### Cranky - The Book Curmudgeon says

5 Cranky Stars!

Synopsis:

He stole me.

He broke me.

I'm being auctioned for Fifty thousand dollars.

Now, I don't belong to anyone but strangely enough I wanted to belong to him.

It's his eyes ... I lost myself in them

Authors Note and WARNING: Dark Boundaries is a work of fiction intended for adult readers above 18. It contains dark and sensitive subject matter that may make readers uncomfortable.  
Contains explicit language and descriptions of sexual situations.

Review:

This book touches on situations that can and have happened.

Kristine, Riza and Kelly just graduated from college and decide to take a road trip before they start their real lives. Best friends since they were little and more like sisters in all the ways that count.

First stop Vegas... and that's as far as they got. Kidnapped, stolen and reduced to less than nothing while being thus into the world of sex slavery.

This book sunk it's claws in me and completely shredded me. The emotions that were ripped from my soul by the author left me in a puddle of goo.

If you're looking for an emotionally charged book packed with sexy as sin hero's than this is the book for you.

Man, this book was not what I'd expected at all. Dark, scandalous, erotic, and full of twists, turns, and surprises that will definitely keep you glued to your kindles and constantly guessing.

A well written read, although, not for the faint of the heart since it can get pretty gritty and hard to take in at times.

Nonetheless, a highly recommended read!

\*\*\*\*\* 5 Bloody Amazing Stars \*\*\*\*\*

WOW!!! I'm just gobsmacked!! I was so in the mood for something dark & twisted story.... This book got it all & so much more!!

This is my second book I've read of Michelle's... First was 'Footprints in the Sands'... Amazing book by the way! LOL

But this has to be one of my favourite of Michelle's so far...

The prologue just got me by the hair! Holy shit!! I wanted something dark & twisted.. Well my wish was granted in spades!!!!

Have to say this... this book isn't for the faint hearted as it's Raw, Dark & Twisted... not a love story.. so if you don't like it then don't read on!

This story is based on two main characters - Kristine & Garrett.

Garrett & Justin's sister has been missing for three years & are willing to do anything to get her back... I mean ANYTHING!!!

Kristine & her two friends... amazing friends I have to say! They each have done a bucket list of things they want to do, so they took a year off together. Each take turns to do one thing on their bucket list and do it together!

One wants to go to this club that needed to be veto's before entering... Mmmm wont say anything more on that, as I don't to spoilers! But you wont be disappointed... as I just loved it!!!!

Honestly this story just gripped me from the first page & absolutely enjoyed reading this...

Thanks Michelle for giving me just what I needed... Dark & Twisted story!!

Talk about a twisted mess of chaos and forbidden love. This was a total change of pace from what I've come to know about Michelle Horst, and she brought out the darkness in a big way! Definitely not a story for the faint of heart, but if you want to take a ride on the dark train, step on up!

Kristine and her two friends, Kelly and Riza thought a night out at a kink club would be fun and adventurous, little did they know, they'd end up victims of a kidnapping and sex ring. So the journey begins, one of survival, trust, and forbidden love.

Garrett and his brother Justin have been "hanging" with these monsters for some time now, trying to find their sister who has disappeared, and learn to play the part of the tormentors. Garrett is in charge of "breaking" Kristine for the auction, which turns out completely different than any of them would of thought. Even under the horrific circumstances, they have an instant connection, and even though it breaks him apart to do the things he does to her, all Garrett sees at the moment is a way to get his sister back.

Kristine is torn between hating Garrett for what he's apart of, but when she learns the truth, her heart and mind have second thoughts. How can you fall in love with a so-called monster? How do you go on living when all you know is shattered? These are the thoughts that run rampant in her mind, and the events that lead up to and afterwards will mold her into the person she is today.

*Received an ARC for an honest review*

**Michelle Horst has truly explored the darkest of the darkest in her latest book Dark Boundaries.**

I was blown away. From the very romantic Wake Me Up and Chloe, Michelle Horst has went beyond her usual with Dark Boundaries.

Living up to its title, the book is indeed bound. It's full of cruelty and ruthlessness. Though, it was very effective. I felt that Michelle did her best to push her limits when it comes to writing.

The connection between Garrett and Kristine was undeniable. They have met in a very unfortunate circumstance and they Garrett had done really bad things in protecting everyone he loved but somehow, their love story had found light.

