Love in the Country Rebecca Shaw

When Seb joins Barleybridge, the last thing on his mind is romance. Keen to settle into his first real job and make a good impression he embraces the working life of a country vet. He has almost forgotten his high maintenance ex-girlfriend Carly and concentrates on settling down to a job he really loves. He is welcomed by the other members of the Practice and is soon contending with a menagerie of very diverse clients. There is a man starting a budgie breeding enterprise who believes that Seb is a top specialist in birds and a woman from Turnham Malpas intent on the legendary Mungo Prices expertise to save her wounded dog. The alpacas with TB and the need to destroy a pony injured in an accident in front of his heartbroken young owner are all part of Sebs steep learning curve. Seb is to find that his expertise with animals and their owners leads to a friendship with the upperclass Jilly and rather more than that with Maggie whose family is heartbroken when he diagnoses their alpacas with TB. But when a surprise meeting in the Practice itself turns his head and touches his heart, he knows that these dalliances are nothing but youthful romps. Rebecca Shaws warmth and compassion combine with her natural humour as she draws the reader into the lives of the members and clients of Barleybridge.

Steph says

Enjoyed all of the 6 books in this series but this one was a bit lacking compared to the other 5. All of the books are an easy read, just what I needed before bed.

Neelima says

Great Series....I might embark on her other series....a bit sad this was the last in series...I wish the series continued....it was really a jolly good bed time read!!

Susan Pearson says

As with the rest of Rebecca Shaw's novels this was a nice accessible read. It was easy going and the perfect before bed reading that required little intellectual input but passed by in a pleasant way.

Char says

I found in places the language, especially the dialogue, could be wooden and unnatural, but I didn't want it to end.

Tasneem says

A lovely, gentle read that is utterly relaxing and takes one away in to the life of quiet business in the English countryside. I want to live in a village like that imagined by Shaw. Her world does have the pain and suffering of modernity, and yet, it is tempered by kindness, honesty and straightforwardness. Beautifully done. A perfect antidote for the bustle of city living.

Angela Kitchen says

nice book, but a bit "jumpy" in the narrative a bit as if there were some story lines almost missing.

Catsalive says

All a bit simple and trite. Except for a few moments, one wonders if it's written for children because the language is so basic.

Charlotte Smith says

Well read my first book of 2017, I love this author and normally read the other series she has done but this book us how I picture country life

Jenny L says

The last one in the series? Written in 2009, so that is my assumption. Another pleasant, easy read, if a little disappointing in general story lines. Kate returns this time as a qualified vet and another new vet, Sebastian also begins working at the Barleybridge Practice. Rather too 'perfect' a story and outcome, but Rebecca Shaw has left it open enough that there could be a seventh in the series. Overall a nice set of six stories about the vets and their goings on.

Emily Stone says

another fantastic book by rebecca shaw, and the thing that I like most about it was that it brought in characters from her other series of books (turnham malpass) as customers at the vets, hence bringing her books together. definitely recommend her books

Barbs says

Good holiday relaxed reading, always enjoy Rebecca Shaw's novels.

Caroline says

Just couldn't get into it. Might try another time.
