Landslide N.J. Cole

Senator Maxwell Joseph has it all—money, power and good looks—the trifecta when it comes to attracting the ladies. He even has women willing to be tied up, spanked and fucked all while calling him Daddy, fulfilling his secret fantasy. On the night of his thirty-fifth birthday he finds a goddess waiting for him in his hotel room. She is beautiful, sexy and very willing, yet the fruit she offers is very forbidden. Not only at nineteen is she barely legal, but she is the daughter of his best friend and political advisor.

Mackenzie Wade has had a crush on the senator for years, and when an overheard phone call affords her the opportunity she needs to make her fantasies a reality, she jumps on the chance offering herself as a birthday gift.

Throwing caution to the wind, Max gives in to temptation and gives them both what they have been yearning for—a night filled with ropes, floggers and toe-curling sex. Although satiated, one night of passion wasn't enough for either of them, and they began a clandestine affair.

The solid ground on which he'd built his career now began to shift as his wants and dreams for the future began to change. In what he can only describe as a landslide, Max hold on tight to the only thing that he can, Kenzie, and goes on the ride of his life, knowing all along that in the end, he may have to make a choice between the woman of his fantasies and his career.

La-Lionne says

Hey, Daddy, here is 1 star for you

DNF at 70%, because the story was going nowhere.

This senator guy is a total prick. I should have known it wouldn't end well for me. I mean, already on the first page, Loc fifty-freaking-five, he says:

It was the most expensive restaurant in San Francisco, and therefore the location of my party.

Ugh!

Things happened so fast I barely got what was going on. One minute he is shaking hands and thanking people for coming, and the next, this 18 year old thing shows up and says "Senator, I too have a gift for you upstairs." The weirdest part about it was the fact that her father stood right there and never even wondered what she meant by that. She knew him all her life (him and her father are best friends), but never had any kind of relationship with him. But forgot about that for a second.

There is no buildup, no seduction. Few pages into the book he finds her upstairs, lying on a bed in his room.

"Don't you wanna tie me up and and fuck me, Senator Joseph?"

Loc 168!!!

Is she a slut or what? Where are these skanky 18 year old heroines keeps coming from?

Senator is shocked for a moment, but couple of minutes later, he snaps out of it and gets down to business.

"Get on your knees, little girl" and all that. Oh God.

- WARNING SPOILER

The sample alone had 51 daddies in it. I should have checked that before I purchased the book.

I would smack the hell out of a guy if he would ask me to call him Daddy, but I get the appeal. Who am I to judge if that's what you're into. I have to admit, rushed or not, at the beginning, daddy-thing sounded hot. But it got old pretty quick. Daddies just kept coming and coming (:-D). She called him "daddy" 144 times in the book.

They start this bizarre affair, sneaking behind everyone's backs, doing the weirdest things ever.

He keeps it a secret because it wouldn't be good for his career, if anyone would find out, and also, his best friend, her father, would castrate him, for spanking the sh!t out of his little girl on a regular basis. Isn't there some kind of unwritten rule between guys, that they don't f@ck each other's daughters??? If not, they should have one.

Sex scenes were nothing new. It's the same thing over and over again. You read one, you read them all. And there is A LOT of them. The guy is like a Duracell bunny, always hard. In some scenes not even a minute

goes by and he is:

My cock became rock hard again instantly.

Her swollen lips got me hard again instantly.

"I'm sorry it's over, but on the bright side," I said, kissing her ear and then whispering into it,

"I'm ready again."

And she, Mackenzie, just kept coming and coming and coming. There were couple of gross scene, which I'm not even going to quote. Something about her lying in a pool of her own... whatever.

Don't even get me started on her fantasizing about Santa f@cking her at eleven years old. Then him, telling her to "come here, little girl and suck Santa's c@ck."

"Mmmmm, yes, Daddy," I moaned, wiggling my hips.

