Who are the traitors in X-Factor? What are the Xavier Protocols? And where does Franklin Richards fit into the plans of the awesome Onslaught? The Fantastic Four, the Avengers, and no less than five mutant teams search for answers in the second segment of the saga that literally re-made the Marvel Universe of the 1990s. Also featuring the villainy of Apocalypse, Dark Beast, and the savage Sabretooth. Guest-starring the Hulk, Uatu the Watcher, and Elektra. Assassin Collects Excalibur #100, Fantastic Four #415, X-Factor #125-126, Generation X #18, Wolverine #104, X-Men #55, Uncanny X-Men #336, Cable #35, and X-Force #58

# From Reader Review X-Men: Onslaught - The Complete Epic, Book 2 for online ebook

## Oliver Hodson says

Completely scattered collection going through the whole marvel universe. Some of the sidelines added small bits to the story, but by and large, i would have liked it to stick closer to the xbooks. The x-man /mr. Sinister story was the best part.

---

## Deirdre says

Professor Xavier has now been subsumed by Apocalypse, mayhem and chaos has ensued and it's up to the Marvel Superheroes to try to fight it. Several of the stories are quite interesting in the dicotomy between an ordinary human life and the responsibilities of having power and needing to use it to better other people's lives and keep them alive.

Fun stuff.

---

## Shannon Appelcline says

As with the last book, an OK crossover. Some of the subsidiary stories like the Spider-Man and Punisher issues felt a little bit too extraneous, though.

---

## Jdetrick says

When you have this many different series and creators in one volume, it's hard to talk to overall quality, but as these huge blockbusters go, this continues to be dumb fun.

---

## Jeff Harris says

This is a little bit of a haphazard set of issues that really aren't as important in the greater scheme of things, but they do go to show just how wide and sweeping an effect this Onslaught event had on the Marvel Comics line as a whole. I hadn't read quite a few of these issues before, so it did give me a more extended view of how Onslaught's actions impacted disparate characters like Spider-Man (the Ben Reilly version), the Green Goblin of this era, the Punisher, and so on. There are more direct X-Men ties that I appreciated, though. You'll find out what Cyclops, Jean Grey, Psylocke, Archangel, and Cannonball learned about Professor X's contingency plan he'd created in case one of his students went bad in the form of the Xavier Protocols. You'll also learn about how X-Man was being protected by X-Force from being taken by Onslaught, even if that mission didn't work out as planned. X-Factor, meanwhile, has a run-in with some of Onslaught's forces, and

have to deal with a lot of confusion in figuring out which Beast is which (since our Hank McCoy had been replaced for months by his devious Age of Apocalypse version). Wolverine's solo issue follows his and Elektra's investigation of how Onslaught came into being in the first place. This is an enjoyable trade paperback to read, even if it does take a bit of a break from the main story.

---

### **Greta says**

The Onslaught story picks up around here...

---

### **Jeremiah Salyer says**

#### **Xavier flips his lid**

This massive comic is worth the read. Enjoyed it. The Punisher was a nice issue. It's better than then incomplete volume 2.

---

### **Babs says**

FALSE

---

### **Eric Mikols says**

Downward turn this volume, lots of side stories with good Goblin and the Punisher and a Spider-Man and blah blah blah. Too bad this whole event got taken from the X-Men and brought into the rest of the Marvel universe.

---

### **William Thomas says**

completely convoluted. terrible layouts.

---

### **Labyrinth says**

Now that Onslaught's intentions are clearer, the story is better, if still scattered hither and yon.

---

### **Tundextra says**

The second epic collection plays more on the periphery and the huge Franklin Richards sub-plot.

Collecting Excalibur #100, Fantastic Four #415, X-Factor #125-126, Generation X #18, Wolverine #104, X-Men #55, Uncanny X-Men #336, Cable #35, and X-Force #58

---

### **Steven Shinder says**

Like the previous volume in the Onslaught epic, the story is scattered across multiple titles and the panelplacement makes it difficult to read the dialogue in the in the intended order.

---

### **Daniel says**

Loved it.

---
