Lilith is still fucking creepy. Mab is still bitchy and manipulative. However. I have grown to love these characters.

I still hate the ending though.

I have to start off by saying the first two books were spectacular, magical and exciting. I was so excited to be reading such a unique and refreshing trilogy. This final book however was extremely disappointing. As a reader who gets so invested in the story and characters, I'm really unsatisfied and upset with the ending. The first 2/3 of the book were great, minus the parts that included Austin, a love interest from Viv's past who has virtually no character development and we, as readers, are expected to embrace him and their "love" as immediately as she does. That's when things start to go bad. How can we invest in him when our beloved Kingston, who we have grown to love since the very beginning, has just died (or so we think). When he came back to life, Vivienne was unbelievably torn between either having a "boring" future with Austin or a magical one with Kingston. When she gave in to a life with Kingston I was pleased. Finally, the girl was thinking clearly. And then it all went to shit in the last few chapters. The epic battle scene we were promised and waiting for was lackluster, lazy and unfulfilling. And that epilogue was awful and was kind of a "f you" to all the readers who invested their time and imagination to this trilogy.

I'm just going to pretend that Vivienne and Kingston just went into retirement, had the son that Viv predicted and lived happily ever after. That's the ending I wish she was given.

Ok. This is a review about the whole Series. It took me a while to read this series because I fell in love with the Night Circus and honestly, I thought this would be similar and did not want to be disappointed. WOW how wrong I was!! This series is one of a kind! Magic, Fairies, Demons, Shape Shifters, Murder, Love, Hate, Lust, warring Kingdoms & plots within plots. I absolutely loved it. The worlds are beautifully rich & detailed! I had goose bumps in Winter. I was wowed by the performers and the acts so amazingly detailed by the Circus & totally turned on by the sexy/bloody Black Carpet. (Read for more details Loves.) I couldn't pick a favorite character because they were all so good (and bad ;). I really appreciate how steamy some scenes got but yet totally left the naughtiest details up to my own imagination (its always better there right?) Im so excited by the potential here. Kahler could write so many more tales from this world. Its just so vast. I cant wait to visit this world again & again.

To prevent spoilers all I will say is that this is the conclusion of Vivian, Mab, Kingston, and Mel's journey that started in Act One. There were sooooo many new twists and turns. I did feel like it was drawn out a bit

longer than it should have been and that the ending was somewhat anti-climactic but over all this story really throws you into the fantasy world.

This specific video review will be included in the August 2018 wrap-up.

[well I'll just say I wasn't a fan. I wanted it to go the other way. I wanted her with Kingston forever.. they just never really got their 2nd chance and I'm saddened by that.. o well. (hide spoiler)]

Olivia says

Well, it definitely didn't get better as I was hoping it would. I think the titles of these books are deceiving. I've said it in my other reviews & I'll say it again...These books are more about a fantasy realm than a circus. (no matter that the title of the circus has the word "immortal" in it)

I know that fantasy books are supposed to be far-fetched, but these took the cake. Fey, demons, shape shifters, etc... I certainly didn't sign up for a demented version of Pixie Hollow, but that's definitely what I got with this trilogy.

And the ending? Seriously? Just like that, huh? All of the books had this big building up of the Oracle's powers & once she got them it was a massive letdown.

Major letdown for a circus book lover such as me.

Michelle Rhodes says

These books are almost good. They are just lacking in a lot of ways. There is a lot of discussion of battles, wars, magic, and powers and yet very little of this is actually described. The romance in the books is also lacking in depth. I just think there was so much more potential in this series than there actually was delivered.

Felicia says

Fuck. Fuck. Fuckity fuck fuck. FUCK!

I am REELING! I can't comprehend this ending. I DO NOT ACCEPT IT! I am BEYOND pissed. Like seriously. I become so completely engrossed with this characters and THAT'S the ending I get! Are you fucking kidding.

I seriously don't even know what to say.

I loved everything about this series. Besides the ending. Because fuck that ending. Everything about this series was amazing! It totally pulls you in right from the get go! There is so much development throughout this book is astonishing.

I absolutely fell in love with Kingston. There's another book boyfriend to add to that ridiculously long list. But then the author does him dirty like that! Kingston deserves so much fucking more. So much more.

Obviously I am still so fucking pissed that I can't even function.

Basically fuck this book. Fuck that ending. Fuck this series. Fuck the next series. Fuck the author. Fuck everything.

But really you should read it. Because even though I say fuck fucking everything I still LOVED this book. You should totally read this if you want to fall in love with characters and then have your fucking heart ripped out, stomped on repeatedly, thrown on the ground, and then run over by one million fucking semi trucks for the rest of your miserable existence by the ending...

Tabitha Haswell says

I HATED the ending of this book. I mean, I really, really hated it. There was no satisfaction whatsoever. No vindication of any kind. The author completely took away the climax. The whole trilogy was a build up to a climax that literally Did. Not. Happen. Or maybe it did, but it was completely skipped over in a time jump from the last chapter to the epilogue. We didn't get to read it, so what was the point? I'm so angry that I read this trilogy only to get to the end and not even get to READ the ending!

As for the series as a whole, I feel like the author missed a good opportunity to make this series more than what it was. I wanted more of the circus. Honestly, that's the whole reason I even picked up the books. I think the first book did a pretty good job with that, but all things "cirque" went to hell with the second book. I'm so disappointed in this series.
