The event that shook one small town to its core was never solved. The domino effect of one person's crime going unpunished is beyond measure.

He's no saint.

Dover 'Collector' Ragnes rides with only five brothers at his back. Nomads with no place to call home, they never stay in one place too long. Together, they are the Devil's Due MC, and their only purpose is to serve justice their way for unsolved crimes everywhere they go.

She's not afraid to call herself a sinner.

Emerson Flint still remembers the loss of her elementary school best friend. She is all grown up, but the memories still haunt her of the missing girl. Surrounding herself with men at the tattoo shop, she never questions her safety. Her life is her art. Her canvas is the skin of others.

However, danger is at her door.

Will Dover overcome the history he shares with Emerson in time? Will Emerson lead him to the retribution he has always sought?

Love, hate, anger, and passion collide as the time comes, and the devil demands his due.

Each book in the Devil's Due MC is a stand alone, full length novel. Contains adult content, language, and violence not suitable for readers under the age of 18. This is not an exact depiction of life in a motorcycle club, but rather a work of fiction meant to entertain. (Paperback page count is 324 in a 5x8 sizing)

I really liked the premise of this series, nomads doling out justice to criminals after trying to do it the straight and narrow way and finding out that doesn't always work out. The story line in this book was also interesting and I was sucked into wanting to see where it went in the prologue. However I just didn't relate or have any feelings for the people in it. I mean I did for what they have been through and finding their justice but that's about it.

Also being from Alabama we have skanks, no doubt, but the shit that went on in the first couple of chapters....um no, the vast majority of skanks here have much more self-respect than to throw themselves at these assholes in that manner. Fiction or not, no matter where it took place, it was just a touch much and quite frankly nasty. Oh and being from Alabama something else that drove me nuts is....it's Leeds not Leed, I'm sure unless you live here or know the area this makes no difference but I live in Alabama and know the area so this drove me nuts.

Honestly I just really disliked most of these people in general, the guys were nasty assholes with few redeeming qualities and Emerson was just a twat....and pulled off the skank "act" a little too well for me. I liked Earl and that was about it. They were all interesting but their personalities grated on my nerves way too much. Especially Trapper, damn I wanted to slap the shit out of him....but then I read that bonus scene at the end and it seems to have confirmed a few things that I suspected about him from all that mouthing off he did the whole damn book.

The story, plot, the twists and turns, and the premise of this book/series is great....the characters not so much. So I don't know if I will continue with this series or not, I love the premise of this nomad series but I just did not like the characters in it. I felt for their issues they survived and what they were doing I just didn't like them enough to really care, at least not while reading this story. I don't know there was just something that was missing in these characters for me and that took away from the story.

I need a bit more attention to detail and IMO, this one didn't deliver. A great premise, but sketchy details.

I've read several of Chelsea Camaron's collaborations with other authors, but this was my first of one of her books written solely by her. I loved the premise of the story. It's so common to see an MC series that abides by their own rules (come what may), but the Devil's Due MC was different. They still stay true to living by their own rules, but their purpose is to right wrongs and ensure justice gets served.

These nomads travel the country and help get closure for so many lost and broken souls. The bikers were quite intriguing and I'm most certainly interested in learning more about them. I look forward to reading book 2 in this series and learning X's story. That little teaser we get in this book was the perfect hook to have me wanting to know more. :)

The reason for not giving it 5 stars is my lack of connection with Sonnie and Collector. I understood their connection, based on their shared pain and past...but I had trouble connecting with their shared emotions. I wasn't until the near end that I began to feel like I was in their shoes, but by then the story was ending.

Aside from that, the story was VERY well written, intriguing and fast paced. I am most definitely a fan and can't wait to read "Below the Line".

I found it too cheesy. Bikers spouting shit about fate and whatever just an hour after seeing the heroine. Too depressing at some parts as the Hero's sister was raped and murdered when she was very young. She happens to be the best friend of the heroine. The H/h both have trauma from that depressing event. The writing was convoluted and it got boring on some parts coz of the H's biker crew. This book is not for me.