A pretty long story that is full of explicit scenes, ready yourself to be pulled into a dark world and then be pulled back to light with the redemption of Garrett and Kristine's love story.

## **Expresso-Girls Just Wanna Have Books ; A Mafia Romance says**

Wow! Dark Boundaries is an excellent start to this series! Garrett and Justin's life will change in ways they've never thought possible!

Garrett and Justin go rogue in order to rescue their baby sister. The things they were forced to do to maintain their cover devastate both Justin and Garrett. However, the two continue the charade as they cannot return home without their little sister.

During a particular nasty assignment the brothers meet their soul mates. The guys have their work cut out for them trying to protect their women without blowing their cover needed to find their sister, Andrea.

This story has an incredible amount of drama(awesome sauce)! Some of the drama is very dark and readers should consider any triggers before proceeding. This is a fantastic dark read and there is a HEA.

5 stars for Dark Boundaries!

### **What's What First 50%**

Garrett; his brother, Justin; and some *bad guys* kidnap three friends from a club. Garrett and Justin are tasked with "breaking" the girls and turning them into sex slaves to be auctioned within the month. Garret chooses Kristine as the one he will break, and the story is told in alternating POVs between the two.

Early on, we learn Garrett and Justin are only there because they are searching for an in to get to their sister, who was kidnapped and is going to be sold at the same auction they are preparing Kristine and her friend for.

How far will Garrett and Justin go to get their sister back? Will they become the monsters they are fighting - rapist, torturers, murderers, etc?

Sound okay, huh? Uhm, not so much ~

### **Laughable Plot Holes In First 50%**

- The sister was kidnapped **TWO YEARS** ago and is just being sold? Whomever her kidnapper was kept her a **VIRGIN** for **TWO YEARS?** Come the fuck on!
- The sex slave traders just let these two lackeys bid on not one, but three girls? Come the fuck on!
- Our male MC is distraught over the idea of rape but is hunkydorie okay with killing her if she threatens his plan? Come the fuck on!

- Bad guy grows a conscious and just lets the girl he's supposed to break go free? Guess three love stories here might be a bit much, huh?
- The FMC just automatically believes the MMC's story.

### **Last Half**

I will hand it to the author that the direction she carries the second half of the story was unexpected. It's not often I'm surprised and that surprised me. Kudos!

Now, if it only made fucking sense! Again with the plot holes that could swallow up North America whole.

#### **\*\*\*spoilers\*\*\* DONT READ IF YOU DONT WANT SPOILERS**

- The female MC just happens to move to the exact *right place* across country for this story to continue in the free world. She moves to a small Florida town his mom just happens to live.
- This kinda stockholmy love from a mere 10 days and which still exists over a year after escape?
- Over a year after she's free from 10 days of him semi-pretending to break her, and she has immediate thoughts like this...

He's so damn bossy. I don't remember him being like this, but then again maybe I was too scared those ten days to notice.

I still want to belong to him. Then at least I'll be somebody.

- Your kidnapper (who patato / potato is your former kidnapper, rapist, and torturer )freed you by paying 50k for you. He shows back up a year later wanting you not to tell his mommy what he had to do to get his sister back. He also wants you to be a-okay with him. When you're not, he says be mine for 3 months or pay me the money back. What to do .. what to do? Oh, of course, the answer is to go off with him.

And, on that note, I'm done. I can't finish the last 40% of this dumnutassary!

### **Bottom Line**

I gave this author two tries. Her plots don't line up. Her characters either don't develop or develop into something akin to a neon yellow unicorn with a little green alien at the helm.

Peace be with you~

### **The Magic of Books Blog says**

This book is kind of twisted in some ways. I'm not sure if I would call it a love story and it definitely is a weird and usual love that develops between the two main characters Kristine and Garrett. Kristine and her two friends are kidnapped in a night club and they are being "Broken in" before going up for auction. Garrett and his brother Justin have joined these thugs and monster to find their sister, Andrea. She is seventeen and was captured too. Kristine is a fighter and is a really strong character to begin with but being auctioned off is destroying the fight in her. Garrett wants to protect her but he has to do things to her that he doesn't want to do but in order to find his sister, he has to be one of them.

