This was an awesome quick read for me. I bought it for my older son and just happened to start reading the book while I was waiting on his dad. Needless to say he now has his nose stuck in it. I love being able to share an author with my teenage son. I have yet to read a book by Mr. Patterson that I didn't love. Can't wait for book two :D

Choosing to dabble into a Patterson YA series, more to fill a little time than to compare it to some of his past works, I thought I would check out this new series. Opening the novel in an epic storm at sea, Patterson introduces the reader to four orphaned children whose father is presumed lost at sea in the aforementioned storm and whose mother is presumably being held captive in Cyprus. They must navigate their way to safety while they vow to discover the secrets left by their parents amongst various clues aboard the ship. Tapping into their treasure hunting abilities, they begin to unravel the mystery behind their mother's disappearance in hopes of saving her. Crossing paths with numerous obstacles, human and otherwise, Bick, Beck, Tommy, and Storm all come together to face adversity with their own special talents. Patterson uses his abilities to weave a story fit for teens that has potential to expand into a decent series aimed at this target audience.

I would be lying if I said the story was enthralling or deeply captivating. Hokey at times and plain silly at others, I have tried to peel back my preconceived notions as I am nowhere near the 10-12 year old target audience. That said, I thoroughly enjoyed the Maximum Ride series and hoped this would parallel that experience. Still, the story moves well and is full of interesting facts perfect to pique the interest of a young reader.

Good work Mr. Patterson. I hope this series and some of your other YA ones do well for the younger fans and that you groom them for your powerful adult series.

This is a great book for kids and parents to read to each other. Written for a young audience, the book is still a fun read for grown-ups. And the chapter lengths are manageable for out loud reading sessions.

Thank you Mr. Patterson for books to keep young readers engaged so they can grow up to be adult readers!

Review to come!

My 11 year old son loved this audio-book. I disliked it so much that I refused to listen to the rest of it. I told him that I would buy the book so that he can read it. I, initially, gave it one star, but to reflect my son's admiration for the book, I upped it to two.

To me, this book encapsulates everything I don't like about youth fiction. Patterson doesn't respect his audience. The characters are poorly written. The plot is ridiculous. The kids are sarcastic.

If you are a kid, judging by both my boy's reactions, you might like this book. If you are an adult, this might be like one of those really awful cartoon movies that you have to sit through.

This book is just great. It isn't bad . It isn't okay. But it isn't awesome. It's just great. I've read this a couple times. But this book was the only book in my house I could deal with reading

Whew, talk about a whirlwind story! I could not put this one down. James Patterson's characters were intriguing, funny and full of personality. I loved the twins Bick and Beck and their twin tirades. I can't wait to see if there is a second book in this series!!

Adam McGowan says

I liked how funny this book was almost every part of this book was funny. There were some parts what were slow but then right after it would be mad funny. The theme is to never give up

This book was really good but it was somewhat of a quick read. The book is about four kids and their mother is captured and there father disappeared. The only way they can get they Mother back is by locating a lost treasure. The four kids name's are Bick, Beck, Storm, and Tommy. Bick and Beck are twin and always get into fights called "twin tirade." Storm has a photographic memory so she remembers everything she sees or reads. Tommy is the oldest of the four and is the captain of the ship in their fathers absence, He likes to flirt with every girl he sees. My favorite part of the book is when the find the Grecian Urn from Ms. Macy-Hudson.

What can I say about it. Kids losses their parents. They are not lost at sea. Recuse. Fight the bad guys. Get the treasure. Win Win Win. Read part of this book to my sixth grades. They are fighting to see who gets to read it first. I love when recommend a book to my students and fighting over it to read.

Poate c? povestea a fost exagerat?, dar ilustra?iile au fost geniale ?i am r?s cu lacrimi.

This book was a slow read for me. The storyline was quite choppy and the humour seemed a little forced at times, but I can see how a younger audience would find it entertaining.

Carter says

I really liked this book. It was fun to read. I can't wait until the next one comes out in this series.

Treasure Hunters is a book written for kids, not adults--and that is something James Patterson is known for. The premise is a bit of a stretch, but only for us adults. I can see kids, especially those into all things pirate and treasure hunting, loving this book. The pacing is brisk, the writing tight, and there's plenty of character voice to make the story come to life.

A great book for your very reluctant middle-grade readers: it's fun, has illustrations, lots of dialogue--the pages turn quickly.

Liza Nahas says

Probably some 10 year old kid who hates reading might like this, but I couldn't wait for it to end. And why make fun of the overweight child? Ugh. My 1st & last Patterson. (Still love his website to get kids reading, just not this series!)
