Soul on Fire John E. Forster

Why would a 51-year-old preacher from Ohio turn in his Bible for a sniper rifle? Pastor Neil Daniels was a man who had built himself a great life. He was living the American dream. He had a loving family and an awesome career serving the Lord. On 9/11 an act of terrorism changed everything and turned his world upside down. The Bible says, "Forgive your enemies." Pastor Neil had a choice to make.

As a former Green Beret, I relate to the story written by Mr. Forster. Although this is a fictional novel, I found the details of the events to be realistic. He did his research, which is a sign of a good fictional author.

Emotions were extremely high after September 11th attack on the American society. Many nationals and foreigners lost their lives that day because of being at the wrong place at that moment in history. John takes one of those stories, albeit fictional, and turns into a thrilling adventure, which he goes into some detail in his interview below.

Without going into detail, I will say his characters are well developed, showing their emotions on their sleeves. Neil's wife and daughter were in harm's way and you will be wishing and hoping they will be saved with every step they make down the tower.

A minister, Neil Daniels love for them overcomes his faith to the point of going into a drunken depression and then into action after hearing the one responsible for the loss of his loved ones was released back to his country. Revenge is Neil's sin. He won't sleep until he accomplishes his task of killing the man.

The events that follow are fast paced. Hold on to your hat, it's fast moving. You won't put down the book wanting the good guys to win out over the bad guys. Unfortunately, in real life, good doesn't always win the day, as it is in Soul on Fire.

We all regret some things we have done in our lives. The main character in this story will have regrets when all is done. But he won't regret trying. John E. Forster, I know felt that pain. That's why this novel is a winner – you feel the pain in his writing.

Soul on Fire by John E. Forster delves into the world of global terrorism, revenge and an action packed hero. It will keep you glued to your book throughout the entire read.

The storyline is well developed and believable. I like the way the author has laid all the pieces of the puzzle together to build to an exciting climax. The various twist and turns of the plot are easy to follow and the action keeps you anticipating the next move.

John E. Forster did a great job developing his lead character. By laying the groundwork, mostly through flashbacks, he made the hero of book easy to identify with and believe in. I like the way the author used personal descriptors which made me feel like I was there and part of the story.

I really enjoyed reading *Soul on Fire* by John E. Forster and I highly recommend this book to all readers.
