### **Misha Almira says**

Lindsay Powell owns Death By Chocolate, a popular shop for sandwiches and sweets. She makes chocolate by day, then returns home to her cat Henry. The rest of the time, she spends with her neighbors and her boyfriend Trent. It seems like Lindsay leads a simple life, but it is definitely not boring. When a new neighbor, Sophie, moves in across the street, her world takes an extremely interesting turn. It starts with a middle of the night phone call from her neighbor Fred, when he informs her that Sophie will not come out of his closet. The mystery keeps coming as Lindsay and Fred unravel the dark secrets of Sophie's past. What they discover, is more deeply connected to them than they realized. It is like tuning into your favorite sitcom with nonstop excitement.

This story is hilarious! The author tells the story with an endearing inner dialogue that will have you laughing out loud and feeling like an intimate part of the group. I cannot wait to read the previous three books.

This author I admire because she keeps the plots interesting and refreshing. Each book has different characters aside from the main characters.

Although I hadn't read any of the previous novels in the Death by Chocolate series, I was able to slide easily into the world of Lindsay, Fred, Paula, Trent, and their other friends. And what an enjoyable world it is. Lindsay bakes and sells what sound like divine chocolate desserts (and the author thoughtfully provides us with the recipes at the end) while solving mysteries at the same time. Great combination...what could be better than curling up with chocolate and a good book?

The mystery this time involves a new neighbor whose sleepwalking tendencies suggest past trauma. She thinks she saw a child murdered years ago in Fred's house. Is she imagining things or did a tragedy really happen? Is someone trying to frighten her and drive her away from the neighborhood, or is she just a bit of a nutcase?

Lindsay's witty, wise-cracking voice is one of the best things about this novel. She had me laughing out loud

on numerous occasions. The secondary characters are richly developed, even when smarmy (Lindsay's ex-husband), bratty (the devilish young son of her ex), or enigmatic (Fred). Fast pacing and a solid plot combined with Lindsay's engaging narrative to produce a hard-to-put-down treat. I will definitely be grabbing copies of the earlier books in this series. And later ones. Warmly recommended!

Chocolate, Coke, and a little mystery are the mainstays of sweet shop owner Lindsay Powell's life. She always finds herself snooping around when an intriguing situation arises. In book four of the Death by Chocolate series, Lindsay and her cast of characters find themselves chasing after an imaginary friend who may be more real than imaginary.

New neighbor, Sophie Fleming, moved back to the house where she lived as a child. Dreams plague her and she sleepwalks into her neighbor Fred's house and hides in his closet. This turn of events has Fred calling Lindsay to come and coax Sophie out. The two of them, with Lindsay's ex-husband's son in tow, persuade Sophie to give up her roost. But her re-entry into the real world comes with a call for someone named Carolyn.

From there the fun ride begins! You'll enjoy being a fly on the wall, watching the action unfold as Lindsay and her partners in chaos unravel the mystery of the imaginary friend. But what is very real is the chocolate. Get this one and enjoy a good read and the recipes in the back.

Another solid book in this series. While Lindsay was in on the action, most of it centered around her new neighbor. The whole story there was a bit crazy, something that could only happen in fiction land, but it made for some great reading. Fred was in the thick of things too and I was hoping we would get a little more backstory for him. Instead he's sort of like batman, always coming to the rescue and knew who to talk to help figure things out.

I was disappointed to see Rickie back, as he is a demon child, but even I felt sorry for how he was just left.

**Another suspense filled winner strong>**

**I am really enjoying this series. It's full of suspense,mystery, romance, and comedy. Lindsey captures not only a killer in this one, but also gets the sexy detective.**

### **Linda Thompson says**

Lindsey finally has her divorce and her relationship with hunky Detective Trent is progressing. King Henry

is as wonderful as ever with an obsession for catnip that even a 2-legged druggie couldn't beat. The mystery in this 4th book of the series, goes back in time, long before Fred, Lindsey and Paula have lived on this street. Now it's Fred who is in a predicament and his lack of knowledge about women is very evident. Will King Henry figure it out before the others? Will Lindsey's life, once again, be at risk? You'll never know until you start reading. Each of Berneathy's books are quick, easy reads, each with their own story but involving the same base group of characters. While reading them in order is not necessary to get the gist of each story, it would certainly make understanding the who, what and why much easier to understand. I could easily become borderline obese if I didn't carefully watch how many of these dynamite recipes I indulge in. Once again, I'm eagerly anticipating the next book in the Death by Chocolate Series.

#### **Great story and series**

Great characters, wonderful humor, and a mystery that isn't the same "I can guess who did it" from the start. Really loved the book and the series.

### **Lynette Caulkins says**

A fun and cheeky cozy mystery. Bonus: A handful of chocolate recipes I have to try out!

---

### **Diane Watson says**

Part of a very easy to read series of books about Lindsey, a chocolate who gets in a few scrapes and relies on friends, neighbours and co-workers to help her out.

Sophie Fleming had returned to the home she'd left with her parents when she was five years old – her renovations made the old place opposite Lindsay's house look like new again. But Sophie had traumas in her long ago past – traumas that hadn't been addressed. She was having nightmares and sleep walking – something she hadn't done since she was a child. It was up to Fred and Lindsay to discover the cause...

Was there a murder twenty-five years ago? Or was Carolyn only Sophie's imaginary friend, just as her parents had told her? With Fred's talents and Lindsay's doggedness, they were determined to find answers.

I love this series! I know when I pick one up I'll be entertained with laugh-out-loud moments and it's always a great follow up to a heavy read. In that way, *Chocolate Mousse Attack* (4th in the Death by Chocolate series) by Sally Berneathy didn't disappoint! An excellent cosy mystery series which I highly recommend.

### **Vanessa Grant says**

Chocolate Mousse Attack is my first Sally Berneathy chocolate mystery, and I'm hooked. Divorced chocolatier Lindsay is awoken at 2 am by an urgent phone call from a neighbor Fred. The woman who just moved in across the street a few hours ago has sleepwalked straight into Fred's house, wearing only a thin nightgown. Fred can't get her out of his bedroom closet, and he needs Lindsay's help. But when the two of them manage to get Sophie Fleming out of the closet, they discover it's more than a little sleepwalking.

Sophie had a nightmare that Lindsay and Fred soon realize must be more than fantasy. It's murder.

Sally Berneathy has created a very likeable amateur detective character with Lindsay, and great sidekick in Fred-the-neighbor with his old car, sober manner, and hacker's knack for digging out secrets online. Add King Henry, the stray cat who adopted Lindsay and knows more than a feline should, and Lindsay's boyfriend - a cop who refuses to cancel her speeding tickets - and it's no wonder I've just fallen in love with Berneathy's Death by Chocolate series.

I won't add any spoilers, but if you like your mysteries with a touch of laughter, and a great cast of characters, you can't do better than to check out Chocolate Mousse Attack.
