An Imperfect Witch

Debora Geary

An Imperfect Witch Debora Geary

The tattoos on your heart matter more than the ones on your skin.

Two years ago, Lizard Monroe was Berkeley's newest delinquent on parole. Now she's a hot young realtor with a great life, an awesome guy, and enough friends to chase away the ghosts of her past.

Almost.

The crystal ball has spoken - life isn't done messing with her yet. And neither is the need brewing in the eyes of the man she loves.

The eve of Halloween approaches. And whatever the sexy poet realtor wants to believe, moving beyond your past isn't the same as facing the future.

This is the first book in my new Witch Central series, featuring my well-loved clan of modern witches and those who love them. Light contemporary fantasy with a good dose of humor, a little romance, and characters you won't want to leave.

An Imperfect Witch Details

Christine Calabrese says

I admit it...I'm addicted to Witch Central!

Sue says

Anyone who follows the Modern Witch series, will love this book... this is Lizard's book.... our resident poet, which layers of crust covering a soft, soft heart. Lizard was introduced to everyone in "Witches on Parole" -- so if you haven't read that... you might want to read it first. I'm a die hard fan so I missed that in the sequence... so I have to double back, but I'm going to enjoy Lizard taking those first steps into Witch Central's community.

Nancy says

5++++ stars!!! An Imperfect Witch was a special and very welcome addition and I could not put it down.

No sex, no mystery or suspense, no sexy alpha males...yet Debora Geary's books have captured my interest and I am addicted. Every character -be they toddler or elderly...and all ages in-between - captivates. Every book advances the story and sticks another hook into my heart.

This latest addition begins a new series but with many of our favorites from the Modern Witch series, and the Witchlight Trilogy. It could be read as a stand-alone, but shouldn't be, in my opinion. It's really important to know the back stories of every one - especially Lizard.

I want to be a witch, or at least be connected to these people in some way. I want them as my neighbors and coworkers...I want Lauren and Lizard to find me the perfect house. I want to celebrate Halloween with them! I want glitter pens! And the addition of the new character (a crystal ball that has a personality of it's own) is brilliant!

Sharon Epstein says

Fun read

I have enjoyed this book much as I have enjoyed all of the other ones in the modern witch series

Maria Elmvang says

I've long since realized that the plot of Debora Geary's books really doesn't matter at all (well... that's probably an exaggeration, but it matters very little), because what really drives the book are the characters and their interaction - it's just so refreshing to read a series where people are generally kind and generous towards one another for once.

What struck me while reading this installment of the witch series is that though easily overlooked, Debora Geary has an amazing way with words. I'd constantly find myself paging back to reread some sentence of another. She's a poet in the truest sense of the word, putting together sentences such that the whole is so much more than the sum of its parts. An ability very rarely seen, and undeniably a big reason why her books resonate so with me, and why each one makes me tear up so much.

Phryne says

I have to state first that I really do not like romances and very rarely read them. However when Debora Geary dresses them up with witches and magic I find I can gobble them up! A sad secret - I even have to grab the tissues sometimes while I am reading them. When Debora finished her first series about this community of witches I was really disappointed but thank goodness they are back! Keep them coming please!

Elaine says

If 200 pages of teenagerish witchy angst is to your liking, this is your book. Otherwise...not so much.

Lorna says

Love all of these books. Ms. Geary couldn't write a bad book if her life depended on it. Love the characters, the magic and all her stories. Big bonus-this is Lizard's grown up story!

Annie Slasher (Booked & Loaded) says

This is an original review from <http://bookedandloaded.com> - this title was provided from audible.com in exchange for an honest review. All opinions are my own and are not influenced in any way.

An Imperfect Witch by Debora Geary is the first book in her Witch Central series. With a light feel full of family and growth, this audiobook was a joy to listen to.

An Imperfect Witch was kind of a random pick for me and not my normal go-to full of higher magic and

action. This soft and sweet listen doesn't quite fit into one genre either. It had a touch of magic and a touch of mystery, but overall this book was really about family and personal growth. It also touched on some of the more raw pieces of myself - mostly family support. The fact that the author is able to create a family (and this doesn't mean just blood relatives in any way) that feels so genuine is truly a testament to the writing that went into Witch Central. The variety of characters that are written with true clarity made for a entertaining listen.

This first book is mostly focused on Lizard Monroe, but we are certainly introduced into the whole that is Witch Central. Lizard's growth and struggle to accept herself was easy to relate to and I think most readers will feel the same way. If you are looking for something on the sweet side with a touch of mystery, you have come to right place at Witch Central!

Audiobook thoughts: The narration matched the voice of the book very well and I really enjoyed the pace set by Martha Harmon Pardee. Pardee never missed a beat and kept me in the story the entire time. Even with a variety of ages and genders Pardee flowed through them easily and naturally. This was a very pleasant book to listen to and as a whole it just worked.

I rate An Imperfect Witch 4 out of 5 Bullets!

Beth says

a reread really - these book are comfort reads

Sheryl Painter says

There are few books or authors that pull you in like Debora Geary's Witch series. There are fewer books or authors that make you feel like coming home to family and friends. Fewer still that can draw so many emotions from you and keep you wanting more and more. Debora Geary is one of those very few authors who has introduced us to a wonderful community of witches and non-witches that have become friends. Starting each new book is like walking into a family reunion - you get to spend time getting caught up on each person's lives, watching the young grow up and become interesting people, and seeing how life's hard choices make for incredibly good foundations. This book, as well as the series itself, has good, decent people making difficult choices, and opening themselves up to the magic of the world we live in. I've laughed out loud at the water or pillow fights, held my breath while the characters work out their problems, and cried with joy at the end. Each new character addition just adds more flavor and spice to the community that is Witch Central. Each of the books have life lessons mixed gently, or not so gently, with love and magic. In previous books we've been introduced to Lizard, watched her grow and mature. It is amazing to see where Ms. Geary took us as she wrote the next chapter of Lizard's life. To have the Witch Central foundation of great characters included in this latest novel is just icing on the cake. I actually miss having sparkly things around after reading this series. I always feel more positive and upbeat after reading, and it's all due to Debora Geary's talent with words and a marvelous story that just continues to grow. These books really are a joy. I can highly recommend them to anyone.

Deborah says

Wonderful story - made me laugh and made me cry, but made me feel good - looking forward to others.

Robyn says

~recommended by HJM

My favorite line: "Dare to live the life you want, not the one he left you."

(The context was being abandoned as a child by her father, but a beautiful reminder for anyone after any relationship ends.)

Warning: "colorful" language

Jaclyn says

I didn't realize that this series is a spinoff from the Modern Witch series. I haven't read that one yet, so coming in to this one, I felt very lost. I had no idea who any of the characters were and it seemed as if the author just picked off where the previous series left off. There are a lot of characters in this book and so I was very confused. It wasn't until about 30% of the way through that I started getting an idea of who everyone was, but that's just way too long for me. Also, I really didn't like the MC very much. Without knowing her background, which I'm assuming was explained in detail in the previous series, I felt like she was just a whiny brat. To me, she didn't deserve all the wonderful people around her who she abused constantly with her tantrums. I'm sure though that if I go back and read the previous series I'll probably feel differently, so I am going to give it a chance. Instead of continuing this series, I'm going to read the other one first and see if my feelings change. For anyone interested in reading this book, I absolutely advise reading A Modern Witch first to save you from the frustration and confusion I went through.

Larry Greene says

A Gift for the Heart

While this may be light reading for some, the Witch Central books hold a special message of family, friendship and home. I have read all of them numerous times and they always lift my heart. And who could resist witches in Berkley...imaginary??
