Reagan says

The Emerald princess found a fairy that ran away because she thought that her parents didn't love her any more.

Did she help the fairy or not? Well she did. She took the fairy back to fairyland and they became best friends.

Liana says

One of my favorites in the series! Read it a billion times as a kid. Still love it, even as an adult. :)

Forgot how much I loved this one!!

Another review for the whole series. This is my favorite.

I read these books as a kid and LOVED them. Emily was my favorite, followed closely by Sabrina. The morals are simple to understand, the illustrations were cute, and I loved the girls dearly.

Because of this particular book, I became obsessed with riddles. I loved this one the most.

Dawnetta says

If your child can read at this level it would be a good book. A fun beginning fantasy series. The plot lines are simple and easily solved with not too much of the dark side of fantasy.
