**El príncipe roto** Erin Watt , Tamara Arteaga (Translator) , Yuliss M. Priego (Translator)

Secretos. Traición. Enemigos.

El mundo de los Royal se viene abajo.

Reed Royal lo tiene todo: es guapo, está forrado y es popular. Las chicas hacen cola para salir con él, y los chicos sueñan con ser él. Pero a Reed solo le importa su familia... hasta que Ella Harper llega a su vida.

El odio que siente hacia la joven se convertirá en un sentimiento completamente distinto... Reed quiere a Ella. La necesita. Sin embargo, un estúpido error hará que todo su mundo se desmorone. Ella no quiere estar con Reed. Dice que se destruirán el uno al otro. Y tal vez tenga razón...

SI REED QUIERE RECUPERAR A SU PRINCESA, TENDRÁ QUE DEMOSTRAR QUE ES DIGNO DE ELLA.

Christy says

5 stars

These Royals will ruin you...

?The saying is TRUE! These Royals will ruin you and I have been Royally Ruined, my friends. I've been trying to write this review for about 2-3 weeks now and every time I start it I can't get past being ruined. After I finished *Paper Princess* earlier this year, I had the biggest book hangover ever. That cliffhanger about killed me and I was dying to see what happened. When *Broken Prince* showed up on my kindle, I couldn't wait to read it. I had to know what happened. I thought I was ruined after the first books cliffhanger, but let me tell you... this books cliffhanger. OMG. I can't even think about this craziness. I don't know how I'll survive the 3 months till we get the next book in this series!

Reed, the destroyer. It would be a cool nickname if it wasn't my life and hers that I'm taking down.

After book one, it was pretty obvious that Reed screwed up everything. Things between Reed and Ella are pretty messed up. At the end of *Paper Princess* we are left with Reed making an colossal error in judgment and Ella skipping town. Things in the Royal house aren't good. With Ella gone, tension is at an all time high between the Royal brood.

I'm really hesitant to talk much about this story. I want readers to go in and be shocked by all the revelations and storylines just like I did, so I'll leave out anymore about the plot of the book. Just know it takes a few wild and crazy turns and many things I didn't expect to see happening did.

It was so great to see the Royal family again. I love all these brothers. Even the ones I wasn't so sure of have grown on me. My favorite by far is still Easton. There is something about him I just adore. I love his relationship with Ella and how he cares for her so much, in a brotherly sort of way. Then there is Reed. Reed Royal. Oh, Reed. The first book, I didn't know what to think about Reed. I loved Reed. Some of the time, I hated Reed. Going into *Broken Prince* I wasn't sure how I'd feel about him. After finishing, there is only one way to feel. You will love Reed Royal. I can't see anyone not loving him. Ella is one tough cookie. I loved how she handled all the situations she was put in. Her life is so different now than it used to be, and she really is a great heroine. She handles everything with grace and keeps things together.

What else can I say about these books? They are by far the most **addictive** books I have read in a long time. When you pick them up, you will get sucked into this Royal world and not know what hit you. I love the writing, the characters, the story line, the shocks, and surprises. Once you pick up this book, be prepared to stay up all hours of the night finishing it. You won't want to put it down!

This book will jack you up in the best way possible. My heart was beating fast, my palms were sweating and I was on pins and needles while reading. This is by far one of the best series I've read this year. If you're looking for an all consuming read, pick this series up!

**5 STARS**

*SPOILER FREE*

*My instincts had screamed at me that she was trouble. My instincts were wrong. She wasn't trouble. I was. Still Am.  
Reed, the destroyer.*

Oh my god.

Oh my god.

Oh mylanta!

I swear to all that is holy, that cliffhanger gave me heartburn, anxiety, and a massive case of the eye ticks. How the hell am I supposed to keep sane until OCTOBER? HOW I ASK YOU?!!!!!! \*babbles incoherently\*

*He told me to stay away. He told me I didn't belong. If only I'd listened to him.*

This trilogy is the worst sort of book crack and I hope it never ends. And this is coming from a self professed trilogy avoider....because attention span of a rodent! But I am beyond hooked and can't wait for more! Since this review will be entirely spoiler free, allow me to sum it up in the only way I can...an imaginary conversation I had with Erin Watt in my head as I was reading this. That's the best I got and I'm not sorry. You're lucky my brain is working enough for even this....

