**Atonement** Terri Anne Browning  
Lessons hard learned last the longest.

Creswell Springs biggest manwhore, Raider Hannigan, one of Angel's Halo MC's most notorious members wasn't for me.

After years of him holding my heart, I had seen the harsh light of my reality.

Raider would never want me or ... love me.

With a firm resolve to move on, I wouldn't give in.

Only one moment of weakness came back to bite me. Now I had a secret.

No one needed to know the depths of it all, especially not him.

### Neringa Neringiukas says

Atonement is my fav book in the series. I was into it from the first page and finished in one go. It has practically everything a good story needs. I loved both Raider and Quinn. Though, a couple of times I wanted to kick his stubborn ass for trying to fight his feelings for so long. But when he finally opened himself to his emotions it was beautiful and you can't help but love him. And I'm glad, that Quinn despite being 'a good girl', as more then one person pegged her, is not a pushover and have a strong spine. I loved that Quinn didn't let Raider in easily, when he pulled his head out of his ass. She made him sweat for it.

The only thing I'm grumpy about is Quinn sisters. I would so loved if someone put them in theirs place. Or punched them, or something. They got too easily after tormenting Quinn for so long.

I so can't wait for next book! First, because Angels Halo has another fight on their hands. Something really heartbreakingly happened, that hurt all off the club. I still can't believe Terri did that! I so didn't saw that coming. I so, hope AH will strike back and soon, to show what happens when you touch theirs family. Second, there are two potential couples for next book. I'm not sure which I want first. Both has lots to offer. But the funny thing, both couples are in a way related to the same AH enemy. How that will go down, I can't wait to find out!

[Most disgusting thing the hero fucks with the three sisters of the heroin. They are the worst and nasty kind of clubwhore. Yuck!

He fucks anything that moves and breathes.

And fuck our heroine without a condom.

This story was a big disappointment.

This plot where the hero is a manwhore and our heroine a Virgin who is waiting and loving from afar her whole life already tired the reader.

He needed to disinfect his body wit

Beautifully Written

This will grab you from the start and you will not want to put it down, it was also very emotional for me – if you’re like me grab your tissues. What happens when you love someone and they don’t return that love – Quinn finally comes to the conclusion that Raider doesn’t love her and makes plans to leave once she has the money for her to live on, while she finds a place and another job. Taking on a second job at the strip club is how she thinks she can make fast money, and since she has no skills other than as a waitress she goes for it. Let’s just say there were a couple of not so happy brothers once they found out what she was doing. Hoping, for more in this series, I need to find out what happens with Kelli.

I really don't know whether I liked this book or not. When I finished this book I was just confused.

I really wanted to love Raider but for some reason I just couldn't and Quinn's emotions changed so much it was like being on a rollercoaster. I also just didn't get her relationship with Colt I felt like they should have been the real couple.

I am still happy I read it because it introduced new characters which I am sure will make an impact in the future books.

Happy Reading x

I think this is the story we have all been looking forward to. While I loved reading it I was kind of disappointed that it ended rather abruptly which shouldn't be shocking because Terri has always left this series more open ended at the end of the book.

I felt bad for Quinn because she is finally trying to move on in her life when Raider ropes her in again. And if I was her I'd be rather pissed at what all he did to her and might have made a few demands regarding her sisters before I started anything with him.

Overall, I wasn't disappointed with Quinn and Raiders story and was rather shocked with Kelli's upcoming role. I'm excited to see where this all leads!

He had sex with three of her sisters who he knew hated her.....that's all that was in my mind till the end!

I feel like I'm cheating on Hawk & Gracie when I say this but... I think this is my new FAVORITE book of the series! It had everything I love in a book: angst, danger, sexual tension, surprises, a bad boy Hero & a

strong heroine. Couldn't. Put. It. Down.

Raider... You reformed manwh\*re, you. You made me flip my kindle the bird & roll my eyes multiple times BUT... you also made me grin ear-to-ear & swoon like a giggly school girl. I hate that it took you so long to see the special gift that was right in front of you for years but I was thrilled to bits when you pulled your head out of your a\*\* & took notice!

Quinn... You were even stronger than I'd imagined you'd be & I LOVED it! You rocked more than just socks at your new second job (you go, girl!), you managed to stay alive & sane, even after growing up with three troll b\*tches (you're amazing!) & you have such a kind soul. Yes, being an old lady might be scary at times but your guys' future looks so bright!

I only wish it was longer & had a couple more sex scenes in it! Oh, & I REALLY wish that something more would've happened with Quinn's nasty-a\*\* sisters. They should've been kicked out of the club or met their demise in the explosive "incident" at the end of the book! Hate that Quinn will still have to see those hussies on an almost daily basis!!