New series about six men whose souls were all gutted by some tragedy in their past where justice wasn't served by the law. These men all came together to form the Devil's Due – their own personal MC club that doles out their own private justice giving the devil his due.

First up is Dover 'Collector' Ragnes. He was quite a bit older than his sister Raleigh, but she was still the sun and moon to him. When she goes missing on his watch when he was a teenager and turns up days later dead after being sliced up and raped he vows to spend the rest of his life finding the man responsible.

Emerson Flint was Raleigh's best friend. The two were thick as thieves growing up and had plans to always be friends no matter what. When Raleigh died not only did she lose her best friend but she also lost her freedom as her mother was so scared that something would also happen to her she suffocated her. As soon as she turned 18 she left town and never looked back.

Now its many years later and fate has put Dover and Emerson in the same town. Him and his men following up on a lead that the man that might have killed his sister is in town and Emerson the tattoo artist working in a shop where the team end up looking for new tattoos.

Dover and Emerson both still walk with the ghost of Raleigh on their souls. Emerson does it in a healthy way as opposed to Dover's self imposed guilt he wallows in.

This was a nice change from the typical MC troupes out there. These guys are not a typical MC – they have no homes – just roam from town to town meting out justice. Its obvious the other 5 men all have their own demons they are living with and I look forward to finding out what those are in future books. No cliffy here either – justice for Raleigh was served at the end of this book in a most satisfying way.

In The Red  
Chelsea Camaron  
5 stars

In The Red Nomad Bikers is the first book in the new Devil's Due MC series given to us by Chelsea Camaron. The read is fantastic but there are some potential triggers due to the violence involved. There is one descriptive event but again if you can hang on it will be well worth it. The men of Devil's Due are out for renegade justice.

Unsolved crimes – that is what the men of Devils Due MC follow up with. Each member has his own reasons and his own unsolved case he is chasing. Dover Collector Ragnes was the collector of souls; dark souls. Dover is chasing the man who killed his 9 year old sister. He rides with his five brothers with no roots. They don't stay in one place long as they head toward the next target; the next lead. Raleigh Ragnes was riding her bike to her best friends house when she never made it. Dover is responsible or at least he feels that way .... He was supposed to be watching her. Instead he was more concerned with the girl laying on his bed.

Emerson Flint will never forget the day she lost part of her heart. Raleigh was like an angel. The night she disappeared was the end of Emerson. The case was never solved. Raleigh was found in a horrible place and what was done to her was worse. She wont ever forget. She had to leave the place she only felt pain ... she had to get as far away as she could.

Heading toward his biggest lead Dover never imagines he would be looking at the girl he remembers with such emotion. The past and the future have just collided with memories of agony and danger.

This is a really fantastic start to what poses to be a amazing series. The secondary characters are just as intriguing as Emerson and Dover. Each man has a story to tell. Trapper, Rowdy, Deacon, Judge, and X will all have their revenge. Below the Line is next up – Owen X Gallow. Get ready because the snippet we get will leave you on the edge of your seat.

Thank you for the ARC! I love this series and I cannot wait for all the guys' stories.

Review to post to Ramblings From Beneath The Sheets.

**4 Devil's Due Stars**

I went into this book thinking yeah this is going to be good. I wasn't disappointed. MC books are one of my favourite genres to read and this book was fast paced, Dark and gritty. Yet it has some humor thrown in as well. I couldn't put it down and read it in two sittings. (Life tends to get in the way!)

**“I’ve had a small taste of having something real. That was last night with you. This pull between us is too strong.” – Dover**

I liked the idea behind the story, especially since it involved a small yet seemingly tight-knit motorcycle club that was formed with one idea in mind. I loved Dover and Emerson together, they really worked! I'll be keeping an eye out for more in this series.

## **Laurie says**

The synopsis to *In the Red* definitely caught my eye. The biker romance genre is a favorite of mine and I especially love it when someone interjects a new little twist. For this book, a group of nomad bikers who have all suffered some sort of tragedy in their past band together and travel around the country to solve cold cases.