**Me:** So Erin, you left readers on quite the cliffy last time. Are you even a little sorry for making us all suffer the way that you have?

**Erin:**

**Me:** Right then. Moving on. So Broken Prince picks up immediately where Paper Princess ended. Ella is on the run and Reed is dealing with the fallout. Speaking of Reed and what took place at the end of Paper Princes...

**Erin:**

**Me:** Ah. Ok. \*backs away slowly\* We won't talk about that then...

Let's talk about the Royals. There's quite a few revelations that happen with this family in the book and my mind is still reeling from it. Who knew there were that many skeletons hidden in their closets. The Royal men are all kinds of screwed up and I love it!

**Erin:**

**Me:** True. True. Though not for lack of trying, eh? Especially Easton...

**Erin:** *Whatever girl takes on Easton is going to have to hold a whip in one hand and a pistol in the other.*

**Me:** Well look at you, quoting from your own book. Yeah, Easton really did go off the rails in this one, didn't he? \*pervy sigh\* But I digress. Can I at least tell readers if Reed grovels for everything that happened?

**Erin:**

**Me:** OK! OK! No spoilers! Sheesh! No need to get violent! And will you put that shot gun away already? I swear I won't say anything.

But admit it. You're actually a closet sadist and get off on making your readers suffer in such a way?

**Erin:**

**Me:** I'll take that as a yes then. Now Broken Prince is told in dual POVs from Ella and Reed, any hints what Twisted Palace will bring?

**Erin:**

**Me:** And the long answer?

**Erin:**

**Me:** I really should have seen that coming.  
Anyway, let's talk about Brooke because that woman is one twisted little b...

**Erin:**

**Me:** Sure. Right. I supposed anything goes in her world and trying to get what she wants.

Now onto the important business, if I offer up both my ovaries and my first born, any chance I can get my hands on Twisted Palace now?

**Erin:**

**Me:** Well, can't blame a girl for trying.  
There's one crazy as heck cliffy here that I never saw coming in a million years. I'm talking soap opera proportion sort of cliffy. Holy hell it was utterly delicious! Will you take mercy and give us just one teenie tiny clue about what it is?

**Erin:**

**Me:** That's rough. You really are a sadist.

Well, thanks for chatting with me while I rock myself in a dark corner at the institution that I was quickly rolled away to after finishing reading. I should have seen the fallout coming considering the state of drooling anticipation you left me with the first book, but alas it is what it is. I'm gonna go babble incoherently some more.

\*\*\*\*\*

And there you have it, folks. Broken Prince in a nutshell.

But if you are curious about spoilers and what happened with Reed, I'll take pity on you...

(view spoiler)

Broken Prince is everything I had hoped it would be and so much more! I love the way the authors develop each and every character throughout these books. Ella is coming into her own more and more. I absolutely love the backbone on the girl. And who thought it was possible for me to fall even harder for Reed? Because holy hell did! SO. FREAKING. HARD. This is one twisted tale filled with secrets, betrayals and redemption and I'm loving every single addicting page of it! Now if you'll excuse me, I'm off to rock myself back in my corner until Twisted Palace releases.

5 BRILLIANT STARS

Omg what I just read??? There are no words to express how much I loved it!! SERIOUSLY I haven't read a book before like this!The story is original and many things happening in this one!!!I have to calm down first and then write a little bit more about the story.But I don't want to give anything!!Love these boys they have stole my heart!!And Ella one of the best heroine I have ever read about!!All of them make the story unique!And the ending...wow omg I want the next book now!!  
I'm super excited for the next book!!!

\*An advance reading copy was generously provided to me in exchange for an honest review.\*

## Candace says

After finishing 'Paper Princess', I dived right into 'Broken Prince'. I had to know what would become of Ella and all of the Royals after that ending. Talk about a cliffhanger!

