It was extremely thrilling and the child's character was well written and shaped.

### **Diah Didi says**

Ini buku pertama JOHN GRISHAM yang gue baca and gue punya. Gue lebih suka filmnya sih. Meskipun seperti biasa, antara buku and novel ada beberapa perbedaan yang disayangkan.

### **Meara says**

This was my first 'adult' book I ever read so I think my opinion of it was swayed based upon that. But, it was a good book. Action, suspense, strong plot, with no sex or anything which is a good quality in a book being given to a 12 year old. It's better than the movie by far so if you liked the movie, read this and if you didn't like the movie, you may like the book anyway.

this book about eleven years boy his name is Mark. Mark and his young brother witness a man try to kill his self. Before he killed his self he noticed Mark. the man caught Mark and entered him his car, and tell him that he is a lawyer of one of Mafia member. His client killed a senator and hid the body in the lawyer house. Then the lawyer killed him self. Mark and his brother run to their house and call 911, and tell them there is a dead man on the road. when the police began to investigate they need to ask Mark some questions because they find his fingerprints inside the lawyer car. Mark knew that Mafia knew about him. and if they find him they will kill him, he went to a lawyer and agree with him to defense about him and his family. The lawyer helped him to deal with police under Witnesses protection program. then after Mark and his family leave the city, his lawyer told police where the body of senator.

I have confused for the lawyer in the beginning of story. why he caught Mark and tell him the secret. He could kill him self with one know why, or where is the senator body, especially he tried to kill Mark too.