Even though it is an usual story and one I didn't think I would like, I really enjoyed it. I really loved the characters and even though Garrett had to do some unspeakable things to Kristine, I couldn't help but sympathize with him. I was a bit like their friend Kelly, I couldn't understand how Kristine or Riza could love them after what they did but the more I read, the more I understood how they thought. Really loved it and can't wait to read more work from Michelle Horst.

#### **3 days 5 hours and 27minutes**

That's how long it took me to read every single book and spin off related to this series by Michelle Horst. Now it's Friday afternoon and I have only taken cat naps and small snack breaks my assistant forced on me as I kept waving her away and mumbling some crap like "It's for work I just need to finish this one part and I will be right there!" I'm not usually a liar. I guess technically this could be classified as "for work" if I need to justify it to myself, or my assistant Amanda who is tapping her foot with her hand held out as I type this, I could honestly say it was for research. I know it wasn't. I know I need a shower. I know if I don't hand Amanda my tablet she might quit and let's face it this company would go belly up if she wasn't here to remind me to run it. All these things I know, yet when I finish this I fully intend on hitting the BUY NOW button on the INK series. Then I will hand it over....maybe. Am I an addict? Baby I'm a full blown Michelle Horst junky. Warning, reading this book very well may do the same to you.

#### **Kidnapper that cares**

If a kidnapper could be sweet, this guy managed it. Yes, it had some dark moments but, for the most part, the H was a good guy just trying to do the right thing. There were some parts that didn't make sense to me--things that happened too easily and too quickly--but it was a quick read with some hot scenes and a couple of HEAs so... four stars and I have high hopes for Cruel Boundaries. :)

### **WOW 5 Dark Stars**

I am so glad I read this book, it was one of the best Dark Books i have read so far. It is the first book i read by Michelle Horst and i am her Fan !!

The story was amazing, the pace was well-built. Neither too slow nor too jumbling, just perfect to keep me hooked right from the first page!

I had already heard some great things about this book so i planned to read this and thanks to Michelle Horst she gifted me a copy to read an enjoy !

Three girls, off to have a vacation after their graduation and are abducted by a group of men from a night club. They are tortured, broke in and are up for Auction. One of those men Garrett is not like those other men. He is there just to get his sister back who was also abducted at the age of seventeen. He doesn't care how far he'll need to go to get his sister back. He can do anything to find his sister.

But then he feels a connection with that innocent, helpless yet fighter girl Kristine. She becomes 'Kris' for him with the passage of time. But that's not what fate decided..

Yeah it is a twisted story, not your typical love story. You need to read it and trust me you be sucked in the world of Garrett and Kristine.

All the other characters were also very well defined and close to life. I could feel all that going on around me. I loved this book.

I loved the character of Garrett and Kristine and the bond they had.

No doubt, this amazing, talented author Michelle Horst had taken DARK to a whole new peak! Raising the standards, nailing it !

Recommended to anyone who likes dark, raw, rough and gritty read.

### **Erica says**

Dark Boundaries lives up to it's name, it's truly a dark, twisted tale.

It's vicious, cruel and I found myself questioning some of the heroine's choices. I loved her for her choices but also wondered how the hell she could do it.

I also understood Garrett's reasoning in the choices he made but as much as I understood I still found myself wanting to hate him for something, just because of what he was involved in I felt the need to find something, anything to hate him for.

No spoilers. Dark Boundaries is just that, dark. It also has a developing romance and shows different ways three young women deal with the same tragedy.

This was my first book by the author but I look forward to more.

### **Dusti Hanrahan says**

4 stars??? Ehhh...more like 3.75... **Sorry not sorry**

So, I absolutely LOVE dark books.... kidnapping, Stockholm's, dark, dirty, punishing painful sex.....BRING.IT.ON.

While this book had a ton of promise it fell short for me. I imagine it is probably hard to write this type book and make it unique and fresh.. The premise was great, I absolutely loved the fact that it was a bit different. What pissed me the f' off is that I feel like all of the pivotal, kick ass parts were just grazed over. The parts that should have been detailed, painful, full of emotional feels just happened and then.....over.

It felt rushed for the most part, It definitely could have been longer to push more emphasis on what I felt were the key moments.

I do like the way Michelle Horst brain works and I will read more of her work for sure.