I was pulling my hair out with the way the first book ended. Luckily, I didn't start this series until all three books were out, so I didn't have to wait for long. I feel for my friends that had to live with that anxious anticipation for long.

Picking up where 'Paper Princess' left off, Ella is on the run. This time around, the entire Royal household is furious with Reed. They'd grown to love Ella as much as they had originally despised her and nobody is happy to have her gone. No one feels her absence more than Reed, who knows that he is to blame for her disappearance. As angry as everyone is with him, it could never compare to the anger he feels toward himself.

In comparison to the first book, 'Broken Prince' is told primarily from Reed's POV. It was nice to get his viewpoint and fitting for the situation. After everything he did in the first book, I needed validation of his feelings.

While 'Paper Princess' highlighted the unity of the Royal brothers, 'Broken Prince' spotlights their decline. Easton is falling deeper into his dangerous addictions. The twins have kind of broken away from their other brothers. Reed has stopped caring about school or anything other than finding Ella.

Meanwhile, the school has turned into a war zone. Without the Royal brothers to keep things in check, Jordan and the other bullies have unleashed a reign of terror on anyone they consider beneath them. In her absence, the rumors about Ella have been vicious and plentiful, ensuring that she'll have her work cut out for her upon her return.

Eventually, Callum is able to locate Ella and bring her home. Although she's not happy about it, she has to admit that she had begun to think of the Royals as her family and their home as hers. While she is not looking forward to facing Reed after his betrayal, she realizes that her actions have affected others as well.

Ella has to make amends for the pain that she caused when she left abruptly. Aside from Easton, Val was also hurt by her lack of communication. Not to mention that she up and left her bakery job without any notice.

Just as Ella has some apologizing to do, Reed is doing his best to work his way back into Ella's good graces. As determined as he is to win her over again, she seems equally determined not to be fooled by him again. His betrayal is not something that she's willing to easily forgive or forget.

Like the first book, 'Broken Prince' ends with another huge cliffhanger. This book has several twists and turns that keep this story interesting. I never knew what would happen next, but I couldn't wait to see.

Finishing this book, I immediately started 'Twisted Palace'. This series has consumed me. I cannot get enough of the Royals and the dysfunction that surrounds them. They're my latest guilty pleasure!

---

## **Val Shameless ?? Steamy Reads ?? says**

**All I can say is....**

**Hahahahahahahahahahaha...**

Oh le giggle.

This book continues the soap opera that is this series, although with a little less...magnetism than book one possessed.

Everything about this book is geared to make us lose our soap operatic shit and do the old:

Followed by the classic:

With a side of this:

Now, while a part of me finds all this fabricated drama silly.

And fucking hilarious, quite frankly.

I am at heart but a small child...

...and thus endlessly fascinated by shiny objects.

And train wrecks.

Can't forget the train wrecks....

So, of COURSE I will be checking out the catastrophe that I'm sure book three will prove to be.

## Pearl Angeli says

*"He told me to stay away.*

*He told me I didn't belong.*

*If only I'd listened to him."*

### 5 Stars!

I've been warned, but I didn't listen and now I'm royally ruined and in dire need of the third book. Hats off to these amazing authors Elle Kennedy and Jen Frederick A.K.A. **Erin Watt** for this brilliant sequel!

I cannot properly formulate a thought, but this sequel was done in a very classy fashion and I absolutely loved it!

Broken Prince begins when **Reed Royal** searched for **Ella Harper** after she left the Royal mansion. It took the Royal family two weeks to get her back. When their girl was finally home thanks to Callum Royal's endless connections, things started to become more interesting, or rather, more *twisted*, in the Royal house. This time, Brooke (the witch in **Paper Princess**), is the one in control because she has the upper hand. She manipulated Reed through her stupid blackmail scheme. Meanwhile, Ella's love-hate feelings toward Reed and her growing affection to the Royal family also confused her. Secrets and revelations soon came out bit by bit which made Ella's stay in the mansion all the more dramatic.

