## Undercover Twin Lena Diaz

IT'S A CASE OF TAKEN IDENTITY IN LENA DIAZ'S UNDERCOVER TWIN!

DEA agent Nick Morgan had no choice but to break up with the love of his life, Heather Bannon. He knew that if he was seen anywhere near the gorgeous P.I., he could kiss his career goodbye. But when Heather's twin is abducted, Nick reconsiders his priorities.

As Nick leads Heather on a dangerous undercover mission to rescue her sister and topple an elusive drug lord, he knows he was wrong to end their relationship. Working side by side, Nick realizes his love for her is as strong as ever, and he'll risk his life to prove it. Having Heather pose as her twin—down to her tattoos—could be genius...or a fatal mistake.

# **From Reader Review Undercover Twin for online ebook**

## **Debbie Heaton says**

In Diaz's romantic intrigue novel, Heather Bannon, PI is the love of DEA agent Nick Morgan's life. To his dismay, he is forced to break up with her after she is arrested for possession—her twin sister's stash. But when her sister is abducted by the leader of a drug cartel, Nick and Heather are forced to work together to save her and bring down a long sought drug lord. Thrown together, Nick is forced to recognize that if anything, he loves her more now than before. As Heather poses as her sister, Nick steps up to defend her with his life if needed.

Action-packed and fast-paced.

---

## **Janet says**

Lena Diaz did a great job on plotting this story. The story was tight and relatively fast paced with enough twists and turns to keep me guessing and reading way too late into the night. Her characters were well drawn, if flawed. The heroine was unlikeable at first, but enough growth occurred throughout the book to change my opinion. The book can stand alone, as I was not aware until now that it is captioned as book 2. I will seek out other books from Ms. Diaz.

\*I received my copy from NetGalley.com in exchange for an honest review.

---

## **Paula Phillips says**

Heather Bannon has the worst luck ever and it's all because of her identical twin sister Lily. Heather has always been the good twin and fixing all of Lily's mistakes but what happens when Lily's latest escapade ends up with the both of them arrested for Drugs and Smuggling and just when Heather's PI Business was starting to bloom. Even worse for Heather is that her current boyfriend - well now ex-boyfriend is the DEA agent who arrested her. Was their whole relationship based on a lie and was she just a job to him as it turns out he was paid to shadow and get close to her. Can Heather prove her innocence and that she is the good twin and not part of Lily's mistakes. What happens though when the tables are turned and Lily ends up kidnapped by a drug smuggler kingpin ? Will Heather agree to help the DEA go undercover as bait to save her sister ? Will Nick Morgan be able to get Heather to forgive him as he tries to show and prove to her that his love for her turned real and it wasn't all fake ? Can Heather prove that she is the innocent party and that is really just a case of wrong time and that she was trying to do the right thing by flushing Lily's drugs ? Find out in Book #2 of The Morgan Brothers series by Lena Diaz.

## **Kairee Taylor says**

I liked the opening--great conflict kicks off the story to complicate the relationship between Nick and Heather. The pace kept me reading from the first page to the last. This was my first book by Lena Diaz and

I'll definitely look for more.

---

### **Kathryn Bain says**

This was my first Lena Diaz book, and I enjoyed it. I wish she had gone into a bit more about the sister's background, but she really didn't have time with the size of book it was. At times I also got irritated with the heroine because I thought she was dumb, but I see a lot of that in romantic suspense these days.

Overall, it was a good quick read. Very little cursing, and the sex scene isn't too strong (like some you read).

I would recommend it for a weekend when you want to do nothing but put your feet up and read a good book.

---

### **Rhonda says**

4 stars

The suspense of the story was good. I had no idea who or why for the longest time.  
The characters were a wide range. You were not sure who to trust if any.

Heather Bannon went into a bar to rescue her sister and they both got arrested for cocaine with intent to sell.  
Too make it worse her boyfriend arrested her.

Nick Morgan a DEA agent did not want to have anything else to do with Heather after he arrested her. Then he went and called in favors to have her bond reduced and got her car out so it was their when she was released.

Now different people and agents want to use Heather as bait. Nick does not want her to be bait.  
He steps in when she gets in over her head again,

The setting is Florida drug scene.

The pace of the story was good. There was plenty of action, drama. a couple of sex scenes that I skipped over. Every time things looked calmed down something else happens. There was a few twists and turns I did not see coming.

I was given this ebook to read and in exchange asked to give honest review of it by Netgalley and Harlequin.

### **Susan says**

Good book with plenty of action from the beginning. Heather has started her own business as a private investigator. She also has a hunky boyfriend in DEA agent Nick Morgan. Heather also has a twin sister, Lily,

who has been in constant trouble. At the beginning of the book Heather has gone looking for Lily and finds her sniffing cocaine and with a bunch of it in her backpack. As Heather is trying to get rid of it, they are caught and arrested in a DEA raid - including Nick. This ends their relationship, Nick being certain he was fooled. He knows that being around Heather would kill his career. When Lily is kidnapped and Heather receives a ransom note, Nick can't stay away. The only way to get Lily back is to attempt a risky undercover operation, but working together is going to be a challenge.