A tragedy of epic proportions connects Dover and Emerson. Dover's sister was Emerson's best friend and was kidnapped and brutally used and murdered by a serial killer when she was nine years old. For Emerson, it meant her parents made a prisoner out of her with their need to be overprotective of her. This caused her to leave home as soon as she could. For Dover, it meant a lifetime of guilt since he felt responsible for his baby sister's death, eventually causing him to leave too. Emerson ended up a tattoo artist, Dover ended up a member of the Devil's Due, meting out vigilante justice whenever he can.

I had a hard time with Emerson. I can't imagine the horror of being nine years old and having your friend brutally murdered. I also can't imagine still wallowing in your misery years later. It was like no healing ever took place for her, even after she escaped her mother's smothering ways.

I did understand Dover. He let what happened to his sister shape his life but in what could be considered constructive ways. First, he became a cop and then when he realized how often justice falls down on the job, he became a vigilante. Although still broken because of his crushing guilt, he was at least trying to make the best of a bad situation.

I am firmly in the camp of being just fine with insta-love books as long as it's done right. I'm not sure Emerson and Dover fell in that category. The chemistry was there but these two had so much baggage and so much antagonism towards each other at first, it just didn't seem believable to me.

A lot of coincidences needed to be looked over in this book. A big one is that Dover, Emerson, and the killer all end up in the same town. Another is that Emerson just happens to end up being mentored by a man who Dover's MC considers a good friend, if not a father figure. I found myself having to suspend belief too many times which was a disappointment.

I found the members of Dover's MC interesting even if they all had a habit of saying things that sounded stolen from fortune cookies. Don't get me wrong, bikers can definitely get deep, but these guys could have passed for biker monks with seriously foul mouths. I had to make a conscious decision to find this funny

instead of annoying.

I thought In the Red was a decent read with an interesting plot. With more character development and time to really flesh things out, I think this would have moved to the really good read level.

Spice's Rating: 3.5 Decent Read But... Stars

The Devil's Due MC has just won a forever place in my heart!

The members of the MC are rude, crude, loyal and true seeking justice where the system has failed them and others. The guys are all haunted by their pasts and are attempting to eradicate the evils of the world one at a time - trying to make sure the the devil gets his due. Their tales are heartbreaking but they are determined to right wrongs done to themselves and others.

Dover aka Collector gets his world turned upside down with a blast from the past - one feisty, tattooed woman by the name of Emerson, 'Em' aka Sonnie. Both struggling to live while being caught up in the past. Their connection and pull to each other is strong and electric. The past separated them but fate has seen to it that they are brought together again.

It's clear that each MC member has a story to tell and I can't wait to read them all. Trapper, Judge, X, Rowdy and Deacon .. I'm coming for you! Chelsea Camaron has wowed me with this crew and I can't wait for more!

In The Red by Chelsea Camaron is the first book in the Devil's Due MC series.

Dover " Collector " Ragnes is an ex-cop. He and five other nomads are the Devil's Due MC.

They serve justice where the law fails.

And there is Emerson - Sonnie - Flint, a tattoo artist who's life was destroyed at the age of 9. Both have a common past.

My heart broke for these two lost souls. There is violence, twists and turns and scorching hot sex.

I loved the characters, I loved how good they were together and as individuals.

I loved the gruff alpha males and that they are not one of the typical MCs.

I loved the other characters of the Devil's Due MC and can't wait till the next installment, Below The Line. 5 Stars and Thank you Chelsea Camaron!

### Josie's Review 4.5 STARS

What an amazing start this book was for a new series. As soon as I started to read the prologue I was completely hooked. This book deals with dark and harsh situations, ones that left me reeling and left me completely broken. But through the darkness in this book there is also so much beauty and promise in the form of love. When family, friends, neighbors and a town are left with more questions than answers after a heinous and shocking crime, no one would ever be the same. Darkness, emptiness and anger are what is left of a brother and best friend, trying to move on in life, never forgetting that tragic day.