*"She wants me to know it's over, but we both know it's not."*

I just loved how intoxicating this sequel was for me. There was absolutely nothing that I disliked. The plot was very impressive and the pacing was fast it kept me gripped from start to finish. It was also enriched with character development. In Paper Princess, Reed was so hesitant to fight for Ella and show her how he felt, but in this book, he gave it all. I loved how he fight those bullies at Astor Park just to prove a point to never mess with 'his girl'. HIS GIRL.

*"From before we even met, she was mine and I was hers. I fought it too long, but I'm giving in now. I'm all in now."*

And as usual, Ella was badass. This girl doesn't stop impressing me with her ability to dodge those stupid remarks from Jordan and the rest of the people in bully town. Favorite scene: Ella vs. Jordan match.

And those **TWISTS**. Omg there were twists and juicy parts thrown in this book! How could these authors do such surprises like the ones they cooked here?

*"My instincts had screamed at me that she was trouble. My instincts were wrong. She wasn't trouble. I was. Still am."*

The romance, on the other hand, was very enticing. Reed and Ella continue to swoon me with their chemistry and cheesy dialogues. There was certainly a romantic development here which really pleases me. And my, don't even get me started on those kissing and make-out scenes.

All in all, Broken Prince was the best sequel. So well-written. I loved the way those twists surprised me and the overall goodness of the book. Now if you haven't read this sequel yet, take this warning. Prepare for a **cliffhanger** that will ruin you!

*"Nothing's really changed between us. We're still sparring, still circling each other like well-matched opponents, but we're there, in the ring, together. And that's all that matters."*

---

**Rachel Reads Ravenously says**

**NOW LIVE!!!** <http://amzn.to/2a9eqtR>

*\*\*\*There will be minor spoilers for those of you who HAVE NOT read the first book Paper Princess. If you HAVE read PP, then this review should be spoiler free of Broken Prince spoilers. You were warned.\*\*\**

**5 stars**

*"He told me to stay away. He told me I didn't belong. If only I'd listened to him."*

OMG. Erin Watt you lovely ladies!! You outdid yourselves.

This was an amazing follow up to Paper Princess and I loved it!! I couldn't ask for a better sequel to book one.

Basically I have so many feelings about this book I need to express them in gifs. So this is gonna be a giftastic review. Here we go!

When the arc hit my kindle:

Me after reading this book:

Let's start from the beginning, or I should say the end of book one. Ella has left the Royal household heartbroken and alone. The Royal family desperately wants to find her as she is the missing piece of the puzzle that held their dysfunctional family together. Reed has a past he needs to explain to Ella and he needs to make amends for wrongdoings.

That's all I will say about the plot, really. What I can say is, I LOVED THIS BOOK! Paper Princess is already one of my favorite books of 2016 and I am so happy that Broken Prince was just as amazing, it lived up to all of my expectations and more.

***"My instincts had screamed at me that she was trouble. My instincts were wrong. She wasn't trouble. I was. Still am. Reed, the destroyer."***

These characters, they are what make the book so special. Flawed, raw, and maladjusted they may be, but they stick to your heart with an iron grip and do not let go. My favorite character? Easton! Is that really a surprise? This bad boy steals the show in any scene he is present in and I love how the authors continue to peel back the layers and show who he is beneath his tough exterior.

***"Whatever girl takes on Easton is going to have to hold a whip in one hand and a pistol in the other."***

I also adore Ella as a heroine. She's such a good person through and through. She defends the weak and stands by her friends when they need her. With all the craziness going on with some of the side characters, I can honestly say I personally would have tried to blend into the shadows. Instead Ella faced those who bullied and fought them head on. She's an admirable girl, and an amazing heroine for us to read about.

***"Ella Harper doesn't forget. Ever."***

Delicious angst is present in this book as well, intricately woven into the story without being overwhelming. And this book was FUNNY. There were several moments where I laughed out loud and then was so glad I wasn't reading in public and no one could see. There were also so many plot twists and turns, this book will keep you guessing! Never a dull moment in the life of a Royal.

