**Destined Fire** Tessa Cole

**One reckless move could cost her everything...**

It used to be easy to pass as human beat cop Essie Shaw. Lay low, don't draw too much attention. Now I'm hiding in plain sight, working for the JP, praying my teammates won't notice my non-human magical quirks and figure out I'm a nephilim.

As the magic clawing within me threatens to reveal me, my complicated emotional bond with the team grows: Gideon, whose cold, professional distance cuts me; Jacob, whose mixed messages confuse me; Kol, whose friendship warms me; and Marcus, whose wolf could turn on me.

Thanks to the messy public disasters we've barely survived, the Head Office sends in the big guns: Cassius, who'd love nothing more than to rip his brother Gideon's mating brand from my arm and kick me off the team.

So, no pressure in cracking a ring of vicious magical drug smugglers. But when things go sideways, my magic threatens to expose my secret and cost me the only place where I've ever belonged. With the men my very bones tell me are mine.

Destined Fire is the third book in the Nephilim's Destiny series, an action-packed full-length paranormal romance with four irresistible guys and a kick-ass heroine who doesn't have to choose.

# From Reader Review Destined Fire for online ebook

**Namera [The Literary Invertebrate] says**

## ONE LINE REVIEW

An improvement over the previous instalments, but I still find it crazy that Essie and her men really know so little about each other - she doesn't know about anybody's family, past life, NOTHING.

---

**T. says**

Destined Fire is book 3 of the Nephilim's Destiny series. Just like potato chips, you can't consume just one: I gorged three books in two days. This third book gifted readers with a few nice plot twists and a great storyline--the introduction of Cassius added some great tension. Lots of action, excellent character and relationship development.

## **The Cliffhanger!**

I am dying right now.. waited up all night to read this and finished at 5:30am. This book did not disappoint me in the least! I'm so glad Gideon finally got his crap together.. and everything was looking amazing until that ending.. I won't say why so I don't spoil it but I was hoping everyone would be more receptive to the idea and that definitely doesn't appear to be the case. All my heart strings were pulled in this book and I'm literally dying for the next one. Ugh I need some sleep.

---

**Shy says**

## **Addicting BUT.....**

Ugh! So on my last review I said there was no cliff hangers well I had to eat my words because this book does! I'm can't wait for the next book.

They finally know her big secret and just before she was trying to make it work with everyone. Damn. More drama and romance.

### **Destined to break my heart!**

I needed to take the day to actually be able to write this review. This book tore me up at the end. The author has painstakingly built relationships between the protagonist and the men, but the secret she's been hiding from them is just destined to tear them apart. I was biting my nails, just waiting for the big reveal. I'm so happy the turnover between books in this series is relatively short or I think my heart would be dried up and useless, and I would be a phantom of my former self. I've become so I've vested in this storyline, and I've been chomping at the bit for more. Yes, it ends on a bit of a cliffy, but if you've ever read a series before, well, what do you expect? It keeps us invested and keeps the juices flowing for the next installment. It's harder for me to invest in an angelic story, but I must say, the plot, the characters, and the non-stop action keep this story fresh and I'm sold on these freaking Sups! Just one note, I can't help thinking about it throughout these last books...please give this girl a toothbrush and a hot shower, please? If you're going to break her heart and mine, will you at least let her get clean before the heart stomping commences? Ha! Regardless, if you give her a well deserved breather or not, I'm sold on this world you've created and I'll still love and hate all the dirty future action you have in store! Can't wait for more!

---

## **Irestia says**

So much of this was just more of the same repeated internal dilemmas from the previous books, so it felt like nothing new was happening. Even though some things changed, I didn't really feel like the story was making progress until the huge cliffhanger at the end, which was pretty frustrating. Full review to come.

### **Like walking on a tight rop**

So suspenseful and action packed. I can't get enough of this series. Totally captures you and hard to put down. You can feel the desperation, the love and the fierce protectiveness Essie has for the team. Even though her relationship with Kol is still unknown. That ending is definitely the most hold your breath cliffhanger ever.

---

## **Tiffany says**

### **Good read**

Poor Esse has had it rough. She is living with a huge secret and when it gets out, I can see all hell breaking loose. I can't wait to see how things work out in the next one.

---

## **Heather Gilbert says**

### **4.5 - ku. Awesome series!**

Book 3 took the events of the first 2 and slammed it into overdrive! Not only is Essie still struggling to contain her ever growing powers while still hiding her heritage, she is bouncing along the threads of emotional and spiritual bonds the likes angels literally sing about.

Pros:

- well written
- completely new concepts on familiar themes
- Essie, she's awesome
- Building plot crescendo

Cons:

- a few minor editing issues, did not detract
  - Book 4 release date not set (at this writing) - can you tell I'm impatient??? ?????
- 

## **Lillie I Cross says**

### **Love this series**

This one of my cannot put down books. Trust issues, love, fate, destined mates. Always something going on. I cant wait to see what happens now that the secret is out.

---

## **Shandie Bell says**

### **So much love**

Wow, love reading this series. I love the guys and essie their dynamic is well crafted. The world the author has created sucked me right in, I read the 3 books of this series in 24 hours and am patiently waiting for the next one.

---

## **Abi says**

I seriously could not stop reading this book! Let's just say that Jacob and Gideon finally join the harem, and it is wonderful! Also, one heck of a cliffhanger, which sucks, but the next book releases in nine days. I swooned over Kol (he's won me over) and his date (more or less) with Essie. Essie's powers are behaving weirdly at the moment, which I'm curious about, as well. I liked the tension Cassius added to the book. He gave the guys and Essie a bit of a push in their relationships, and to Essie on her own. I can't wait for book 4, because shit has really hit the fan, and I am down for it! I mean, it's totally going to be painful for Essie and her guys (betrayal and all that) but fun for me! 5 stars.

---

**Jennifer says**

id have gave this book a 5 but the ending made me scream at my computer monitor.... And she keeps talking about how weak she is and that shes a human but she knows shes not? the ending made me so sad because no matter what if these men love her like they say they do then they should except her just the way she is shes been in so much pain and now i have no idea whats gonna happen next!!!!

---

**LaneyDay says****Just keeps getting better!**

Loved this! Read it in one sitting. The ending leaves you on a Huge cliffhanger though. And February seems really far off right now.

Great series I'm definitely continuing on with!

---

**Airwreckah says****Good**

The repeated waffling about “oh im a weak human, blah blah blah” grated on the nerves. Because she knows shes not human. At a certain point, three books in, just get over it and find a new source of angst. Not revealing her powers or fear of being discovered and killed was more interesting of a motivation that got sidelined in all the wussy “ im weak and a liability and ill get them killed” whining.
