## Dave says

Oh No!

## Karen says

The alliterations in this book (all "c"s) had me so tongue tied, which is fine but I don't think this book was supposed to be that way. Story was fine. Art was okay (clowns are just creepy no matter who draws them).

---

## Sadia Mansoor says

All the words starting with the letter 'C' & they were a bit tough for the little children to read & enjoy. Someone has to read to them & what's the point when they themselves cannot read. Its better to give them much easier words to learn & understand..

## Faith says

C Is For Clown

Reasons why I like this book-

Reason 1- All the sentences have an alliteration.

Reason 2- The book is short and has pictures.

Reason 3- It is a good book to read to little kids.

## Laura says

Ok, I was going to say I didn't like the "C" book as much as the "A" and "B" books until the CRASH! Fun to read out loud for parents and kids.

---

## Alicia says

This whole book is about the letter "C."

---

## **Dolly says**

This is a fun book for beginning readers. The words are not particularly simple, but they rhyme and have a nice rhythm. It's a good book to challenge children and help them learn new words. We had fun reading this book together.

## **Samantha wickedshizuku Tolleson says**

Like the B book this was also a nightly read with my children. They enjoyed this one a little less, but still found amusement in it. Mommy and Daddy from time to time start spouting the rhymes to it out of no where just because of Clara Canary. CRASH!  
Very silly readings to you kids, NOW GO TO BED!

## **Alison says**

This book is really all about C. There is only one word that does not begin with it. Great for talking about alliteration (and the circus of course).

---

## **Calista says**

Every word here starts with a C besides 'and', 'yes', and 'no'. Pretty impressive. A fun story and because it's a bear, the clown is not as terrifying as normal, still scary, but better. Brother bear is the Ring Leader and Papa bear is the clown. A story for beginning readers.

The kids are Berenstain bear fans so it was a hit in our house. 5 stars from them both.

Title: C is for Clown

Series: The Berenstain Bears Bright & Early

Author: Stan Berenstain & Jan Berenstain

Genre: Children's

Rating: 3 stars

Great little book - I passed it on to my nephew. While the Berenstain Bears books are all fantastic, keep in mind this is for the early learners.

K-2

The Berenstains do a great job teaching children about the letter "C". The books is full of all words beginning with "C". They continually use the same vocabulary over and over, "Can Clarence Clown catch cats carrying canes?" The text is larger than normal and stands out boldy in black at the bottom of the page. Each picture/graphic correlates with the text, allowing the reader an easier time if they are having trouble. This book is appealing to younger students because of the vivid colors and all the strange actions that take place in the book.

Language Arts/Spelling

Younger students could come up with a list of other "C" words that are not mentioned inthe book.