Very much looking forward to future books in this series! Colt & Kelli, Matt & Aurora, Italian mobsters & maybe some babies, please? #agirlcandream

yes well, there was a lot not to like but overall i still enjoyed it. it did fit in well with the rest of the series and i could have really liked Raider and Quinn except i really hated that first sex scene and it threw the whole book off .. such a pity because Raider was one of my favourite characters coming into this book - also there were some time line issues that didn't hold true, so ... sadly, it was enough to bring my rating down

15.10.18 fell back into this one as I was looking for something to listen to in the car and then of course started and couldn't stop and flipped right through books 1-5. super fast reads that I enjoy though these guys are really full of themselves, but then that is what is expected in these type of books .. also, I must say this is my least favourite of the series

Def not touching this one...

I've not read this series but from the blurb I can guess that the hs been hot for the H for a long time and obviously he's not reciprocated BUT has had sex with her sisters (sister thing not in the blurb BUT it's been confirmed by people who have read the series...)

Sorry buddy...there's no redemption for you!

Bye Felicia!

hated the abrupt ending but it made me think of the sopranos. obviously more is to come with the series and the plot thickens with roxy and Matt, the Italians and of course kelli.

### **Mary Moore says**

Every series has one character that you obsess over and look for any mention of them. In this one, for me, it was Raider from book 1. When his book was announced, I jumped to pre order it and made sure people knew that at 12.03am I wouldn't exist for a while. I'd built Raiders book up in my mind and honestly the desperation to read it was nuts.....and bloody hell did TAB deliver.

I had guessed what the result of Quinn and Raiders night together in the blurb would be, but anything else that I had going around in my mind was wrong. REALLY wrong.

I LOVED that Raider didn't just get forgiven after all of the years of hell he'd put Quinn through. His remorse, his feelings, his torture was all there. Quinn wasn't the quiet door mat that I'd worried she'd be either. I'll admit, that part I was dreading, but reading it I was squealing because he had to work HARD for her forgiveness and her spunky little sassy self was just amazing.

And here's a spoiler and I'm sorry but I literally yelled this at my best friend who still had hours to wait before she could read it - their first time, the arrogant guy who had more experience than most - SUCKED! He legit was awful! How poetic can you get? He's thrown his life in her face for years, he prided himself on his lasting powers and he freaking sucked. Omg I loved it.

I didn't expect any of the ending or the twists and turns. When the pivotal moment for them, the one that makes every feeling fall into place, at the end happened I dropped my kindle. I've reread it 5x and that moment still shocks me. I never ever saw that coming and omg it's heartbreaking! And Matt's little secret...and Kelli's! Actually I'd guessed Kelli's and I have a feeling that what happened at the end will change what she's doing but don't quote me on that.

As I say, I had built this up in my mind and was counting down the days for its release. Heck I even had daily alerts reminding me. TAB has written her best book yet. I've loved them all, but this one was outstanding. I want to give it more than 5\*'s but GR won't let me. If they read the book they'd understand and increase the stars available rating. The plot is tight, the story out of this world amazing, it's realistic and my Raider got the story he deserved. If you haven't read the series yet you have to. HAVE to.

In the history of awesome books, this one would join the literary greats. I honestly can't put into word how much I loved it.

I am writing these last 5 reviews of this series all together because i went ahead buying book 3-7, i am not

sad that i did buy them all but i am truly shocked how they did change, the writing change, language, it all changed it is like they were written by a totally different author, shocked is how i felt??! (best way i can describe it is how i felt when Faith Hill's music changed, if you have ever listened to her beginning albums, she was so great, but then hollywood came in and changed her style, her hair, her voice ... not that i don't appreciate her new style but she has lost a lot of herself. same with Carrie Underwood, the girl next door, she is gone ... i wish artists, authors, they all would remember where they came from, keep it ... i mean change is normal ...but don't lose who u r. a lot fo folks loved that person, u know??!) ... i enjoyed book 1 &2 so much ... for a person who has read them all now i can say what the heck ...that was a 180 turn (twist, whatever u wanna call it??!) not to the point i would quit reading the series ...but the lady who did write book 1 & 2 ... totally changed in book 3 through 7??! language changed, harsher ways throughout ... romance and all. now don't get me wrong ...but for a person who read all sorts of romance and MC romances ...it was wild to see ... i wonder who did tell the author or was it her editor or what who recommended a change?? i was so happy with the way it was ... it was fun to see an author taking a more tamer way ... but i guess others prefer it .... my favorite biker is James (Spider) but that is always how it works ... one part is how these future books jump around ... from story to story ... even though u see the name at the top of the chapter ... hope your brain and jump as fast as the author does??! follow along??! I appreciate how the ladies of the MC bikers do group together a lot ... ladies need to stick together more.

I don't think Terri Anne has written a book that I haven't fallen in love with. From her rocker series to her bikers I love them all. Hope you all enjoy this book as much as I have. Thanks.

Existem algumas coisas que eu não aceito nem nesses livros de MC.  
E o jeito que o Raider tratou a mocinha na primeira vez dela é uma delas.  
Isso (1) estragou o resto do livro pra mim e (2) eles foram o pior casal dessa série.  
E pena porque tinham outras coisas a serem trabalhadas nesse livro, principalmente com a mocinha. :(