There are some characters in this book, I really hope they get what's coming to them in Twisted Palace.

That ending???

There were some plot points I had guess at timidly, but I didn't see that ending coming at all. When is Twisted Palace coming out????? I cannot wait!!!!

Overall I think fans of the first book will love this second installment. It's a book I was unable to put down and I never wanted to leave the Royal world. And if you haven't read Paper Princess yet, what are you waiting for???? Get it and start reading now!!!

*"She's the best thing to happen to the Royals I a long time."*

*ARC kindly provided by authors in exchange for an honest review*

-----  
Before receiving the book:

You have no idea how much I am dying to read this book.

---

## **Helen 2.0 says**

The ending got me like

Seriously. Imagine yourself reading the last bit of a book, right before the ending. Out of nowhere, someone comes up to you and SMACKS YOU ACROSS THE FACE.

Pow. Right in the kisser.

Then that person says, "Oh. I'm sorry. Did that hurt?", reaches in as if comfort you, then SMACKS YOU ACROSS THE OTHER SIDE OF YOUR FACE.

That is approximately how it feels to read through the end of Broken Prince.

I'll say this in favor of the authors though - they sure know how to make a reader reach for the next volume.

---

## **Christine Wallflower & Dark Romance Junkie says**

### **On a scale of 1 to 10 how happy and shocked am I?**

I think an even 20 would aptly explain my current emotional status. I inhaled this book!

If you thought Paper Princess was amazing, you're going to be blown away by Broken Prince! I can't even begin to explain all the awesome in this book.

First of all welcome back to Astor, land of the Rich and elite members of society. I'm sure you remember the Royals? They hold the most important role in Astor. But I digress, because the most important and my favourite Royal...ahem by that I mean Reed Royal, is going to steal your heart and blow your mind. Prepare to be ruined.

I keep trying to compare this series to other books I've read before, but honestly there is no comparison. This is on another level of book crack, addictive, emotional roller coaster level of goodness.

Broken Prince, surpassed Paper Princess. You'll have all those questions you had answered but it'll give you new ones too! It's a perfect blend of push and pull, love and hate, bittersweet and everything in between. This writing duo, has a knack for writing excruciating cliffhangers and I'm starting to think these authors take a perverse pleasure in making me insane. I do love that insane feeling though.

The Reed boys once again stole my heart, I obviously have a soft spot for Reed and... Easton and they both didn't disappoint. Ella proved what an absolute badass heroine she is. None of that whining and self hate we normally get from teenage heroines you'd expect. This book and series is

### **Perfection!**

*My instincts had screamed at me that she was trouble. My instincts were wrong. She wasn't trouble. I was. Still am.*

*Reed, the destroyer.*

*It'd be a cool nickname if it wasn't my life and hers that I'm taking down.*

*ARC kindly provided by authors in return for an honest review*

---

### **ambsreads says**

**WARNING:** if you like this book/series my review probably isn't for you.

*Broken Prince* was a book I fit into the minority with, same with *Paper Princess*. Everyone seems to love these books, characters and plot line but I find it all laughable. Which is sad considering one of my favourite authors co-wrote this.

The book was full of slut shaming, bullying and all over ridiculous characters who seemed to think in ridiculous ways. I laughed for 80% of the book and the other 20% was weird sex stuff about side characters. I mean (view spoiler)

So much went on during this book that I was **speechless** at how completely ridiculous the characters were. From Callum to Ella I was ready to slam my head against a wall at full speed with not a single regret. Everyone in this book can buy their way out of things, or thinks it's okay to be an absolutely awful person to someone.

The book picks up where book one finished though. The cliffhanger being picked up from Reed's point of view as he tries to work out where she is. Honestly, that's not important because Callum uses his PI to find her so all is fine and dandy because he tracked the serial number on a 100 dollar note. The rest of the book is boring. Ella and Reed are trying to ignore each other and it's not going well because they usually end making

out. Then Brooke announces she's pregnant and *oh no what if it's Reed's?!* There you go. There's basically the entire plot of this book. Oh, and the twins sex lives and the fact East is a hoe and Gideon is being blackmailed. It's all ridiculous and I sincerely couldn't relate to anyone.