"That's enough of that, little girl. You have worn Santa's cock out."

:-D :-D.

What kind of christmas stories were her father reading to her?

In the parts told from, Maxwell's, uhm.. Santa's, I mean Daddy's, no, Mr. Senator's... crap, Joseph's pov, author tried to portray Mackenzie as young, inexperienced and innocent girl. We are talking about the same girl who asked Mr. Senator to f@ck her only couple of pages into the story, right? Innocent she is not. I thought it was ridiculous. She is young, but she is also the biggest slut I have ever read about.

Five months into the relationship, he finally asks her to go out on a date with him. Wow.

But here is the disturbing part. There were couple of times where our Senator thought she looked too mature, too grownup, I don't remember his exact words. He thought the clothes she was wearing made her look older, and he wanted her to look younger. From the descriptions of her I got the picture that she looked like an 18 year old, but this sicko wanted her to look even younger. That is just sick.

I need to mention Mackenzie's father, Maxwell's best friend. He is a complete douchebag. I don't think it was author's intentions to make him look that way though. I thought his character wasn't very well thought out. He does have a good relationship with his daughter, but he is very inappropriate and completely clueless. He talks to Max about women, making all kinds of inappropriate jokes and comments, while his 18 year old daughter is standing RIGHT THERE next to them.

When Maxwell asks him if he can take Mackenzie to Paris with him, he says "Yes, sure". Remember, they are keeping their relationship secret from everyone, so the father doesn't know. Max says "She'll be bored here anyway, let her come to Paris with me." Mackenzie even books one hotel room on the phone, while her father stands and listens, saying "Well, I couldn't get two rooms on such a short notice." He never picks up on anything.

Here is why it was a problem for me. Mackenzie's father is the guy who provides women for Mr. Joseph. Because, you know, he is the Senator, he can't go looking for little girls to spank and f@ck, himself. So he does the dirty job for him. He finds women who are into the same things Max is, dresses them up like school girls and brings them to his door. I would call him Maxwell's personal pimp.

Knowing that his best friend gets off on tying up and spanking little girls, he lets his 18 year old daughter go to Paris with him, without even giving a second thought. WTF?

But enough of this negativity, here is some good news: first time BUFU doesn't hurt. Ask Mackenzie. She thought it was f@cking fantastic :-D. Joseph was so amazing, that once, he just looked at her told her to come and she did. I'm not kidding. No touching at all. Couple of seconds later she was standing in the pool of something. How about that :-D?

There is a lot sex going on, but not much else. When they finally get out of the bedroom, all you get is this:

As much as I wanted to pull over and fuck her senseless, I wanted to get to know her more.
Our conversation was light, talking about our likes and dislikes.

Well, I'm glad Mr. Senator got to know her, but what about me, the reader?

This morning we'd toured one of the most prestigious art museums in the world and had intellectual conversations about the pieces,"

Ugh!

I'm not sure why, but this Max guy reminded me of Anthony Weiner. He just didn't know when to stop.
Yuck :-S.

I did not like it at all.

Up back to Amazon it goes.

Jennifer says

Wow! Sometimes free works out really good!

So hot it was almost smokin' my kindle. Great story with low drama and angst, steamy love making, and a nasty silicone Barbie to destroy. California, London and Paris as back drops for their story, and it progressed with no insta-love, but there was lots of it in the end.

My main issue with it is the D word. I just can't. I have to change it to Sir when I read it. My other issue is I need an epilogue about 5-6 years in the future when he's Governor of California with a babe or two thinking about the White House....

Christy says

4 steamy stars!

Landside was a short and very hot read- that had just enough story and heart to keep my attention. I was highly entertained throughout. Let me start this review off with a bit of a warning.... If age gaps make you uncomfortable (approx 19 and 36) or you can't handle the Daddy/little girl thing, you probably won't like this book. If that sort of kink doesn't bother you or you like it, carry on!

