## From Reader Review Sinfully Supernatural for online ebook

### Karlee says

Review for Heavenly Lover:

Claire is a Guardian Angel with a perfect record in saving her charges. Josh is a Dark Angel with a perfect record in turning his charges. Daniel is on the verge of killing himself, allowing Josh to continue with his perfect record, but when Claire stops him in time, Josh has a new target. Claire is told to never show herself to Daniel but when she starts to develop feelings, she can't help but let her guard down. With Daniel discovering her, the pair start to fall in love. Josh now wants Claire and will stop at nothing to turn her. Can the forbidden love between a human and a guardian angel survive before it's too late? Amazing story, can't wait to read the next book in this series.

I really loved this anthology. It spurred me to buy books in a number of new series for me! I think my favorite book in this anthology was Marshal of Hel Dorado (Fevered Hearts) by Heather Long. I stopped reading the anthology in the middle and didn't come back to it until i have read all the books in the series that she has already released, and now am anxiously awaiting more.

All the stories were pretty good, there were a couple though that were really short that i didn't necessarily love, or thought added a lot to the book, but still good.

WOW! This is a lot of talent gathered together in one box set. I got this when it was on sale for .99 it may still be. I enjoyed each and every story in this compilation. I was familiar with all of these authors except for Christle Gray and I will be checking out her work in the future. I was a little surprised by Heavenly Lover by Sharon Hamilton as I had only read her SEALS. If you haven't read anything by these ladies this is a great way to get to know them.

### Crystal says

As a set, my suggestion would be to skip straight to 'Marshall of Hel Dorado'c Follow that with 'Callum' and the short novella 'How to Lose A Familiar in 10 Days' and stop there. The set gets 3/5 overall, but those three stories get a 5/5 rating between them. Now the breakdown...

Craving More

3/5

I didn't really get into this book. You barely learn the character names before it jumps right into sex. There were a few funny parts that made me laugh. Overall, more time could have been spent on character development to make them come to life and really pull a reader into the story. It also felt like the

conflict/drama with the ex was thrown in as an afterthought to give the plot something more. Oh and Dewasa wasn't really explained. More just thrown out there.

#### The Mating Moon

3/5

Overall the book dragged on. The story was more tell than show. The best scene in the entire book was when Edge and Ivy were dancing at the club. At least until Susie walked by and it went back to telling, editing errors, and confusion. She walked by their table? I thought they were dancing!?! Frustrating and disappointing.

#### Forever My Love

Wait! That's it? I can't even rate this it is so short. I'm not even sure it can be classified a novella. 'Sixth Sense' type synopsis maybe?

#### Moonlit Dream

3.5/5

This one was better. Good plot. Started to get into the characters, but it was a pretty short novella to fully fall in love with them. Good back story on Ming and Jason. Kudos to the author for the lack of editing errors. Thank you! If this had been just a bit longer to get more into how Jason has magic and give the characters just a little more depth I would have rated it higher. Overall, enjoyable short story.

#### Marshall of Hel Dorado

Before I start the book I have to say I love the title. Very funny & good play of words with a John Wayne classic.

4.5/5

Great plot with an interesting mix of supernatural talents. Loved the characters and the challenges they must overcome. Great relationship between Scarlett and Sam. I would have given this one 5 stars, but about half way through the editing errors started up with words duplicated in strange places in a sentence or words left out. Overall, fantastic story and an intriguing read. I definitely want to read the next one.

#### Callum

5/5

Good plot with interesting characters. The ending seemed a little rushed. This book definitely leaves you're looking forward to the next book in this series. Fantastic relationship between Callum and Phoebe. They have instant attraction, but deny it initially. They also have obstacles to overcome that makes the relationship stronger. Overall great book.

#### How to Lose a Familiar in 10 Days

5/5

Holy freaking funny!! This was an incredibly short book, but still managed to get in a mini-plot and create great characters. Add in a lot of funny parts and I loved it. Only complaint is that I wish there was more!

#### Heavenly Lover

Strange story. Not exciting enough to keep the pages turning, but I'm pushing forward. Hoping it gets better...and I can't keep reading this one. It hasn't picked up. Still dragging on. And I'm fairly certain it's the last book in the set so I'm done.
