## Connie Davé says

I thought the first book in this series was great but Hunted (the second book) is even better! Matt Edgars is a highway patrolman who stops to help Katie when she falls asleep in the snow covered roads waiting on a stop signal. As soon as he sees her is is instantly attracted to her and wants to know more about her. Matt is a by the book kind of guy and Katie has some big secrets from her past. Matt is so good with Katie and helping her to learn to trust him, and of course he is a really good guy. But Katie, wow, she pulls at your emotions!!! Her past is horrific but she is such a strong person, you hurt for her but also you cheer for her! This book brought tears to my eyes many times, but it also has humor and great suspense!!! Love love love all the siblings, brother in law and of course you get to meet the US Marshall Frank Castello, who you will fall in love with. I can't say enough good things about this book, great characters, suspenseful story, romantic, sexy, emotional! You will not regret reading this book.

I love a book that grabs your attention right from the beginning. That's what Suzanne Ferrall does with this story. I felt myself feeling for the Characters, like I was going through everything that they were. Some unexpected twists and turns that have you biting your nails and hoping nothing bad happens.

Katie had a very traumatic childhood. The torture and horror that she was put through, only to come out strong. In her journey she meets Matt. Who becomes her protector, her rock, her love. They beat the bad guys and come out on top.

I would recommend this book to anyone.

### A strong man a stronger woman

Katie and Matt. A love story and an adventure. She survived a living hell....and then year after year she still remained hidden from the evil she knew watched for her.

Matt pulled over to inspect a car on the side if the road. Inside, a sleeping woman with the car still running. He asks for ID then asks her to get out of the car for a "drunk" test.

She is furious but he can't take his eyes off the woman and it has nothing to do with law enforcement business.

Neither could imagine what was coming their way.

Ms. Ferrell continues the Edgars Family story with a spell binding, you can't put it down, suspense filled romance! Matt Edgars and his brothers come together to help nurse Katie Myers. A woman whose past is littered with pain and tragedy, but a fighter and survivor through it all.

This spell binder finds Katie in the cross hairs of the angel of retribution of a defunct militia like cult. The leader, on death row, is Katie's step father. He wants revenge from the woman that put him there.

The threads of this thriller wrap around you and pull you in to the world of terrorism, US Marshals, betrayal, and vengeance. It is definitely a book hangover type of book, because once you start, you don't want to put it down. It's well worth five stars, and if they'd let me, I'd give it more!

Katie's life has been hell. When her father died, her mother remarried Jacob Strict, a man heading a dangerous militia movement. Katie was beaten and taught things no child should know. However she does what no one else is brave enough to do. After Strict bombed a federal building killing fifty people, Katie escapes taking evidence to turn over to the authorities. With her help, Strict is sentenced to death and promises in front of everyone in the courtroom that he'll find her.

Fast forward ten years. Katie's moved from one place to another under the witness protection program. Strict's execution is coming up and he's found her again.

Matt is a rule follower and a state trooper. He discovers Katie in her vehicle at a stop light where she's fallen asleep after a night shift at the hospital she works. He thinks about her after the meeting and hopes to see her again. A week later he gets his chance. Someone has shot out her tire but she won't tell him who. When she calls him the next day asking for help, Matt decides he'll do whatever he can to help her. Once he learns who she really is, Matt's determined to assist. With the help of his family, they have to discover who the hitman is plus who with the Marshal's office has crossed her. Time is running out.

Matt is a sweetheart. He's really good with Katie and patient. He knows he's falling for her almost immediately. Katie hasn't loved anyone since her dad. But the tenderness and kindness Matt shows her, has her feeling things for Matt she's never felt before.

This was the second book in this series and I thoroughly enjoyed it. It was great catching up with the other family members and I'm looking forward to the next book.

Hunted is a fast paced romance filled with intrigue. Matt is a lawman who always goes by the book until he meets Katie and throws the rule book out the window. Katie has lived a tortured life and has learned not to trust others. Can Matt help her see some people are worthy of her trust? Can Katie finally find the love that has been missing from her life? Can they both heal together? Be ready to read this book in one sitting because you won't want to put it down! Its worth whatever sleep you might lose to finish this book! Ms. Ferrell has now been added to my list of must read authors and I bet she will be to yours too!

Loved this one!!

A good plot! A lovely romance and a tangled mess of hot abide-by-the-rule guy and a haunted-abused girl.

Didn't think I'd like it as much, but the book unraveled like an awesome action movie that you didn't know it would be that good.

Well, it was more than good and I can't wait to check more of Ms. Ferrell's work :)

### **Bette Stanek says**

Start with a trial that puts a man on death row, add in a witness that is in the protective custody of the US Marshalls, and what do you get? A story that is packed with action, twists and turns, and one that you'll quickly read to find out what's going to happen next.