For the most part I liked Heather. Her love for her sister is strong, even though Lily has caused nothing but trouble for her. Getting caught by Nick while flushing Lily's cocaine is just one more thing that Lily has screwed up for her. Heather is especially hurt and angry that Nick won't even listen to her explanation. But when Lily is kidnapped Nick is the only one she can think of to go to for help. When the suggestion is made to use Heather as bait to draw out the drug lord who is the suspected kidnapper Heather is determined to help. She ignores Nick's reservations and goes along with the operation. For all that she is supposed to be a private investigator, I thought she was pretty naive to think that it was going to be as easy as she was told it would be. When the operation goes wrong it is Nick that rescues her and she realizes that he was right all along. Now she has to agree to his conditions if she wants his help to rescue her sister. As things get more intense in the search for Lily, Heather also realizes that her heart hasn't given up its love for Nick. She also knows that there's no future for them because of the conflicts with his job and her problems with her sister. Those problems get worse when Lily is finally found. The effects of the revelations on Heather are devastating and create what appears to be an unbridgeable gulf between Heather and Nick.

Nick is a man who is focused on his career as a DEA agent. When Heather is caught flushing drugs he feels betrayed and cuts off his relationship with her without even asking for an explanation. He gets suspended from his investigation because of his involvement with her. Unfortunately he hasn't been able to kill his feelings for her and gets involved when her sister is kidnapped. Nick is big on trying to control as much as he can and lays out a bunch of conditions if he's going to be the one to help her. He's stunned when she refuses his conditions and goes with the plan the other DEA agent comes up with. Nick has a bad feeling about it and follows, prepared to rescue her if needed. His instincts were right and he ends up pulling her out of trouble. From there he helps set up another attempt, this time insisting on her cooperation. Once again things go bad but this time they are together. Nick realizes that his feelings for her are stronger than those for his job and takes risks to keep her safe. His choice at the end saves Heather but apparently destroys her feelings for him. It really looked like a happy outcome was not going to happen. I loved seeing them both finally realize what was most important. It kind of left hanging what they would be doing career wise - I would have liked to have an epilogue with that information.

## **Cindy ~ says**

Nothing like trying to save your drug addicted twin sister by flushing the large quantity of drugs she has on her and getting busted by the DEA and arrested and the agent who arrest you is the guy you have been dating.

Heather Bannon and her twin are nothing alike. Heather has fought her whole life to become someone despite her childhood whereas her twin Lily chose the path of least resistance, drugs. In spite of all the problems that has caused Heather she still loves her sister and when she is kidnapped she will even go as far as working with her now ex DEA boyfriend Nick Morgan to try and get her back and to bring down the drug dealer that has her.

But alas all it not what it appears to be. There were many twists during this book some tragically so. I would have loved for there to have been a better wrap up at the end of the book but overall I liked it.

### **Jennifer says**

[ gets cocaine all over herself dumping it down the toilet, but manages not to snort any and get a high (hide spoiler)]

---

### **Nicole Laverdure says**

Good suspense 4 stars

I read Undercover Twin by Lena Diaz and found it a good thriller. This book is part of her series The Morgan Brothers. It's fast paced and filled with action and drama. But honestly, I am a bit disappointed because I was expecting more; I loved so much her other books in her Nursery Rhyme Series. Sorry Ms. Diaz, this book was well written but it didn't grab me as much. Maybe the next one will keep me interested until the end.

---

### **?°.. Jillie Anne ..°? says**

Didn't know if I was going to like this as much as the first book but I was wrong. It moves fast. I had some problems with the procedures the police had in the plot but it did not make me not like the story. Fast paced ..

---

### **Paula Brandon says**

[ Heather's favourite line of dialogue in this book is "I HAVE to save my sister!" This is even when said sister turns out to be the mastermind behind the whole thing and is really quite a manipulative bitch. Yet even after Lily's tried to kill them all, Heather is *still* all "Wah, wah, wah, we have to save her!!" Ugh. Most peo

---

### **Anna says**

This was a decent bOok Not my favorite but I do plan on reading another of her novels I think it is definitely worth a read it it sounds interesting

---

### **Ash says**

This book was ok. First book was better than this.

---

## **Tory Michaels says**

First, a disclaimer. I am a chapter-mate of Lena Diaz (and a NaNo buddy too). That only influenced me to the point where I picked her book up on NetGalley. Other than that, this review is in no way biased.

I loved this book. I even got to like Nick, though in the beginning (and even toward the end) I thought he was an arse. Then again, I can see why he'd be so careful when it came to Heather, given his career called for a squeaky clean image with no potential links to drug dealers. Still, he jumped to conclusions and was a jerk for a long time.

Heather was great. I loved her devotion to her family, even though her sister wasn't worthy of it. I can really get behind a heroine willing to put her life on the line, literally, to protect her family. She didn't even think twice when asked by a slimy ATF agent to pose as her sister, just agreed and went in even though it would put her in the range of a very nasty drug dealer.

I have to say I liked the drug dealer too. He was ... interesting when you got to actually meet him late in the book. Very charming, very polished. Not really what I was expecting out of him, but then again, I think sometimes we picture villains as mustache-twirling, evil cackle, hands-rubbing together monsters. Definitely not here. Oh, well, he was definitely a monster, but he had a nifty surprise of his own that I was fascinated (and surprised) to learn.

I didn't figure out most of the twists and turns ahead of time, which is a major thumbs up to Ms. Diaz. I'm getting a bit tired of seeing plot turns a mile ahead. Maybe I'm just simple-minded when it came to this book, but I don't remember thinking "Oh, I bet X is Y" and finding I was right many pages later on. So, yay on that one.

Nick and Heather have a very bumpy road with some major roadblocks that they have to get through to find their way to one another on a permanent basis, and I was rooting for Heather all the way, finally even hoping Nick got him some love toward the end. They both deserved it.

Thanks for writing a great mystery, Ms. Diaz, and wahoo to Harlequin Intrigue!

Book provided by NetGalley in exchange for an honest review.