Mackenzie Wade is a nineteen year old college student. Her father's best friend and client is Senator Maxwell Joseph. Kenzie has had a crush on him for the longest time and when she over hears some of the things he's into, she decides to make her move. Max knows he shouldn't give in for so many reasons... but Kenzie is just too irresistible to him.

There were a million reasons I shouldn't do this. She was barely legal. She was the daughter of my top advisor.... and best friend.

“Don’t you wanna tie me up and fuck me, Senator Joseph?”

“On your knees little girl.”

Max gives into what he wants. Kenzie. And Kenzie loves everything Max gives her. It's the most intense and erotic night of her life.

One night. His birthday. That was supposed to be it. But the more they run into each other, the more they can't keep their hands off each other. Each time they're together, things between them become more risky. If they were to get caught, it wouldn't be good. Kenzies dad would be livid, not to mention the fact it would have on the Senator's political career.

As much as this story revolves around sex, and it does- Max likes to tie her up, spank her, and sleep with her as much as possible, there is a little more to it than that. The good Senator and little Mackenzie end up developing real feelings for one another. But that could be detrimental to the both of them... when forced to separate or come clean with their affair... what choice will the Senator make? Would he risk his career for this girl? Or is that more important than love?

“If you had to give up politics to be with her, would you?”

If you are a fan of forbidden type romances, some light bdsm, and you're in the mood for a naughty story with lots of sexy times, I would say pick this up. If the content makes you uncomfortable, it might not be the book for you. It was a highly entertaining hot and fun read for me x

Zoe Lewis says

Nope... Can't finish! Way to match Daddy for this little girl.

This is the first book that has creeped me out... Lol!!! I can handle a daddy here or there. But the whole hey little girl, do this to daddy 60 times in the first 18% is to much!!! Eeeeww!!

Too Many Books Too Little Time says

3.5--KINKY--maybe even a little CREEPY--Stars!!

So...this was my first NJ Cole book. I found the premise intriguing. Maxwell is in his mid-thirties, he's a senator, has a thing for younger chicks...like barely legal younger chicks. He likes to tie them up, spank them and f*ck them!

The story starts on Max's birthday--after a dinner party he heads up to his hotel room for his latest "present". In his bed he finds Mackenzie--his BF and campaign advisors 19 year old daughter. He proceeds to tie her up, spank her and f*ck her. Call me crazy, but it was kind of hot.

But here's where things take a turn for the creepy--he likes his "girls" to call him Daddy and he calls his "girls" Little Girl or Baby. I suppose I could have done with out that. *shrugs* The sex was HOT and plentiful....if not maybe a bit juvenile. I guess the story as a whole had a juvenile, cheesy feel to it. I liked the concept...but I think it could have perhaps been better executed.

Needless to say, Kenzie and Max continue to meet up with each other when they get the chance--holidays, etc. Overtime, they develop real feelings for each other, outside of the games they play in the bedroom. However, both are of the mindsight that they could never be more because of Max's position as Senator and their age differences. Eventually their secret gets out....and Max and Kenzie have to decide how far they are willing to go for their relationship.

This was a quick read, it was a standalone with a HEA. I'd recommend it if you're looking for something steamy but also with some story. I definitely think it's not everyone's cuppa' but if you like taboo, dirty and kinky...with a splash of creepy then definitely check this one out! *wink, wink*

Sasha elle a.k.a. Mrs. Liam Callahan! says

It's actually 2.5 stars I have no idea why I read this but any who.the story is about a 35 year old senator Joseph maxwell (sexy right HELL TO THE NO) and his lover/baby girl Mackenzie a 19 year old girl who is not only his lover but also his political advisers daughter and her father is also maxwells best friend and that's fine until.....

Mackenzie, are you ready to give yourself to your Daddy?

