Make Me Blaze Avril Ashton

Heartbreak is new to Dominic Scotto. The once love them and leave them heir finally took a chance on love, only to be let down. Hard. But his troubles are just beginning.

Fresh from catching his lover in bed with another man, Dominic Scotto is grabbed off the street and taken hostage. The identity of his kidnapper is a mystery, what the man wants, though, not so much. Shackled and trapped, Dominic's resilience is put to the test as his captor carries out a carefully crafted plan to divest him of his secrets.

With the heir to the Scotto empire naked and bound before him, the man known as Smoke will do whatever he must to get the answers he seeks. Amid a firestorm of anger and distrust, between pain and pleasure, two men reach for each other in the darkness, but it's not over yet. Under the sun's harsh brightness, Smoke remains elusive, a man without a face or name, and Dominic is still a target mired in secrets.

This is a book three of the Bringing the Heat series. It does stand along pretty well since it is a different characters story or should I say the continuation of Dom. I most definitely will be going back to read the first two.

Dom just caught his lover in the arms of another man, the man Wes truly loved. He is kidnapped by Smoke a hired assassin to get information on the money Dom's father has swindled. However, during the torture to extract information both Dom and Smoke discover some highly unusual and shocking information about themselves.

This is yet another provocative, intriguing series by Avril Ashton. I have to warn you it is not for the weak of heart. Her Stories can be gritty and a bit perverse, but boy do I love them. This one has blood play involved so be forewarned.

I love the deep connections these characters find in the most unsuspecting circumstances. The thing I love the most is how the characters are never run of the mill heroes. All are a bit on the shady side or harbour some deep, dark secrets.

If you want something to shock and stir you, if you like stories with unusual kinks, rough BDSM (not just holding hands above their head)Blood- play, intrigue and some pretty hot mansex, I recommend this one!

The way to true loves goes through kidnapping and torture... Really?

Hmmm. This one was tough. I wanted Dominic's story. I was aching for it! But I couldn't wrap my head around the premise. This was BDSM/torture crossed with a bad case of Stockholm Syndrome. I wanted to buy it but it was a tough sell. All the way to the end. Smoke was ... a psychopath. A nice psychopath, perhaps to Dominic (eventually), but a psychopath nonetheless!

Bottom line: I wish Smoke was more endearing.

Serena Yates says

If this isn't one of the most twisted, morally questionable, and yet fascinating books I have ever read, I don't know what is. Stockholm Syndrome, when the kidnappee falls for his abductor, is not what shocked me about this book, since I had almost expected it. What was truly surprising was how the kidnapper fell for his

victim – and I kept wondering what was going on, some sort of "reverse Stockholm Syndrome"? Just for the fun of it, I Googled it, and lo and behold, the "phenomenon" exists, and even has a name: Lima Syndrome! Defined as "A phenomenon in which kidnappers become so concerned for their hostages that they free them without using them as bargaining chips" (by Segen's Medical Dictionary. © 2012 Farlex, Inc.) , that is exactly what happened in this book. Let nobody say reading m/m isn't educational!

Dominic sort of broke my heart at the end of book two, when it became clear he was a lot more in love with Wes than I had thought, yet Wes chose to return to Jayce. And then in this book, Dominic gets kidnapped, tortured and humiliated, only to have to face some very uncomfortable truths about himself as well. He may be rich, but he certainly doesn't have an easy life. All he wants is to find someone who loves him, but he's having an extremely difficult time of it.

Smoke is the abductor here, a mercenary paid to "extract information" from Dominic regarding his father's theft of investment money. He starts out all cruel and efficient, but gradually falls under Dominic's spell. Now, while I am not certain that is realistic, it certainly made for a good story. And after all, if Lima Syndrome exists, it looks as if Smoke isn't the first crook with this problem.

If you like your stories with a touch of violence that turns into pleasure, if you enjoy reading about men who come from different worlds yet end up finding common ground, and if you want to find out what happened to Dominic after the end of book two in this series, then this is the story for you. Just be ready for a few very tense, not-so-nice-and-fluffy scenes in the beginning.

I absolutely loved this book, I didn't want it to end, I hated it when it did, but I will be reading again. I never get let down when I read Avril Ashton books, I'm always gripped

Vivian says

Smoke, the consummate professional is suddenly floundering when his target's responses don't align with the background information he's been given.

Dominic, the poor rich boy is snared. His bad night has gone from bad to worse. On the hook for someone else's actions, Dominic finds himself without the answers wanted. Things turn for the worst. When torture has an unforeseen effect both Dom and Smoke are thrown. Being flexible, Smoke changes the game plan after a very unexpected response.

I wouldn't really categorize this book as BDSM since the elements of bondage and bloodplay were unintentional, almost coincidental to the suspense plot. This is a captor and prisoner story with actions that mimic edgeplay.

