## From Reader Review Maximum Exposure for online ebook

### Geoff. says

A good story with a strong central character. What I appreciated most was that the author allowed the mystery at the heart of the story to have a real-world conclusion. I will happily inhabit Max Revere's world again.

This was a great little introduction into the character Max Revere, which is the new series by Allison Brennan. It is the prequel to Notorious, and I would say it would be a good idea to read Maximum Exposure first! It gives you a great background story on who Max(ine) Revere is, and what her life is all about!

For a short story, it was full and entertaining. I really liked the introduction of Max, so I think that I am absolutely going to LOVE this series! I can't wait to continue on with Notorious! I must admit though, there aren't many books written by Allison Brennan that I've read that I've not liked!

Allison Brennan packed a lot into this novella, but it was easy reading! It was well written with a great subject matter, that I think will resonate with a lot of people! I easily found myself caught up in the investigation, and just waiting to figure out what was going to happen!

Overall, this was a great read and I am really looking forward to continuing this series!

This is an introductory novella for the series "Max Revere". Not a bad read. It's understandable why Allison Brennan has stayed on top of the charts where books are concerned. Well written, with a subject matter that happens all too often these days - bullying with consequences.

A different type of main character being an investigative reporter. It took a bit of adjusting on my part because of this type of book. The story flowed very well and it was easy to get caught up in the "investigation". What I had difficulty with was how the police were portrayed - too complacent with this "missing" person case - just being satisfied with what 3 college students had to say without delving further into their backgrounds, etc. I guess I'm used to "smart, thorough cops" :)

One of the best parts was the use of a cadaver dog and the dog just happened to be a golden retriever!

I started to read the next book "Notorious", but I think I will shelve it - just not "capturing" my attention. I'm not in the right frame of mind to read this type of series yet.

Do I recommend this novella - certainly. A thumbs up and 3 stars.

### **Great Introduction!**

Unfortunately I didn't read this before "Notorious", but still enjoyed it and now I uh understand Max a little better. Can't wait to read "Compulsion"!

### **Loved this book**

Allison Brennan has become one of my favorite authors. I average three books per week and my goal is to read everything she has written. This is the first Max Revere. It was amazing for a new. Character and I will keep reading the rest of her story.

Super prequel to start off new Max Revere series

I ended up reading the first book of the series "Notorious" before I actually read this prequel. It didn't matter too much - both this novella and the book are excellent. If given the chance, I would read MAXIMUM EXPOSURE first.

This prequel gives the reader insight into how Max Revere got her cable television show and background into why she is motivated to try to solve cold cases.

Bullying, inept officials, Search and Rescue - all play a part in this fast-paced tale by author Brennan.

### **A well-developed origin story**

I liked reading this story about how Maximum Exposure got started. Brennan presented a well-developed character in Max Revere and explained what motivated get to start reporting on tv. I enjoyed it!

### **Rue Reads says**

I read this one hoping it would get me excited to start the series, but for me it did the opposite. The story was okay, enticing enough I guess but nothing we've never heard of or seen. Bullies being bullies, leads to death. What bothered me more was how uppity and pretentious Max is drawn out to be, just not the kind of character I really want to be my hero in a book. Just not the right series for me!

A very promising prequel, I'm definitely looking forward to read the rest of the series.

This short story portrays the main character Max, while she investigates a cold case.

I really liked the way you discover Max her personality throughout the story, and I almost immediately began to like her. Although the story was quite short, it was almost impossible to put the book down (except for dinner) and it made me very eager for the outcome of the case. The pace of this detective -not too slow- was optimal and the added personal dimension, which I often miss in other detectives, was perfect and supported the story well.

Tragedies in Maxine (Max) Revere past lead her to become an investigative reporter. This novella introduces us to Max and gives us some insight into why she is so passionate about what she does as she also looks in to the disappearance of a college student.

### **Maureen ~Bitch Can Write A Book says**

I really enjoyed this novella...the story had great detail and Max is a great heroine. Also...the outcome made me angry...it made me feel. Allison did a fantastic job of making me invested in the characters. As I've said, if an author can make me FEEL, whether I hate or love certain characters the author did there job.

I hated the 3 college students. I wished for a different outcome for Scott. I felt sad for his mother Adele. I am really looking forward to getting to know Max's character more. No romance in this but for me that's ok because the story was really good. I love mysteries and strong female hero's. This was a great beginning for a new series!!!!

### **A glimpse of justice**

Quick read that introduces us to a new heroine and world of investigation and suspense. Well written and developed story that shows how the characters are coming together and what pushes the main character on her quest to solve cold cases. I enjoyed this story, agreed about the unfairness and am intrigued to continue on with this series!

## **Darcy says**

With this short, I find myself intrigued to read a full length book about these characters. I liked how the author gave an explanation of where her idea came from before the story started. I liked that Max was mad, that her righteous indignation spurred her on to take a step she might not of, that she will help right some moral wrongs. It will be interesting how her past comes into play with what will be on the show.
