The Playful Prince

Michelle M. Pillow

The Playful Prince Michelle M. Pillow

To play. Prince Quinn, royal Ambassador, isn't looking for a serious relationship. In fact, he's never even considered it. Hopping from lover to lover, he's content to enjoy himself, never taking anything but his work seriously. However, when Dr. Tori Elliot is sent to the palace to test for biological weapons, he can't seem to stay away from her. Or not to play. Tori Elliot has just finished her last assignment and is on her way to a much needed vacation. But when the Human Intelligence Agency stops her ship and demands she heads up a team on some remote planet, she knows it in her best interest not to refuse. Ever serious, she knows she's there to do a job and no matter what, she's going to act like a professional. Meeting Prince Quinn, his body pressed against another woman in the palace halls, she knows he's not the man for her. Too bad he's the Ambassador and too sexy for his own good. Fighting her desire, Tori must try to do her job while not succumbing to the playful Var prince. Rating: Contains graphic sexual content, adult language, and violence.

Pet says

[One of the things I hate more than everything is that a lot of these stories are written as if women can't control their libido. One kiss and she's gone from wanting to keep a professional distance to jumping into the sack for a night of wild sex.

And letting some woman fondle him after he's been with Tori, even thinking about making

Mariya says

Tori struggled to keep a straight face. Oh, yes, the fearsome teddy bear. Watch out for the button eyes!

THE PLAYFUL PRINCE was such a fun book and the title really describes exactly how Prince Quinn is. Playful indeed! I found myself loving how Quinn couldn't stay away from the stubborn Doctor Tori Elliott. I am loving how these books are turning out, they are quite fun and enjoyable!

"They've sent me children. I asked for scientists and they gave me children."

To me **THE PLAYFUL PRINCE** was just a fun and real quick read and also the dialogue was joyful and laugh out loud funny as well! There were just some scenes in this book I couldn't help crack a smile at, especially since the heroine is really stubborn and the hero won't stop, until he has her in his clutches! I just love books just like these kind.

"They say love is blind, but in your case I'm assuming it's also deaf, dumb, and completely brain dead."

I didn't dig the heroine, Dr. Tori Elliot in this book because she really pissed me off quite a bit. It took Prince Quinn giving Tori way too much attention and lots of seducing before Tori caved and slept with Quinn, and then it's like the end of the book and she still doesn't get with all the jealousy he has been showing, which he was jealous a lot and showed it a lot, that Quinn cared and loved her. I mean do we have to spell it out. I just don't like when the heroine is hard to get and really that slow.

"If you insist, Dr. Elliot," Quinn whispered hotly, leaning forward to nip her earlobe. "What I do to this body of yours will strictly be professional."

Prince Quinn was absolutely perfect in my eyes! I love that at the end of the book when they are finally together he lights the fireplace and throws Tori's clothes in the fire so she won't run away the next morning like she always did! Good way to make a woman stay in your bed, she won't run away in no clothes! **THE PLAYFUL PRINCE** was a cute book and I am really enjoying the series. I can't wait for the next book who is my favorite prince, Falke.

Sandra says

La serie es muy buena, buenos personajes!!

Pam Louis says

Oh wow I am now hooked on the var series. I didn't see that one happening lol. I first fell in love with and dragon side of this series in they of course hate the cat shifters making me hate them lol (blush) shows ta how good miss pillow is. I wasn't even sure I wanted to try the var side but miss pillow is such a great writer I did and wow I am hooked! This story was wonderful . If you love shifter, romance and fun this is your book.

L M says

4.5 STARS. I have owned this series for ages and reread them continuously and always enjoy it. A good fun read that takes you away from the reality of life for a short while. We have a smart scientist for the heroine this time and a playful light-hearted, fun loving, used to getting his own way Prince. I loved how Tori just didn't fall at Prince Quinn's feet like every other woman and the misunderstandings and mistakes between these two give us a great story as well as having the problems going on in the background story.

Barbara Stewart says

Quinn is it looking for a serious relationship but that's when it seems to always find you. He is a prince and I was always taught that it's a weakness to have only one woman that you should have more than one like a whole harem like his daddy. When Dr. Elliot comes to the planet to make sure there's no more radio active bombs to go off with bio chemicals in them he knows he's in trouble. He's always been a playboy never thought he neededt just one woman. Tori knows that he is a playboy. When she first meets him he was hitting on one of the women in his father's harem. He has to prove to her that she is his one and only and he doesn't want anybody but her.

Michelle McCaulley says**Beloved series**

I've read 5 of these books so far, and some of her other series. Also try the audio books I love the bar men actient.

Elizabeth Wood says**Tori & Quinn**

The mixture of a playboy and a conservative woman is a fun story to watch! Mix in a few brothers to stir the pot and viola! You have a funny, and fantastic read!

Dianne says

There was so much depth to each character, so much detail to the crisis they must avert, the book was never boring! I have to admit, the cultural barriers to be surmounted were often humorous and I will never look at Teddy Bears the same, again.

Lyndi W. says

I recommend this book for the teddy bear scene. It's at the very end and you probably wouldn't understand it without reading the rest of the book. But that one scene made the whole book worth reading.

The story itself is interesting, the threat is unique and the villain was appropriate. You get lots of back story and explanations of the Var, even though you probably wouldn't read this book without reading the previous book - so you'd already know this stuff.

Unfortunately, the development of the relationship relied heavily on tropes that I have little patience for. Others might not mind them, though.

I like this author - her books are always appropriately steamy - but at this point, they're all starting to sound alike.

Nickcole says

Rating: 4

I really enjoyed reading this story because it was playful, witty and all around funny. It lined up where the last book left off and I loved that. Tori was a good heroine because she did what she wanted and Quinn was so much fun because he started out as a playboy just to become a jealous mate. I also liked that we got to know the other brothers a little better. I can't wait for the next book in the series.

Diana Woodward says

Magic of Love

Spoil Prince and the Scientists. Poor broken prince body only works for the Scientists. Lots of humor, action, misunderstanding, hero vs heroin. This was very hard to put down, and laughing out loud at the story humor. Audible was fantastic. You could close your eyes and could see it like a movie was on.

Ellena deLeon says

This book was artfully crafted and uniquely designed to pull you into the pages where secrets and fairytales live and dreams come true for those who believe!

This extraordinary book was enchanting, enthralling and endlessly entertaining where stubbornness and determination to rise above conflict with a heart of gold and a core of steel to get to where love and happiness lives!

Daniela says

I enjoy M Pillow's writing. Light, funny fantasy about a different world and the two races on it.

Wendy says

Wonderfully witty and delightful read. It had just the right amount of action, heat and romance, just the way I like it.