Would benefit from better proof editing: few instances of homonym switch, word order, and scene consistency (gets a shirt off with zip ties around wrists) would clean this up and cause less distraction from the plot. As far the story itself goes, I liked the characters and the setup. There was some very naive planning on Dom's at the end that in real life would cause HUGE problems, but one has to be willing to overlook it to enjoy the ending.

Favorite passage:

Pain eventually faded. Physical pain at least. He could breathe through it; he could ride it out. He put his mind to it and waited for the next cut.

When Smoke started using the scapel and actually torturing Dom I didn't know how they could possibly get together without it being unbelievable, but I should of had more faith in Avril Ashton, she surprised me by adding a twist I didn't see coming. In fact I really enjoyed what she did there (which makes me feel wierd about myself) and I wanted more, but sadly AA never pushes the characters too far.

Then Smoke instead of using his and Dom's attraction to have fun and torture Dom some more seems to shift from what could've been an awesome scene to trying to deny his feelings.

The whole thing with Dom's dad was too easiely resolved, it made the whole kidnap Dom to get information about Dad's whereabouts and money seem unnessary.

Then a character makes a decision only to go back on it later with no explanation. Why did the character change his mind?

Don't get me wrong, I enjoyed this book a lot, but the truth is it was too short and that was what resulted in some of my issues with it. There was just so much potential here, and I discovered a new like I never thought I had.

I like the premises of the story. But the writing was a bit choppy, like a lot of things don't make sense.

This is a hard one for me to rate because I really did *not* like the first half of the book but ended up loving the second half. I almost gave up because of some intense torture scenes, but since it was a fairly short book, I kept going, knowing these two characters were going to get a HEA. I'm glad I did, because it was lovely to witness, but bring your strong stomach for the first half because it's not for the meek.

I'm **not going to recommend this one** for the fact that I would not re-read it myself and the bad outweighed the good. The torture was gruesome, yes, and I can normally handle that. But at the hands of the love interest? That was a bit too much for me to handle, even with the HEA payoff.

## Katherine says

Quite dark - darker than books 1 and 2, more in line w/Ms. Ashton's Run this Town series. And I liked it a lot.

This is, perhaps, the finest example of unconscious writing I've ever come across. Obviously, this writer's mind was elsewhere when she wrote certain interactions between her top and her bottom. She wasn't even there on a re-read. She has the top keep the bottom in a pair of handcuffs and while undressing him to take a shower, the top pulls the bottom's T-shirt up and over his head to remove it and toss it on the floor. Over the handcuffs? Wow, tricky stuff, this. Next she has the top order the bottom to walk to a table and choose a knife to be cut with. Having done so he's ordered to walk to a chair and sit in it for some blood play. The top then approaches him with the knife and she writes, "Dominic pulled at his restraints". Without ever being tied to the chair? How did that happen?

Anyway, you get the picture. I could go on but why bother. This is bad writing, plain and simple. BTW, if blood play makes you squeamish don't worry, Ashton forgets all about it after introducing it in that one brief scene.

Dominic Scotto is the heir to the Scotto Empire. He is a complex man who is also hot and sexy. Dominic takes a chance on love only for it to backfire in his face. If his problems were not bad enough he then gets kidnapped by someone seeking answers about his father and their business dealings. I liked Dominic he seemed willing to be honest and not protect anyone.

Smoke is a mystery. I am not sure that anyone outside a couple of people really know him. He is a complex man who is good at his job. He thinks in ways most people would not and wears a mask to cover his identity etc. I loved that shortly after taking Dominic Smoke starts to fall for him. It's almost like he knew from the start that Dominic was innocent but did not want to be fooled, just in case.

The chemistry between Smoke and Dominic is blistering. While the part of Dominic falling for Smoke still strikes me as unrealistic, I liked how it was handled. With Dominic's background and family, it was a possibility. The sex scenes were hot and spicy.

Make Me Blaze is the third book in the Bringing the Heat series by Avril Ashton. While this book is part of a series, it can be read and enjoyed as a standalone novel.

I liked this book a lot more than I thought I would. It seems that Smoke understood a part of Dominic that even he did not want to face.

I found this story to be well written. The main and secondary characters were interesting even if it was unrealistic at times. Overall, this was a great story. I can't wait to read more from this series.

### Better than book 2

This one had a plot, at least. It was pretty hot, except half the orgasms were in their pants. The pants also changed from sweatpants in one sentence to jeans in the next. The guy was also able to remove the other guys t-shirt, throw it on the floor, the later put a clean shirt on him, all while the second guys hands were zip tied together! That part just struck me, sorry. Happy ending for the hit man and the criminal.