After the loss of his little sister Dover (Collector) has never been the same. He lives with so much guilt from that tragic day. The day that he was left to watch her and he failed. It broke my heart when he would have flashbacks of their past as children. There is pain so deep and profound within Dover that it bleeds off the pages. He tried to live his life but never forgot his sister, and never truly was at peace. Never knowing what really happened has left a permanent hole in his heart and his life. Years later he is part of a Nomad chapter of the Devil's Due MC. Collector and the 5 members of the MC travel the country with one goal, to serve justice on all the unanswered crimes. Collector has never returned to his home town. That is until a case brings him back.

After losing her best friend Emerson's world crumbled. She not only had to mourn the loss of her best friend, but her parents also lived in fear of the unknown and her life and home changed drastically. It is understandable the level of fear her parents lived during that time, but Emerson was literally a prisoner. Once she is able to leave home Emerson, leaves and never looks back. She adopts a new name (Sonnie) and has a talent as a tattoo artist. She befriends a man who takes her in and becomes her adoptive father. I loved the little things Emerson constantly does in honor and remembrance of her best friend. Emerson has a tough exterior but you can tell the past dictates her life. When her past comes walking through the tattoo shop her first instinct is to run.

Dover was so perfect for me. He is damaged and he knows it but seeing Emerson again sparks something in him, something that has been missing for years. I love that he is a total alpha when it comes to Emerson. He knows they share the same pain and loss, he knows she is hiding herself from the world, but he is not letting her hide from him. Emerson was an amazing female lead, feisty and strong and did she did not back down. Emerson sees the guilt in Dover's eyes and she wants to help ease his pain but she never expected to fall for him in the process. Will Dover and Emerson, finally bring Raleigh's killer to justice? Can they find peace and love in each other?

The Devil's Due member's each have their own story to tell and are vowing justice for something that happened to them. I really loved the sense of loyalty and brotherhood they shared. Their friendship and bond help them seek justice for those who never were able to get closure. Dover and Emerson each have to fight through their pain and find a way to seek justice for Raleigh while making peace with her loss. This book is extremely touching, some of the topics detailed were hard for me at times but those parts delivered an incredible profoundness and sense of realness in this book. The characters and plot were written so well, and this story touched my heart in more ways than one. I really enjoyed the first installment in this series and look forward to seeing each member get the justice they deserve.

Audiobook review. I enjoyed the plot and the concept of vigilante MC nomads. The author did a good job of coming up with something that felt meaningful and was interesting. There were some difficult parts to get through due to the graphic nature of the content and emotions associated with such. It goes without saying that Dover and Em have done what they could to cope with the event that changed their lives. There were moments I did feel they had a connection, though at other times, it felt circumstantial. The way he treated the women he slept with and the switch that was flipped for Em... I don't fully buy it. In the bedroom, they were very hot. No doubt there. In my opinion, there were some areas of opportunity that led to the rating I assigned. The biggest of which is the dialogue. There were a few cringe-worthy moments but none stick out more than one of our good guys yelling at a dying man that there were going to "see (them) in hell where they will (screw) them in the @\$\$ for all eternity." While I can understand the emotion of the first part, as this was not a good person dying, I just felt the latter was crass and completely out of place. Next, I would say the pacing was good when it concerns the main plot but too fast when it comes to the relationship. It didn't feel like the two were in sync. All in all, I found it a decent read. Narration was done well. Safety: We get scenes of the H having sex with OW before he gets with the h. They are graphic/detailed. He is not very nice to them at all. There is rape and abuse of children. Please heed this trigger warning. It is not easy to read.

I actually read about Gretchen first in *Serving My Soldier* and then on to the *Crossover* book, so I was excited to finally read Dover's book.

I loved the story. The scene near the end on the balcony had me sniffing. I know this is an MC book, and I don't mind them raw or gritty, but I really didn't care for the way these guys were with women. I'm assuming it was to show how different he was with Em, but I just didn't like that part of the story.

It was pretty fast paced and I was content with the way the story flowed. Loved Sonnie/Em. Can't wait to read more.

A man driven for justice and a woman just trying to live. Can they help each other get over events of the past? or is there too much history and disappoints between the two?
