It's an Aardvark-Eat-Turtle World Paula Danziger

What could be better? Rosie and Phoebe have been best friends since they met on the divorce express, shuttling between their parents on weekends.

Now Rosie's mom and Phoebe's dad have fallen in love and they're all moving in together. Rosie has always dreamed of having a real family, but having Phoebe as a sister and having Phoebe as a friend are two very different things.

And having an extra parent around isn't easy for anyone to get used to. It seemed like the perfect setup, but can their friendship survive in the same house?

elscorcho says

Back in Jr. High During the early 90's my best friend at the time and I made our way through every single paperback the school library. At the time it felt like a pretty big accomplishment, we thought so anyway. While I made my way through m.e Kerr, Paul Zindle and Norma fox mazer, she sat beside me giggling at the exploits going on in the books of Paula Danzinger and Judy Blume... I'm sure there were lots of others. It's taken me over 20 years, but I finally picked up this book and it so transported me back to that time. I don't wish to be 13 again.. But I do miss the simplicity of teen books from the 80's and 90's.

Austin says

Excellent. The author really understands teens and pre-teens, as well as broken families.k

runningwithschisms says

very cute and simple. a 60-minute read. nothing special, but not a bad way to spend an hour.

Kris - My Novelesque Life says

4 STARS

"Rosie and Phoebe have been best friends since they met on the Divorce Express, shuttling between their parents on weekends. So when Rosie's mom falls in love with Phoebe's dad, and they all move in together, it seems perfect. But Rosie soon learns that having Phoebe as a sister and having Phoebe as a friend are two very different things. And having an extra parent around isn't easy either. Rosie always thought that she and Phoebe would make great sisters. But can their friendship survive being in the same house?" (From Amazon)

I was a little obsessed as a child with divorce - and no my parents were not divorcing - I just wish they were. So these were a bit of how-to for me - lol. A great novel! I love Danziger's writing.

Erin says

I have only a vague memory of reading THE DIVORCE EXPRESS, and I didn't remember these characters. Typical Danziger, which isn't ever a bad thing!

Teri says

An average story about a girls mom marrying her best friends dad. Kind of Dull.

Kristina says

I wish I'd known about this book when I was a kid because it would have been the only one about a mixed girl I'd ever encountered. Womp womp.

Arshia Zehra says

Having a family doesn't mean that everything is going to be easy and all the family members will get along. It means that although you have problems you are willing to work them out in order to be a family.

Rosie learns this the hard way. Phoebe was a little self-centered but I feel bad for her. She had to go through so many changes in her life and adjusting is not easy.

Rosie had a lot of high expectations. She thought that all the families are like the perfect families that are shown in movies. Real life is not a movie. Families aren't perfect.

A really interesting and enjoyable book. :)

Sarah Markmann says

Its an Aardvark-Eat-Turtle World by Paula Danziger is about two girls named Rosie and Phoebe have been very close friends for a long time. Rosie's mother and Phoebe's dad fall in love and end up moving in together. Though they were all a family now they began to realize that them being friends and them being sisters weren't necessarily the same thing. Overall I enjoyed reading this book, because it was interesting to see how the relationship between Rosie and Phoebe had altered throughout this book.

Barbara says

I liked it. I like Rosie, but Phoebe becomes a serious grinch. Which okay life. But, kinda a drag.

Annalisa says

Fun for teenage girls.

Melody says

Another Issue Book. Well written but not particularly engaging to the middle-aged person. It might just be me, though. There were bits that were clever and fun, but Phoebe didn't ring true to me at all in this installment. The whipsawing of emotions in adolescence, sure, I buy that. But the picking up and moving multiple times? I find that less creditable. And the dad's too saintly by half.

Rgreader says

Read this when I was 12. Still a good read. Likeable characters. Heartwrenching seeing the impact divorce has on young people.

G rated. Light romance. Racism dealt with.

A good book parents & children can read together & discuss.
