Love on the Rocks

Kay Harris

Love on the Rocks Kay Harris

Hot rock stars, conniving groupies, two crazy moms, and a park ranger - this romantic comedy has it all!

Dani Roberts is on break after a long winter in Yellowstone. She has a couple weeks to kill before heading to her summer job, so she hits the road for a little adventure.

But in a lonely cafe in the middle of the nowhere Nevada she runs into two rock stars. They are kind and funny... and ridiculously hot. They offer her a ride on their tour bus that ends up changing Dani's adventure, and her life, for good.

Hank Tolk he is definitely her type, and definitely a terrible player. Sean Rush is a bigger-than-life, scary-looking, tattooed monster of a man.

Falling for a rock star is not in Dani's itinerary. But when disaster strikes and one of them proves what kind of man he really is, she can't resist. Dani has to decide – do a park ranger and a rock star really stand a chance at love?

Books In Brogan says

While this is your standard "Rockstar" romance it still manages to set itself apart from others the writing and character development is very well done. I really enjoyed reading this one the opening kind of set the whole tone of the book I certainly want to read the next one in the series.

"I was stranded in a diner in the dessert at 3am. Things had not been going my way. And then two smoking hot rock stars walk in and offer me a ride."

Play Me - Kay Harris

Impy says

So flippin' cute

Sometimes I just need a sweet, funny read with a happily ever after. More often than not, even after reading descriptions and reviews, I end up reading something with too much raunch, and foolish characters who fall into bed and "love" too quickly. There's something so much more satisfying to a story with a longer build, where intimacy is earned rather than thrown about. Amongst many other very good reasons (likeable characters, humor, adventure, friendship and romance), that slower build to love was sweetly and wonderfully written in Loves On The Rocks.

This was my first time reading Kay Harris and I am happy to have found this gifted author.

Meredith says

Kay Harris was a author I have never read before and she did not disappoint. I enjoy all kinds of books as long as they have some kind of romance in them. I fell in love with Sean in this book and the connection him and Dani had was awesome. Wish I got to read a little bit more about their relationship after the tour but I am sure they will be in the next book.

Marjorie Mindel says

"I received a copy of this book from eBook Discovery in exchange for my honest review."

This seems like a familiar theme: famous person in a relationship with a "normal" person, but it branches out from that simple theme.

Dani Roberts has always been the black sheep of her family. After getting her psychology degree, she drifts into a job as a Park Ranger, and loves her work. However, between summer ranger jobs in the US southwest,

and winter ranger jobs in the northwest, she feels like a boat without a rudder.

Finding herself in a delicate situation after hitchhiking from Las Vegas with a trucker, she finds refuge in a diner and meets up with two famous faces in the hard rock world. They approach her and she finds that they're nice people up close. They offer her a ride to their next concert destination, also in the direction that she's heading, and suddenly she's on the road with the two stars, their assistant, and their bus driver.

This is a story about people who've each got insecurities, but who find comfort and then love in each other. Add in overprotective parents on both sides, and you have a tense, but sometimes comedic, relationship. Can a "normal" girl find a lasting relationship with a gorgeous man who has groupies falling all over him, and sometimes into his bed? Can a rock star find love with someone who doesn't want his fame or fortune? Well, love sometimes can conquer all obstacles. Along the way, Dani finds not just love with Sean, but big brothers in Henry "Hank" and Mike, Sean's fellow rock star and their assistant.

Allyson Abbott says

A nice twist on a romance where plain Jane meets a rock star. I enjoyed the story and I think my only criticism would be the many hiccups and problems that needed to be overcome by both sides. A little tedious at times, but did not stop me from reading to make sure they sorted it all out.

Anna says

Dnf

Not my cuppa

Naive heroine

Didn't like the author's style

Bungluna says

I didn't know what to expect from this book. A park ranger and a rock star is a very strange combination, but the author made it work. There were a lot of editing errors that distracted me while reading, thus the 3 stars. Story-wise though, the author did a good job telling this story. I liked all the characters and the internal logic of the story made sense. I am going to buy the next one in the series and read it right away.

Clarke says

2.7-3.2 Stars. I wanted to like this story. I've been on a bad book streak and am so over it. I liked the male characters and the support female characters but Dani just didn't do it for me. I liked her back story and her wandering. In fact I had a lot in common with her. What I didn't like was the fact that she was always a victim. I wanted a strong confident female lead (some insecurities are ok after all we have them). After a while how ignorant/naive she was just got on my nerves. It could've been a really cute story.

The beginning need to be set up differently. Another reader made the comment that they were really confused in the beginning. I now see what they were talking about. The author has it set up that most of the

story is Dani remembering the past/ telling a story. So when the author dumps us in the present with no set up the first couple paragraphs leaves you briefly confused. It gets better but it's a bit strange.