WHAT THE FUCK WAS THAT.....I was surprised how in hell did he even get laid

And woow he doesn't stop there he ends up saying shitt like this I wasn't overly tall, but my six foot two frame gave off a vibe that was powerful can I just say **you motherfucker what is wrong with you**

it's not the relationship that bothered me it's just the idiocy that just gets to me and it's not all maxwells fault OH NOOOOOO our heroine is on a roll to let's say she used a CUCUMBER as a I'm gonna gag ..as a sex toy uck THAT'S JUST NASTY

Overall it's fine if you wanna read this book I genuinely like senator/older men stuff and the author really tried with this book but some of the things we're just like

Janey says

3.5 Babygirl stars

This was a fairly quick, relentless fuckfest, that slowly morphed into a sweet love story.

I enjoyed it, although did struggle initially with the dialogue between Senator Maxwell Joseph and his object of affection, Mackenzie Wade. Don't get me wrong, I am a proud pervert who loves, loves a large dose of porn with my story. But the uncomfortable seat wriggle I had continued long after Max's kink was first disclosed.

Seat wriggling aside, it was a fun, smutty story that kept my attention.

Kathie (katmom) says

Although I've put it on a "on-hold" shelf... I will not be finishing this one, two chapters were beyond enough for me.

I won it in a contest and have since deleted it from my kindle.

This is hard-core erotica. I like my erotica to be heavy on the "romantica" side...and this one just isn't. I've never been fond of my Alpha male being called "Daddy" by his love interest. Others may find that on the plus side. I also want my Alpha male to have respect for women, and this one really doesn't.

Not every book is written for every reader...and this one is NOT for me.

Jacqueline says

When I saw this was a daddy kink story featuring a charismatic and powerful Senator secretly enjoying kinky shenanigans with his best friend and campaign manager's 19 year old daughter I couldn't one click fast enough.

I cannot lie, much of the smut in this was scorpio, although I had to train myself to ignore the way both characters referred to themselves in third person while getting it on: "spin on this for daddy, there's a good girl" (I'm paraphrasing, but you get my drift). So far, so good, just made my feel a bit...idk, grubby?

Ahem. Nothing wrong with that.

Then they spent more time together and he turned into a bit of a sop. No more the powerful senator, just another former manwhore bitten by the love bug. I've read that plenty of times already in other books so I was a bit restless waiting for something to happen. Then just when I thought it couldn't dip any lower in my estimation, it finished with a horribly-uncomfortable-to-read-about PDA. *shudders* I loathe PDA s. Nasty.

So OK if you're looking for a romantic daddy kink story, but I wouldn't vote for him.

Beverly says

Landslide is about a 35 year old politician and the 19 year old daughter of his best friend and political advisor. Senator Joseph likes to tie up and fuck young girls, while they call him Daddy. Yeah, you read that right "Daddy". Hey not my thing, but who I am to judge. Mackenzie has had a crush on the Senator for years and after learning about his preferences decides to give herself to him for his birthday.

I read this book because I thought well, this is a little creepy, but I love forbidden loves/romances. I actually really liked the book, although it did freak me out a little her referring to her own father as Carter and calling him Daddy...um okay. However, they began developing a connection and I was total into it.

Landslide is quick read, stand alone with a HEA, and pretty hot sex.

Vikki ~ *squee* lite ~ says

3.5 stars

This was interesting. Seriously - the first 40% or so of this one was book porn. I wouldn't even classify it as erotic - it was well written porn. I mean, can you get more cliche than the politician who likes to play "Daddy" to legal but young girls? I found this portion of the book to be both hot (yeah gotta be honest) and mildly creepy at the same time. The whole "daddy" schoolgirl thing is not really my thing, but I have to give credit where credit is due and mention that most other books with this much sex would have bored me to tears, and this one didn't.

The last half of the book was where the Kenzie and Max actually start to form a real relationship - which I enjoyed, and found, despite myself, shockingly believable. I thought it was interesting how they segregate their "Daddy" and "little girl" persona's from the "real" them and how they worked to integrate their "real" selves into a real relationship.

