## **love and gunplay K'wan**

After news of the attempted murder of his estranged fiancé, Gucci, Animal has two things on his mind, love and gunplay.

With the help of his mistress, the deadly Red Sonja, Animal manages to elude his captors in Old San Juan, Puerto Rico and washes up on the shores of Miami, FL. He's one step closer to home, but it may as well have been a world away. Animal is still a wanted fugitive and getting to New York undetected proves to be trickier than he thought. This all changes when he meets an old friend of Red Sonja's, a New Orleans refugee named Diamonds.

Diamonds promises to provide Animal with safe passage from Miami to New York and all the firepower he will need to settle his blood debt, but he also brings something far more valuable to the table, the name of the man who shot Gucci.

Diamonds holds the key to unlocking the mystery of what really happened that tragic night in Harlem, but the information comes at a price.

Animal finds himself swept up into a deadly game of cat and mouse set in the glamorous Miami underworld of sex, drugs and violence, where cash is king and death is always lurking. His only ally is a mysterious stripper named Reign, who harbors a secret of her own that threatens to change everything.

#### **Love & Gunplay: A Novelette**

I love all of the books that are connected to the Animal Series. The books have many characters with history and a lot of things going on. The books capture your interest and a person keeps reading. Excellent series! I can't wait for the release of Animal IV: Last Rites. I'm simply captivated by K'wan's books for many different reasons.

With some of the series overlapping, which Ibreally dif because I'm nosy, I'm missingnparts of the story. So this calls for more reading. All and all Animal is still a beast. Business as usual. All the other things going on has my eyebrow (right one) quirked. Looking forward to all that coming full circle.

Animal has escaped from the hold of Big Dawg in Puerto Rico, and finds himself in Miami. Trying to get back to the wounded Gucci, he goes thru Hell to get there. Although shorter than the others, this is an excellent read!

### **Carol Hornsby-mccoy says**

Anything with animal in is worth reading. Sad he's up against his brother, but "all is fair in Love and war". However this book started out with same reading as one of K'wan books where the two sisters helped them but the younger one gets killed. Yes it was Purple City!!! What is this????