### *Characters*

**Ella** was as dumb as she was in book one. You see, we're supposed to like Ella for three reasons. 1. She's poor. 2. She's a virgin and ultimately *not* a slut. 3. She's "standing up for herself". All these are ridiculous reasons. The girl has no personality. She is self absorbed and crazily obsessed with Reed to the point it's ridiculous. I hate girls like this and I personally would have stabbed her myself, (view spoiler)

Her reaction to situations was always the extreme. Nothing simple was enough for Ella in this soap opera book, she *had* to pull a girl by her out of the school and she *had* to do her best to like ignore Reed (as if she even tried).

Ella was absolutely ridiculous in every way. I have no words to describe her though I may come back to insert more anger in this review.

**Reed** was a straight up asshole. There's nothing more to it. He was weird, arrogant, slightly creepy in the way he pursued Ella in order to get her to forgive him (I honestly don't know why Ella forgave her).

I don't even know what to say apart from I wouldn't trust Reed Royal as far as I could throw him.

### *Writing*

The writing was atrocious. There was no substance or actual feeling. These characters were one dimensional and felt 12 half the time. There was no reason for the characters to be so obsessed with each other's lives to the point it literally became the focus of the school.

I hated the fact that the authors decided to make the school a kingdom basically. It was ridiculous and tacky.

### *Overall*

Overall, this book is straight up **tacky**. There is nothing that makes me want to continue the series apart from the fact I want a good laugh. I would never, ever recommend this series to someone personally. Which sucks, because I know this is a book an author worked hard on - but I just don't like it. This book was also worst than the first one in my opinion I was laughing and gagging at the sheer idiocy.

---

### **Katerina says**

*“My instincts had screamed at me that she was trouble. My instincts were wrong. She wasn't trouble. I was. Still am.  
Reed the destroyer.”*

**These Royals have ruined me.**

*“I thought, I’ll just keep after him. Eventually I’ll wear him down, convince him we’re a beautiful fairy tale. But we’re not. We’re nothing. We’re smoke - insubstantial and meaningless ... We aren’t even a tragedy. We’re less than nothing.”*

Broken Prince is a **sick fairytale**. It's the story of a broken boy who met a broken girl, fell in love with her and then crashed her. The Royals are the most **fucked-up, twisted family** and yet instead of disgust all I felt towards them was **sympathy, devotion** and *love* .

Broken Prince was so much better than Paper Princess. It was a tad **dark**, and the **dirty secrets** of the royally messed-up family that were revealed shocked and hurt me, but they made me understand better why these boys were so lost and dealt with their pain and abandonment issues using sex, alcohol and drugs. I can't help but blame their parents for that. I am not angry at Gideon, Easton and the twins for the slightly disturbing things they did. I just feel sorry for them.  
And then there is Reed.

Ok, that's a big fat lie. But luckily my faith in him was restored, and I witnessed with eagerness and hope his attempts to win Ella back. In fact I enjoyed his perspective more than hers, because it shed light to his guilt, his self-loathing and the ugly things he did but later regretted. I believe that deep down he *is* a good guy, it's just the battle against his demons that wears him down.

*“She’s mine and always has been. From before we even met, she was mine and I was hers. I fought it too long, but I’m giving in now. I’m all in now.”*

**Tension, steam, greed and malice** are Erin Watt's ingredients of writing a **gripping story** you can't help but read in one sitting. Yes I did find some incidents extravagant and questioned my sanity for loving characters whose issues would make any therapist rich beyond imagination, but the thing is, I became attached to them. I want them to be happy because that will make *me* happy. In the end, I felt exhausted after this **emotional roller-coaster** and the cliffhanger from Hell, and I wondered how on God's green earth I will survive until October.

---

◆ Anna's ?a?????g\$ ◆ says

Arghhh...

This is NOT a review. This is me blowing off some steam, that is all.

WHAT HAVE I DONE?

Nobody forced me to do it. This is on me.

