Hunter Cheree Alsop

Hunter, the sixth book of the Silver Series, is about Dray, a werewolf who feels trapped and alone in his small farming town. He struggles to find his place and fit in despite his differences, then Dray's world is shaken when a cute girl shows up the same time as a vengeful wild werewolf pack. With Jaze's help, Dray fights to protect his town, but when Jaze is in trouble, Dray puts everything on the line to help the werewolves who changed his life.

Hunter is about finding the courage to step into the unknown. It is a story of risking life for love, and discovering the truth about one's self in the heart of adversity.

Review:

"Hunter" by Cheree Alsop was a well written read. "Hunter" was the sixth book of the Silver Series of Dray Dawson who was one some hero in this read. This hero who thought he was all along meets up with Gem Hawthorne...then a wild pack of werewolf's show up too and the story really takes the reader on a action packed read, with many twist and turns. How will Dray be able to protect his family, friends and the town of 'Thistle?' Well, this is where I say you must pick up this excellent read "Hunter" to see all the what, where, how and why of it all and meet up with those wonderful wolf protectors ...Jaze, Jet, Kaynan and Vance and that is all I have to say about that other than you must pick up this read.

The characters were all very well developed that kept me reading and I didn't put it down until the last word. What I enjoyed about "Hunter" was every time I thought I knew which way this story was going this author would come in a completely change it directing it totally in another direction. However, in the end you will be given a story that shows just how this hero will "find the courage to step into the unknown" that will change his life forever.

Would I recommend "Hunter?"... I will only say YES!

Hunter by Cheree Alsop is book 6 in the Silver series. This one follows Dray and Gem (from book five). Set in a small farming town, Dray is the only werewolf in the area. He was adopted, and so doesn't really know much about his wolf side. When a cute, bouncy girl moves in with her family, he's immediately drawn to her smell. She, of course, knows exactly what he is.

But the local livestock is being viciously slaughtered by wolves, and Dray's parents are concerned. When a wolf is shot and Dray realizes its Gem, his whole life changes in a moment. The pack of wolves is a rogue werewolf pack making trouble, and soon Gem calls in Jaze and the crew for help. Dray finds out that werewolves aren't the mythological something he thought they were, and finds himself in the process.

I think the part about this story I loved was the gentle reassurance Dray gives Gem after her ordeal in Lobotraz (see book five). It's also the loving, open relationship Dray has with his parents. They didn't know about wolves when they adopted him, but they've spent the last ten years supporting him anyway. And they do it again and again throughout the book.

Dray is also incredibly brave. At one point, he rushes into a burning building to save the patients. He doesn't

back down from defending his territory against the rogue pack even though he's not an alpha. He defends Gem from jerks at school. And, in the end, he is instrumental in a fight helping Jaze, but I won't say more and give away the plot.

Not my favorite but still enjoyed it all the same.. It was a good addition to the series. I was happy to see Gem find some happiness.

Very good series

I'm on my way the 7th (last?) book and am enjoying the story. I'm still jarred out of the story by spelling and grammar. Ms Alsop, please find a better proofreader/editor!

I have really enjoyed this series. I am always amazed at how Ms. Alsop can craft a story that has me hooked within the first few pages. I was so thrilled to read Hunter. As we get to see how things go for Gem from Azure. I am truly empowered when I read about Gem and her outlook on life is so different than I would have pictured. Now Dray is isolated until he meets the new girl in school, Gem! Dray is always looking out for others and that is something you don't come across very often. Dray is so likeable and just a good old farm boy! One of my favorite scenes is the bailing hay with the tractor. It was sweet and fun! I will tell you all that I was impressed with the ending and how Dray put himself out to protect those he loves. Which changes his life forever! Ms. Alsop does an amazing job with character development and keeping up with

past characters! I was surprised many times when I thought things were going to turn out one way and then I got thrown for a loop and things went a totally different direction. I simply could not get enough of this book! I do look forward to seeing Mouse get his story. I know I will not be disappointed. This story is not to be missed it is jam packed with first love, adventure, some thrilling fight scenes and much much more.

I truly hope you enjoy this read as much as I did!

Just FYI~ This does contain some violence.

Hunter (The Silver #6) by Cheree Alsop

3 Stars

Hunter, so far has been my least favourite book of the series. Humans adopted Dray as a child and until his first phase at seven years old neither him nor his parents had any idea werewolves existed, and believe he is the ONLY one! All that changes when Gem and her family moves into town.

I think what bugged me about this story was the fact that we went from no werewolves, except Dray, to Gem and her family, and then a rogue pack, and it was just all too much and unlikely that so many werewolves would suddenly find this little town where never before had they bothered with it. There doesn't seem to be anything that drew them there and it niggled me all the way through just wondering why, why here, why now? Maybe I think too hard or want to know too much, but for it to make sense I need to know these little details.

The story was action packed, with fight scenes, plenty of heroism on Dray's part and the touch of romance I have come to expect for each of the wolves featured. Jaze and his pack are brought in by Gem and as with the other characters Dray proves himself worthy of being accepted under their protection.

Cheree's writing has remained consistent throughout the series, her style comfortable, I would like to see a better edit but then I'm picky about these things, it is unlikely that the typo's will distract the average reader from the story.

Dray, a big ole country boy is dealing with being the only werewolf in town. He was adopted by humans and they have always kept his secret but strange things are happening in town. Gem, from the last book, has found her parents and has moved into town. Dray knows there's something about her but doesn't know what. When they go to confront the pack that moved into the area about destroying prized cattle there is trouble. I was so happy to see the new characters and to meet up with some of the old characters. I can't give the author enough praise for this series. She has me hook and drawn in and I don't know that I want to be let out again. LOL Many props and I'm reading the next book with much sadness that I'm going to lose me werewolf friends.

Kyra Dune says

Dray is a werewolf who has grown up among humans, unsure if there are really others out there like him. He struggles to live a normal life while keeping his secret. But when a pack of wild werewolves shows up to terrorize his hometown, Dray's entire world is flipped upside down.

Despite a courageous effort on Dray's part, one lone werewolf isn't fit to go up against a pack. The new girl in town, who is none other than Gem, calls in Jaze and his pack for reinforcements. What ensues is a heart pounding, thrill a minute ride that will leave you sitting on the edge of your seat waiting to see what happens next.

Hunter is a story of courage, love, and loyalty that will warm your heart and leave you breathless.