Margarita says

Nice read

It started off really well. I liked the characters, but I thought Danni was a bit too insecure. She could have a bit stronger considering the fact she was a park ranger. I also thought the end was a bit rushed.

Christine says

It was an okay read. Things happen, but the couple does not really get together until almost the end of the book. I did not mind how the heroine started a relationship with another rock star. It added to the story.

The ending and how everything cleared up with the heroine's abusive parents felt a little rushed and unrealistic. If the ending was different, I would have probably given it 4 stars. I did enjoy the book, just I felt like everything came together too quickly and sweetly for me to believe it.

I liked the secondary characters.

Danita says

Love on the Rocks is a sweet romance between a famous rock star, Sean, and park ranger, Dani (aka "Baby"). If you've read "Lost on the Road to Love" by the same already, this is the story about Henry's parents.

Sean and Dani meet by chance at a diner - Dani needs a ride, and the rock stars enjoy her company enough to invite her onto their tour bus. From there, we follow the group as they tour from city to city performing concerts. What starts as just a friendship gradually builds up to something more. There are definitely some ups and downs along the way to keep things interesting: Dani has trouble adjusting to the fame and the constant competition. She also has a habit of running away from her problems, which can complicate things. Sean can be very overprotective, but I like that Dani is able to stand up to him about that.

Overall I enjoyed all the of the main characters in the story, and they felt genuine to me. I especially liked that Dani was such a strong female character. I found the book to be a quick read and hard to put down! The story takes place over the course of a couple months, and time flows seamlessly through the story. It is written in first person from Dani's point of view. I'm excited that this is a series so that I can continue to follow the characters and learn more about them!

Ira says

"Love on the Rocks" was one of those books that I couldn't (and didn't want to) put down once I'd started reading it.

I really enjoyed the story about Dani "Baby"Roberts, Sean Rush, Hank "Henry" Tolk and all the others that are part of their time on the road. When park ranger Dani sat in a diner in the middle of the night right in the middle of nowhere, she couldn't imagine how much her life would change when the door opened and two rock stars entered. Finding herself on the road with them was just the beginning of a wonderful road trip leading to much more.

Of course it is not easy to be catapulted in such a world but somehow against all odds - and despite evrythign groupies and roadies and exes and....well - everybody around them, actually - throws at them, Dani very soon finds her place in the world of those stars. Fortunately she was well prepared to guard herself against someone getting into her pants but somehow it seems that while she was protecting herself against the one guy the other one was slowly finding his way into her heart - and maybe also in her pants, who knows...

I liked the complex, very lovable and sympathetic characters and the wonderful story that was never dull but kept me on my toes. Despite the fact that Dani has serious problems with her self esteem due to her personal history that shape her relationship with....the one she is falling for...as well and that make her act insecure and not always sensible, I never felt that it was too much or too ... anything. Her reactions made sense and additionally she was also capable of analyzing and of drawing conclusions and acting accordingly.

It wasn't always easy but always very authentic and I felt with them even though I felt with her when the guys were always fussing over her even though it was also very cute.

An entertaining story, that made me laugh and cry and sigh and dream - and want for more! I loved this story and this definitely wasn't the last time that I've read it!

I received a copy of this book from eBook Discovery in exchange for an honest review.

Ann says

I've read this series and want to warn you. Prepare to be hooked. Could not put these mindless books down!!!!?

Janel says

Love on the Rocks

I absolutely love this book. This is a new author to me and I have to say she is off to an amazing start. I loved Sean and Henry and loved Dani. I would love to read more from this author. I have to say it had some mistakes in it but it didn't take away from the story at all. I couldn't put it down. I will definitely re-read this book. I hope to read more from this author.

Cathy Geha says

"I received a copy of this book from eBook Discovery in exchange for my honest review."

With that behind me...I have to say this was a riveting read. I picked it up in the dark (electricity cut lasting over an hour) and thought I would read a bit before sleeping. In the wee hours of the morning, after finishing the last page, I wished I had the next book in the series to keep on reading – who needs sleep – right?

Dani, on a break between Park Ranger jobs, is in a diner in Nevada when two rock stars come in for a meal. After chatting with her for a bit they offer her a ride to their next destination on tour and since it is where she is going she hops on the bus. Hank, Sean and Mike ride in bus #1 and usually take the scenic route away from the roadies and groupies. Through that first night of chat and card playing a connection occurs that sees Dani with them for most of the rest of their tour. Friendships are made and a romance is begun between two at first seemingly opposite types. However, both with romantic inclinations have insecurities to overcome before they can achieve their happily ever after.

Told in the first person, something hard to pull off well, this story was a delight with surprises and insights that made it a fun and very entertaining read. I liked all of the characters and look forward to reading more about their HEA's in the future.