I could have waited for the next installment. I wanted to wait. I said I would wait. I SWORE I would wait.

AND I still did it. Why? WHY didn't I wait?

I know WHY. Because I'm too WEAK.

So I'm just gonna wait over here. No problem.

Three months. Easy. The time will fly by. Right?

RIGHT.

*"These Royals will ruin you..."* Literally.

Dear authors, can you please speed up the release of the next book?

WHAT THE HELL!!!

Okay first of all! Elle Kennedy & Jen Frederick (Erin Watt is their pen name) you girls are an evil! That end! I'm gonna lose my mind... GOD DAMMIT! Another cliffhanger.. How? How is that be possible? Ugh I swear a God, this series will give me a heart attack!!! Everything is so messed up! :-/ But damn, it was so freaking good. I loved it so much. :D Oh also I should say this, this ladies became one of my favorite authors now. 'Cause Elle & Jen are an amazing story teller and I'm amazed by their humor too. They're really great together. :)

So people, please stop losing time and read this series asap! But I guess I should've warn you 'cause maybe it's safe to wait all the 3 books come out. But if you don't wanna wait the last book and decide to read 1st & 2nd book, I'll tell you this! You'll get hurt as much as I did because I'M DYING IN HERE!!!! I WANT LAST BOOK RIGHT NOW! I NEED IT!!!

## **Jodi Bibliophile says**

(Please note that this review contains curse words. If you don't like the F word then please don't read on).

It's MOTHERFUCKING LIVE!!!!!!!

FUCK OFF!!!!

FUCK OFF RIGHT FUCKING NOW!!!

I can't fucking even!!!

HOLY FUCKING SHIT I'M LOSING MY SHIT!!!

I mean if I could calm myself fucking down and take a few deep breaths I could probably get my emotions in check and actually make fucking sense of my fuckin self but NOOOOOOO!

Elle & Jen!!! Are you trying to fucking kill me?

This is how I'm going to fucking die isn't it??

I thought I would go in a freak accident or at least with a cock down my throat but now you decide to kill me off this way!!

Oh but what a way to go!!

No word of a lie my hands won't stop shaking!

The adrenaline pumping through my veins is probably going to give me a bloody heart attack!

REED!!! Oh my Reed! I never thought I could love any more than I did in Paper Princess but FUCK MY FACE you fucking OWN ME!!!

Oh fucking hell I'm still in shock!

Like FUCK!!!!

How these authors do it is fucking beyond me! Motherfucking geniuses the pair of them!

Yep. I'm ruined. ROYALLY FUCKING RUINED!

My heart is beating out of my fucking chest and I just want to whip my boobs out and SCREAM!

Don't fucking leave me hanging like this!

My anxiety is all over the place and I'm so happy I could fucking DIE!!

READERS!! Get off your motherfucking arses and READ PAPER PRINCESS!!

DO IT!!!

It will fucking ruin you and make you stabby but the adventure will be one heck of a ride! Read it and then read BROKEN PRINCE!!

One of the BEST SERIES I've EVER READ!!!

Give me TWISTED PALACE NOW!!!!

I need to calm down!!

Fuck you all! I'm out!!

## Nastassja says

### Actual rating: 1.5

Buddy read with Sarah. We were planning to have a massive buddy read with humor and all, but ended up angry and tired of this book.

### MAJOR SPOILERS ALERT

But we're we're not. We're nothing. We're smoke—insubstantial and meaningless. We aren't even a tragedy. We're less than nothing."

Let me present to you: **Orphan Stripper, Douche and Creepy Dad Volume two**. Ta-dam. This book will blow your mind with its genius ways and make you reevaluate your whole life, because you'll understand you wasn't living till the moment you took this precious book in your hands and miracle happened... Oh crap, let's cut this shit. I was trying to be witty above, but I don't think this book deserves witty. It was boring as fuck and it was dumb as fuck. What kind of review can you write on such books?

*So, in a nutshell that is what happened in there:*

Ella the Stripper runs away. She is quickly handled back to Royal Douches. One of the Douches (either the second son or the creepy dad) impregnates the Creepy Girlfriend. Creepy Girlfriend wants a ring on her finger or she'll tell the world she was screwing both Royal Douches.

