## **Deceived (Frontier Reapers MC Book 1) Brook Wilder**

He'll chain me to the bed and ride me until I'm carrying his baby.

**Ten years ago, he ripped my family apart.**

**I never forgave him, but I also never forgot him.**

**I never thought I'd ever see him again.**

**And I definitely never thought I'd be pregnant with his baby.**

## **Laura**

I swore I'd forget this place and never come back.

But most importantly, I swore I'd forget all about him.

Brendan Morrison.

My brother's best friend who got him killed.

My reason for cutting all ties with this place.

The unbidden subject in my darkest and most forbidden dreams.

The years have changed him.

He's rougher than I remember—more dangerous, and sexier than sin.

I know that I can only get hurt again if I let him too close.

But I can't help myself when I'm pressed against his hard body.

When his whispers hang hot against my ear.

Reminding me of a truth that ten years can't hide:

This time, he won't let me go.

## **Brendan**

Ten years ago, I destroyed Laura's family.

For ten years, I carried the guilt with me.

All I wanted was a chance to make things right with her.

When I heard that she was back, I knew this could be my last chance.

I expected her to be cold, or angry.

What I didn't expect was a spitfire not afraid of giving me a piece of her mind.

Ten years have changed her in more ways than I could ever imagine.

One thing's for sure: **she's not just my best friend's little sister anymore.**

I can't help thinking about her curves. I can't help imagining her moaning beneath me.

I'm supposed to keep my hands off her—I'm supposed to keep her safe.

Instead, I'm going to chain her to my bed, and ride her until she's carrying my kid.

**DECEIVED is a steamy standalone second chance secret baby romance between an outlaw biker and his best friend's little sister. Warning: contains violence, language, dark themes, and STEAMY intimate moments.**

## **From Reader Review Deceived (Frontier Reapers MC Book 1) for online ebook**

### **Pat says**

This MC Book packed a real punch with the well written and well planned plot that captured my attention from the very first page! The characters, Laura and Brendan, were so strongly written and their chemistry was off the charts that I couldn't put this book down until I finished reading the very last page!

---

### **RaeShawn says**

#### **Had potential**

This book was okay. What miss the mark for me with this book was the narration from Brenden's point of view. It never felt like a male speaking or how I would perceive a biker to talk. The writing was the same for both characters which made this book unbelievable to me. I also did not appreciate how fast the book ended. The book was slow in the beginning then super congested towards the end.

---

### **Jennifer Tucker says**

#### **The second chance romance for Laura and Brendan**

After tragedy tears her family apart, it is a decade until Laura and Brendan see each other. With danger from a rival MC and a baby on the way the action is non stop in Deceived.

---

### **Julianne Macneil says**

i read this book as part of an arc program. This is the first book in the Frontier Reapers MC series and is about Laura and Brendan. Laura returns to Paradise to deal with her father's death only to find her father's MC having a party in his house. Laura had left when her mother divorced her father after her older brother was killed. Brendan was best friends with Laura's brother and was with him when he died and Laura's mother always blamed Brendan for his death. When Laura leaves her father's house, she is followed and someone tries to kill her. Laura calls her father's phone and Brendan hears her screaming, so he sets out to find her. Brendan vows to protect Laura and find out why someone wants her dead. Brendan learns it is a rival MC and they set out to keep her safe. I liked this book. I thought Laura and Brendan were good together and i think Laura always knew if her father was so close to Brendan after her brother died, there was more than what she was told. This is a good start to a new series.

**Peggy says**

**Great, tight story**

I enjoyed reading Brook Wilder for the first time. Well written with a great build of characters, this is full of passion and some tears. I'm moving on to the second book.

### **annette kraft says**

#### **Fast read**

Laura's father is the president of the Frontier Reapers motorcycle club. He died and Laura came home to settle his debt and move on. That's until she sees Brendan the man she thought she hated but ended up loving. The unexpected happens and lives change. Can these two beat the odds and be together? Read now and find out!!

---

### **Peggy says**

Brendan and Laurie, reunite when Laurie returns to her hometown to bury her father and close up his home. For ten years Laurie and her mother have carried a grudge against Brendan. But now Brendan needs to protect Laurie from the wrath of a rival MC club. Things get steamy between the two quickly, secrets are revealed hearts are healed. This book moves quickly and holds your interest from the first to the last page. I'm anxious to read the next book in the series and find out who the mysterious redhead is!

---

### **Janice Somers says**

A new MC book one. I have read and enjoyed another MC story. I really loved this one. The Characters are well written and the storyline held my attention until the end.

---

### **Patricia Hoffstaetter says**

This is a splendid MC romance and an enjoyable read. The plot is suspenseful with unexpected occurrences, and well-written with strong, complex characters.

It is about: Ten years ago, a MC rider (Brendan) made a error in judgment which caused the death of his best friend(Aaron), now the outspoken defiant sister (Laura) is back and Brendan is determined to claim her regardless of who or what stands in his way.

There is: MC clubs, MC riders, a determined man, a defiant woman, intrigue, suspense, some twists & turns, action, danger, enemies, memories, confrontations, hatred, attempted murder, rivalry, animosity, anger, threats, verbal conflict, abduction, conflict, acceptance, trust, happiness, love, a little steam and a satisfying end.

I would recommend this MC romance to people who like to read this genre.

---

### **Djg says**

It was interesting and enjoyable. A little too much going on for how short it was. The villian was cartoonish and if the danger plot had been edited I think a little more focus on the relationship would have upped it by a star. Set up is there for the next book.

---

### **Phyllis Wolford says**

They've known each other for years, then a tragedy torn them and her family apart. For ten years, they tried to forget each other and succeeded for the most part, but couldn't. She comes back for her fathers funeral, and they meet again, and the sparks fly both sexually and antagonistically. When the old trouble comes back after, he tries to protect her, the MC, and his family. They soon realize that not everything is as it seems both in the present and the past. They figure out that the old feelings that they had for each other have grown into love.

---

### **Deborah Willborn says**

Wow just another great book! When two people come back together with circumstances that lead to the death of a loved one how do you cope. Even if that someone was your brothers best friend and the one who got him killed.... Things will be revealed as to how and why and you will find out how the coping will begin and a union will be brought together. So grab your copy expect to get choked up and enjoy the ride.

---

### **E Loprete says**

I received this book for an honest review. A great MC Book by Brook Wilder. This story had danger, violence and steamy scenes. The story was well written and the plot will hold your attention from beginning to end. Brendan and Laura's characters of an outlaw biker and his best friends sister had great chemistry as these two come together again after years apart. Can they overcome the past? This is a must read and I highly recommend this book. Can't wait for book 2.

---

### **Rachel Talavera says**

#### **New to me**

This is a new to me author and the book was okay. Easy read a little far fetched timeline wise. Predictable in my opinion. But overall not a bad book.