That said, don't go looking for something deep here - that's not what this one is about - but it could hit the spot of your looking for something naughty with a HEA.

Sadie Bissett says

Maxwell Joseph, sexy god of Alpha-dom. He was looking for Mackenzie his whole life, he just didn't know it. I loved how she offered herself to him for his birthday. Even though she truly believed that it would go nowhere, she didn't get all emotional about it when he never called. She knew going in who and what he was, and she wasn't thinking she was going to be the one to change him. It was actually refreshing to see a nineteen year old girl realize what much older women are too foolish to see: don't think that YOUR love for him is going to change his ways. She has deeper feelings for him, but she doesn't expect that he will ever reciprocate them.

But, luckily for her, something does change for him. He doesn't see anyone after her. He can't bring himself to have his usual "bang and bounce" moments, because he can't get Kenzie out of his head. Their "meetings" are few and far between, but boy when they do "meet", you better bring some ice and a fan. Hot isn't even the word for it. He is a dominant alpha-male, and she is the perfect woman for him: submissive, with a dose of sass. Loved it!!!

The father accepting of their relationship? While unlikely in real life, it is fiction, so I was happy that the added angst wasn't in it. There was enough outside influences that were trying to come between Max and his Babygirl. I really appreciate not having the dilemma drag out for a long time. Plus, getting his POV, let us know that his heart belonged to Kenzie, even when he was unsure of what to do.

One other thing, I enjoyed watching as his concerns over his career as a Senator and his possible future as Governor change, as he became more concerned how his actions would affect Kenzie. Wonderful.

This was an extremely hot and sexy read, but also a very emotional love story.

NO CHEATING
HEA

?? Carmen the Bootyshaker Temptress ?? says

Rated 4.5

I was a bit worried how this book was going to grab me. I wasn't too sure about the age difference and the whole Daddy calling but I really like how the relationship progressed throughout the story. It was more than just sex. We learned who the characters were besides what they liked in bed. It was also a great ending too. I really enjoyed this book.

Arabella ~?AB?~ says

4.5 Yes, Daddy Stars! OK, I'm obviously a perv because I really enjoyed this one.

Maxwell is a Senator and is into the kinky stuff, and when I say kinky I mean he likes the Daddy/Little Girl fantasy. The book starts off with his best friend and political advisors daughter **Mackenzie** offering herself up as a birthday present. Now, Mackenzie is taboo because she is only 19, he's 35 and not only would this jeopardize his relationship with his friend, but it wouldn't be good for his career either. The first few chapters are pretty hardcore, and at first I was a bit like

but then I got over it.

—

It turned out to be a really nice love story, it was a shortish read and a nice filler book with lots of dirty sex. I'd recommend if you can stomach the weird fantasies.

"Would you like to come, little girl?"

Yes, Daddy....Please

Eve Recinella (Between The Bookends) says

This book was SO bad, it was AWESOME! It is nothing but an over the top cheesy daddy kink smutfest of epic proportions. Sex scene after sex scene with a little plot in between. You know those totally cheesy horror movies that are just SO BAD, but you can't stop looking, and by the end you realized that loved every frigging second, ya, that would be this book!

How can you not love a book where the heroine losses her virginity to a cucumber!? That's right folks, she was deflowered by a vegetable!!

"I'd thrust the cucumber into my aching pussy"

The Santa kink.. pure awesomeness!!

"I dressed as Santa, had just performed oral sex on a woman who looked like an angel...all in front of a Christmas tree."

"Babygirl, Santa wants to see you ride my cock!"

How can you not love a book with such greatness!!

I will admit I was concerned for the heroine and thought Max should have taken her to a DR to see about all the liquids that kept flowing out of her body!!

Anyways..as cheesy a smutfest as this was, I still enjoyed the heck out of it. I even squeezed a tear or two out over the ending!