\*gasp\*

*This is such a strong motive for blackmailing. Of course, you must comply or your life will be over over (that was actually sarcasm here).*

But look, Douche decides to follow up with the demand even though he knows for sure the baby isn't his. They don't demand Creepy Girlfriend to make a DNA test and verify the baby is actually Douche's.

*There's a hint for you, Douches: Creepy Girlfriend could've slept with any man in town and presented his baby as yours. That idea ever crossed your mind? Nope?*

Orphan Stripper finds out about the baby. She breaks up (for the thousandth time) with Douche (but she still can't forget his abs). Douche can't stop thinking about his girl (says "my girl" all the time). Every girl is a slut compared to her- literary a slut- because there's no girl in this school or this town who hadn't have sex or talked about sex or constantly obsess with sex. Even the Orphan Stripper's best friend after breaking up with her boyfriend can't stop thinking who she wants to bang next now that she is a free woman.

*Ah, ever thought that a girl could be single and feel a whole person? No again? This book is practically glowing with warning "slut shaming everywhere!" But Orphan Stripper is special and a virgin*

\*Is this some kind of a horror movie where virgins survive the ending and the rest of the girls die? Ella, The Final Girl, huh? What? I can't hear what you are saying? Nope? it's not a horror movie? Are you sure? Because the settings are just right... Oh, ok, let's move on.\*

After a major slut-shaming part with Orphan Stripper's v-card still intact (I swear, v-card was mentioned like a million times here) we are nearing the culmination part. Ella the Stripper decides to get Douche back, because, let's be honest, who wouldn't want a boy with living breathing dick which can sit, stand and bark no worse than any cute puppy... Oh, don't forget about Douche's magic fingers, he can stick them inside Orphan Stripper all night long and never tire of that, and I am saying nothing about his tongue, which is another epic story. After sticking fingers for a while (and probably breaching Orphan Stripper's brain with them), suddenly Ella the Stripper has a brilliant idea to give her inheritance to Creepy Girlfriend so she could get out of their lives for good (I still can't understand why give her money?).

Douche decided to come clean to his Creepy Dad about his fucking sessions with Creepy Girlfriend, but turns out Creepy Dad knew all along about them and that his Douche son sticks fingers down Orphan Stripper's... you know, magic place (Creepy Dad did you just become more creepier?). And oh, the baby is not his for sure, because he was sterile for a while now and can't have kinds (thank God!).

The Rapist appears in the next scene and cuts Douche with a knife. No one dies (unfortunately).

Some time passes, some boring shit happens. Then someone rings on the door. It's police. What happened? Someone killed Creepy Girlfriend (yay, finally someone died!). Ella the Stripper suspects Douche (I guess his magic fingers weren't as magical after all, huh). Police takes the Douche away.

Silence.

Someone rings on the door again (Royal Douches are popular today). Who may it be... Oh look, it's Orphan's Stripper's dead father (zombie movie, huh?).

*I guess I shouldn't call her Orphan any longer?*

Steve, they say and the screen goes blank.

*That was a major cliffhanger if you hadn't guessed yet.*

Here, I have some bonus scenes for you:

The older Royal Douche brother was banging Ella the Stripper's Creepy Stepmother. She blackmailed him into sex by threatening to publicly expose his and his girlfriend's sexting (obviously she hacked his phone and found those. Genius Hacker Creepy Stepmother!).

*In this country (wherever the characters live) they burn people on stakes for sexting, because I don't see other reasons for dropping your girlfriend, because of that blackmailing and continuing banging the Creepy Stepmother for a year or so.*

Meanwhile younger Royal Douche brothers continue banging their shared girlfriend.

The middle Royal Douche brother continues banging his brothers' exes.

\*End of the bonus part\*

I've probably missed some other "important" events from this book, but you know, all I left to say about the Royal Douches is this:

“You should be strung up by your nuts and hung out to dry.”

**Don't read this book crap**
