Here at Audible, we know just how much of an impact a voice can have on a story - taking simple words and filling them with elation, wonderment, tragedy, or pure satisfaction. We rely on our narrators every day to bring our favorite stories and characters to life - to introduce us to new authors and genres, or even to a new (perhaps longer) commute. And though our narrators are the best story tellers in the business, it's usually someone else's that they're telling.

This holiday season, as our gift to you, we asked 19 beloved performers to share their own personal holiday memories. With each story - some that will make you laugh, some that deal with loss, many that are filled with love and revelation - we, the listeners, get to know the person behind the voice with which we've grown so familiar.

We had a lot of fun putting this together, and we wholeheartedly thank our narrators for so generously sharing their voices and helping to brighten our holiday season.

From all of us here at Audible - happy holidays and happy listening!

From Reader Review The Most Wonderful Tales of the Year: Holiday Memories Written and Performed by Our Favorite Narrators for online ebook

Diane says

I really enjoyed this collection of real Christmas stories by Audible readers. As much as I enjoyed the 2017 Christmas release, this one (2016) is my favorite. The stories range from Christmas in Puerto Rico to a Christmas without presents, which turns out to be probably the best Christmas ever. I would really like for Audible to do this next year. It was very enjoyable.

Sandra says

I absolutely adored this Christmas gift from Audible. I've only been a member for about seven months, so I didn't know about the whole Christmas gift tradition and so far I haven't heard many of the favourite narrators that were featured in this, but now I'm even more excited to listen to even more books, because all their voices were so pleasant and friendly to my ears.

What hit me when I listened to this was that yes, all these people who read the books I listen to are actual people. I've never thought about it before, but doing this is their job, and they do it wonderfully, and they are real people with their own stories to tell, which is what made me love it even more. They told about their own lives, their traditions, moments that had changed their lives... I loved it. It was really such a nice listen, and I'm now even more excited to explore more books, books I would maybe not be interested in normally, because I want to listen to all these voices again.

I don't know, how or why, but this made me feel closer to them and I loved hearing their stories, it was so nice to get to know more about them.

Wonderful Christmas gift, I truly enjoyed it.

Kristy Miller says

Popular narrators on Audible tell stories of their Christmases and holiday traditions. More like a narrator sampler with a holiday theme and less like a book or story, but still enjoyable. I always find it interesting to hear about other people's traditions and what gets them in the holiday mood.

Shaun says

For the most part this piece was really boring. The price was certainly right though. I can't argue with free! The stories were super boring for the most part. But there were a few good ones towards the end. And one line offered by a narrator towards the end, for me, increased this from a two star to a three star book. Use this

book if you're behind on your goodreads challenge and trying to catch up towards the end of the year.

Tom Brennan says

Audible's Holiday Gift to its subscribers this year. They invited 19 narrators to share their holiday stories and traditions and the results are quite good/entertaining.

MissSusie says

I enjoyed this freebie from Audible. it wasn't a book written by an author by our favorite narrators telling their own personal Christmas stories. it was a neat insight into some favorite narrators.

Chrissie says

This was a Xmas gift from Audible. For that I am thankful.

It was OK. It can be used as a way of testing different narrators.

I see it more as a gift to the narrators, a means of self-advertising.

A good narrator is not necessarily a good author.

In addition, I am usually not enthralled by short stories. These stories are VERY short, only a few minutes long. The stories are related to things that have happened to the narrators either at Thanksgiving or Christmas.

Annie says

This was last year's Audible gift that I never got around to listening to. It's delightful.

Andrea Strickland says

I listen to a lot of audio books. It helps keep me calm and distracted while I'm sitting in traffic every day. So, this collection of Christmas stories by Audible Narrators was quite a treat! Each story was unique and special in its own way. It brought back memories of my own childhood Christmases and made me look forward to holiday celebrations in the future.

Ceillie Simkiss says

This was a sweet collection of holiday stories. I enjoyed listening to it.

Lubinka Dimitrova says

Some of my favorite narrators, plenty of beautiful, heartwarming and a few heart-wrenching stories, some narrators that I didn't know, but the taste I got from this collection will most certainly make me try to find other books they've narrated - a pretty nice overall experience.

Frank says

A wonderful grouping of narrator holiday memories. Always a pleasure to hear other people's traditions and stories from childhood.

Kate says

A fun holiday listen! I love hearing about other people's holiday traditions and this doesn't disappoint. Even had me tearing up a few times. It's only an hour and half or so listen and I highly recommend it.

TheGeekyBlogger says

Listened for fun (Audible Free)

Overall Rating: 4.50

Narration Rating: 5.00

Quick Thoughts: It was great learning a bit more about the narrators behind the voices. Each were wonderfully told and very heartwarming. Totally a must for fans of audible narrators.

#25NovellasofChristmas

Mischenko says

This is a compilation of Christmas stories and holiday traditions from different audible narrators including Johnathan Davis, Kate reading, Michael Kramer, and many more. All are short with some funny, some sad. At first it was very boring, but as they go on, it's interesting to hear the different traditions and see how different they all are. I'm giving it 3 stars...
