Today he's a member of Elite Force Security, but sixteen years ago he belonged to one of the wealthiest families in Connecticut. After his father's conviction for investment fraud, Connor Anderson left behind his privileged life and everyone associated with it, including Becca André. All that changes the morning she sits down next to him inside a busy D.C. café and asks him to lunch.

For the past four years, Becca has worked in Washington, D.C., where the greatest physical threat she faces each day is a paper cut. However, everything changes when Becca's stepsister goes missing and someone tries to kidnap her. Now, the only person she can rely on is her long-ago summer fling, Connor. A man she never forgot and the one she's falling in love with again.

Despite the women who've passed through his life, Becca is the only one Connor's ever truly cared about. And he'll do anything to keep her safe.

But will it be enough?

#### **Wow what a brilliant start to a series**

Wow what a brilliant from Christina and start to a series. I didn't know what to expect with Connor's story from what you read about him in Protecting the Billionaire he's a cocky bigheaded jerk sometimes with Rock lol but with Becca he is the epitome of a gentleman and a bigheaded jerk too. Loved this story can't wait for more from this series

#### **Great protection**

I was extremely happy to read a love and protection book that did not go into graphic sex scenes. I loved that the two main characters played this roles well and would recommend this book, especially to young women so that they can register in their minds and bodies how important feelings are in the prevention of horrible happenings. Too many naive women these days play very uncertain roles in their own lives and cannot handle situations. Seeking help is paramount! The protector in this story is wise beyond years. This may not be the premise of writing this story but it sure speaks to me in that way

What a Great Beginning to the New Series - Elite Force Security

Connor is with the Elite Force when he runs into Becca in a coffee shop. She is his childhood crush so they enjoy some catchup time.

Becca's stepsister Cassidy lives with her and lately Becca has been catching her lying to her. Then suddenly Cassidy is missing and someone is trying to kidnap Becca. Whoever this is thinks Becca can tell them how to find Cassidy.

This action filled story will keep you on the edge of your seat.

### **Born to Protect**

This is a great beginning to the Elite Force Security series with Connor, from Elite Force, reconnecting with his childhood crush Becca. He had not seen her in years and their last time together was the night that his father was arrested for the ponzi scheme he had been running but got caught. She works in Washington for her uncle, the senator. She lives with her cousin, Kassady. Something was going on with her cousin because she kept catching her in lies. Becca ran into Connor at a coffee shop near her work and they set up a date to reminisce. They never expected to reconnect where they left off but the sparks were still alive. Then the story gets exciting as the company where her cousin works reports her missing and hired the Elite Force Security company to find her. Becca was with Connor when he received the call and then someone tries to kidnap Becca. They were trying to use Becca to get at her cousin but Connor was not letting anything happen to her. The Elite Force protects her as well as assigning Connor as her guard as he takes her to a safe house. He had to kill hired assassins to keep her safe before the police arrive. This story was action packed as they get to the bottom of her cousin's disappearance and Kassidy is arrested along with her partner by the Elite Force, Police and the FBI. In the meantime Becca and Connor realize they have fallen in love and get their happily ever after at the end. I highly recommend this new series and am looking forward to the next exciting romantic suspenseful release.
