# From Reader Review Tomb of Doom for online ebook

## Katy Vance says

Well, it's not as good as the Beast Quest, I don't think. But it sure has inventive spy gear all over the place.

Easy read, crazy twists and fun overall. It's like Indiana Jones if he was a kid with with Q from James Bond working for him, complete with a hot lady villain. This book isn't going to build better humans, but it's a rollicking fun ride, especially for kids who fancy themselves a secret agent.