Katie Myers has been in the witness protection program. She hasn't been able to stay anywhere longer than a few months at a time. Now she's not even sure that she can be protected. Enter Matt Edgars, a totally "by the rules" person who sees everything in black and white. Will he realize in time that he's got to see some gray area?

This fast paced book by Suzanne Ferrell is another winner in the Edgars' family series. The characters from the first book make a return appearance and it seems time has gone on. It's nice to see where they are now. This is a quick read where characters are easy to connect to.

### **Shelley says**

Great book, read it almost all the way through in one sitting. Did have some editing errors which is why I didn't give it 5 stars. Also, I pretty much had things figured out midbook, and I'm not the type of reader who works hard to figure things out ahead of time, it was that easy. That did reduce some of the mystery and suspense of it all...Despite these issues, I thoroughly enjoyed this book and didn't want to put it down....but it was 6 am and I needed to go to sleep for the night. This series is best read in order, though it's not necessary. I highly recommend this author and the Edgar brothers series to those who like romantic suspense.

### **Peach says**

Hunted is a suspense/romance book where the main character, Katie was in witness protection for the past ten years after providing incriminating evidence against the paramilitary cult which she was a part of. As a result of her testimony, the cult leader was given the death penalty. With the leader's impending execution, Katie received several death threats and desperation forced her to turn to Matt, a by-the-book patrolman for

help. Katie and Matt were attempting to stay alive while trying to figure out who was trying to kill Katie. Katie was a brave and determined heroine who was lonely and scarred from the multiple abuses inflicted by the cult leader. Matt was very protective of Katie. The book could have been better if the writer paid more attention to editing. I am not talking only about typos. For example, Katie was hiding in a hospital while waiting for the Marshall but there was a sentence that incorrectly stated that she was hiding in a hotel room.

### **Mona says**

Loved it. Second Book in the Edgar's Family Series..

When Matt Edger stops to see why this women Katie Myers is wrong? Things don't add up. He sees her again, and he really has a bad feeling. The only thing is Katie refuses to tell him anything.

Katie doesn't know who to trust. She's been running for along time. The people after her won't stop until they kill her. She's a little pissed at Officer Matt Edgers, but he seemed pretty nice. One night she has no choice to ask for his help.

While Matt feels compelled to help Katie, he does need some answers. She tells him just the bare minimal. They find themselves running into a trap.

What will Katie do? She is confused at how Matt is treating her. One minute she thinks he likes her, and want her. But then pulls away.

See where things go. Katie is full aware things aren't easy. She knows these people after her are evil. How far can she run?

Fast paced. Action.

### **Judy says**

Great series. I really enjoyed these characters. Hope there will be more.

### **Cindy ~ SnS Reviews says**

I love this series.. Katie Myers lived a childhood of hell growing up in a cult compound. After the leader blew up a building killing many she got the courage to steal evidence to convict him and then testified against him. His final threat to her was he would see her dead before he was put to death.

Years later Katie has been found. She doesnt know who to trust so she takes the highway patrolman, Matt Edgars, by gunpoint to help her. Matt is a by the book policeman and Katie has him breaking all the rules for her safety.

Katie was an interesting heroine - she was equal parts tough, very knowledge able in guns and explosives and yet suffered from flashbacks of the beatings and torcher she went through during her life on the

compound. Katie faces many fears to bring down the men determined to kill her.

### **Merle says**

Good entry to the Edgars Family Series. Matt Edgars finds a damsel in distress and saves her. Oh, you want more detail? Ok, then. The lady has escaped a cult, has been betrayed by everyone she's ever met and is on the run from cult members who have sworn revenge. This is a good story. Matt meets the lady, is captivated by her, and she runs away - until she needs a quick escape. Somehow, she finds the strength to let him into her world - just a little.

They could be overmatched since she doesn't know how to find her pursuers. She hasn't reckoned on the Edgars Family's assistance, however.

This one is more believable than the Kidnapped story, but it's not as good, in my opinion. Still, a good entry to the series.

### **Melvina says**

This is the first book I have read by this author and I loved it. It was a recommendation by one of the book clubs and it was so up my street. I honestly think Matt is my new book hero, he is everything you could possibly want, heroic, honest, steadfast, loyal, gentle with a slight fragility, and determined, and did I happen to mention he's also HOT! Katie is a lonely soul who's been beaten and broken yet is still on her feet fighting. Their story is one of courage, love and above all trust. Katie's never had anyone to trust and love so breaking down her walls isn't easy or straight forward, but Matt believes she is worth it. He seems to know just what she needs and when she needs it. I loved how he tamped down his anger so as not to scare her, but wasn't afraid to stand his ground when he had to for her own good. Katie's life just about broke my heart and wasn't always an easy read, and when she cried that first time I'm not ashamed to say I cried right along with her. What was apparent throughout the story was that Matt didn't fall in love with her because she'd had a tragic life, it was because he valued the woman she had become because of it. It was truly a fabulous find and these characters and their story will stay with me.
